True Enough Jun 14 2021 The development of an epistemology that explains how science and art embody and convey understanding. Philosophy valorizes truth, holding that there can never be epistemically good reasons to accept a known falsehood, or to accept modes of justification that are not truth conducive. How can this stance account for the epistemic standing of science, which unabashedly relies on models,

idealizations, and thought experiments that are known not to be true? In *True Enough*, Catherine Elgin argues that we should not assume that the inaccuracy of models and idealizations constitutes an inadequacy. To the contrary, their divergence from truth or representational accuracy fosters their epistemic functioning. When effective, models and idealizations are, Elgin contends, felicitous falsehoods that exemplify features of the phenomena they bear on. Because works of art deploy the same sorts of felicitous falsehoods, she argues, they also advance understanding. Elgin develops a holistic epistemology that focuses on the understanding of broad ranges of phenomena rather than knowledge of individual facts. Epistemic acceptability, she maintains, is a matter not of truth-conduciveness, but of what would be reflectively endorsed by the members of an idealized epistemic community—a quasi-Kantian realm of epistemic ends.

The Last Mrs. Summers Dec 09 2020 Lady Georgiana Rannoch is just back from her honeymoon with dashing Darcy O'Mara when a friend in need pulls her into a twisted Gothic tale of betrayal, deception and, most definitely, murder. . . . I am a bit at loose ends at the moment. My cook, Queenie, is making my new role as mistress of Eynsleigh something akin to constant torture as Darcy is off on another one of his top secret jaunts. And Grandad is busy helping wayward youths avoid lives of crime. So when my dearest friend, Belinda, inherits an old cottage in Cornwall and begs me to go with her to inspect the property, I jump at the chance. After a heart-stopping journey in Belinda's beast of a motorcar, we arrive at the creaky old cottage called White Sails and quickly realize that it is completely uninhabitable. Just when I'm starting to wonder if I would have been better off trying to get Queenie to cook a roast that hasn't been burnt beyond all recognition, we meet Rose Summers, a woman Belinda knew as a child when she spent time in Cornwall. Rose invites us to stay at Trewoma Hall, the lovely estate now owned by her husband, Tony. Belinda confesses that she never liked Rose and had a fling with Tony years ago, so staying with them is far from ideal but beggars can't be choosers as they say. Trewoma is not the idyllic house Belinda remembers. There's something claustrophobic and foreboding about the place. Matters aren't helped by the oppressively efficient housekeeper Mrs. Mannering or by the fact that Tony seems to want to rekindle whatever he and Belinda once had right under his wife's nose. Our increasingly awkward visit soon turns deadly when a member of the household is found murdered and all clues point to Belinda as the prime suspect. I soon learn that some long buried secrets have come back to haunt those in residence at Trewoma Hall and I'll need to sift through the ruins of their past so Belinda doesn't lose her chance at freedom in the present. . . .

Microcosmic God Mar 24 2022 The second volume of the Complete Short Stories of Theodore Sturgeon covers his prolific output during 1940 and 1941, after which he suffered five years of writer's block. Showcasing Sturgeon's early penchant for fantasy, the first six selections include whimsical ghost stories, such as "Cargo," in which a World War II munitions freighter is commandeered by invisible, peace-loving fairies. With the

publication of his enduring SF classic, "Microcosmic God," Sturgeon finally found his voice, combining literate, sharp-edged prose with fascinating speculative science while recounting the power struggle between a brilliant scientist, who creates his own miniature race of gadget makers, and his greedy banker. Voice found or not, every one of the stories here is readable and entertaining today because of Sturgeon's singular gifts for clever turns of phrase and compelling narrative. As Samuel R. Delaney emphasizes in an insightful introduction, Sturgeon was the single most influential SF writer from the 1940s through the 1960s.

Rigatoni Dec 29 2019 Sarah Bartlett was an Academy Award-nominated film star, an Emmy-nominated television actress and a Tony-nominated stage performer. She was also awarded her very own Varsity Jacket by the former director of the US Department of Music's Federal Hip Hop Administration. Appearing in over 20 films (including *Hearts of Sorrow*, *Hearts of Celery*; *Perkwit's Secret Bramboráky* (the fourth installment of the *Blurg* movies); and *Shadow of the Fish*), she also starred on stage in such shows as *Howling at the Moon: The Dog Musical*; *Billiard Balls of Death*; and *Dreadful About Those Shock Treatments, Eh?* The woman was also an accomplished musician who performed guitar and baglama not only with her own group (*Zoey's Lampshade*) but also with the *Hattiesburg Symphony Orchestra* and *Industrial Pole Bean Outlet*; with the *Palm Frond and Banana Spider Symphony Orchestra*; and with the '56 *Elvis Quintet* at the *Memphis in November: From Too Cool to Too Cold Music, Art and Law Practice Festival*). There were other sides to Sarah, sides that she preferred people not know much about, sides involving Queen Victoria costumes, drinking way too many sodas at one sitting, and that whole ceramic curry serving bowl (from 2400 BCE) incident, which she knew would greatly upset anthropologists all over the world. Here, for the first time, is the entire story of Sarah Bartlett's life, including her children, her husband, her boyfriend, her shoes, her Toyota Cadberry, and her dreams (some of them involving picture frames made of cheese; some of them involving the Poky Little Puppy; some of them involving Gloria Swanson wearing a miniskirt, a pair of orange flip-flops and a T-shirt with a picture of Andy Warhol and the phrase "Hey, look, I'm a can of soup" on it; some of them involving cats with lobster claws for legs; and some of them involving copious amounts of Ranch Dressing). The book also includes over 150 illustrations, and some of them actually make sense. If you're looking for a book that offers the best ratio of cost per laugh, look no further. Further? Farther? Wait, let's think this out. Uhh, farther has an a in it, and measure has an a in it, so farther relates to distance. So, yeah, further is the right adjective to use. The *Seattle Drainpipe Gazette* says, "Rigatoni is to books as cat hair is to dogs." The *Farmington Inquirer* calls Rigatoni "unobtrusive," "mildly trapezoidal," and "looks great under some flowerpots." And the *Tucson Rock Trader* says, "If we crowdfund, we can raise enough money to get this author the serious help he so obviously needs. This isn't a cry for help, this is a sustained scream through a set of Peavey Dark Matter DM 118 Powered PA Subwoofer Speakers."

Best Class You Never Had Apr 24 2022 History teacher Kevin Lee is retiring from Seneca Falls High School, where he has worked for the past forty years. He decides to use the freedom of his pending exit to toss the state curriculum and teach the U.S. survey as the story of the alluring, inspiring, murderous concept we know as the American Dream—which, he understands, his students regard with justified, if instinctive, skepticism. Lee discusses the rise, fall, and legacy of the Dream with these smart, funny, and irreverent eleventh graders, in a narrative peppered with memos, email exchanges, text messages, student journalism, and other documents from beyond the walls of his classroom. The result is the best history class you never had. A chronological history of the United States, this compelling novel also offers a snapshot of American education, written by a veteran teacher who slices through the arid literature of pedagogy to vividly depict the life of the classroom. Finally, it offers a deeply affectionate and patriotic vision of American life—one fully aware of the nation's limits and failures while honoring the longings so many of us have to believe in our country, even as we harbor deepening doubts about our nation.

The Faithful Nov 27 2019 In the Prologue, written in 2290, Erik Wong, the narrator, is the last Survivor of 14 babies kidnapped in 2210. He has reconstructed details of the episode from personal memoirs, correspondence, and official documents. Radiant Praxis, the bloodless revolution of 2080, abolished all political boundaries and established seven Continental Federations, each with its own democratically elected leaders. Each Federation is represented on the InterContinental Confederation (ICC). One problem remains, however. The horrendous persistence of the Great Plague (GP), which decimated most of the world's population during the 21st century and galvanized Survivors to value life over death. Until the babies disappeared, the world has been serene and peaceful. No war, no weapons, no competition, no crime, no fear, no greed, no poverty, no hatred, no pollution, no "Get Even" -- problems which had harried earlier centuries. Technology, talents, and natural resources are shared and bartered cooperatively. Journeys between continents and to outer space are routine. The InterContinental Confederation (ICC) assigns the responsibility for finding the babies and their kidnapers to its seven Operational Alliances, coordinated by the Conflict Resolution Alliance (CRA). When one of the missing babies is found dead, fear begins to contaminate the Earth. Suspicion focuses on the Faithful, a secret cabal of the discredited and ostensibly disbanded multinational corporate industries which had ruthlessly controlled Food, Religion, Technology, Weapons, Governments, Manufacturing, Communications, Chemicals, Health Care, and Finance. But critical questions remain: who killed the baby? and where are the others? Back in the 20th century, the worst fear had been war between nations, each one fighting for more money, more territory, more property, and more power over the others. In the 21st century small groups of terrorists used religion to justify their murderous escapades. Scapegoats were denigrated and attacked. Each group had its own set of enemies. Human beings slaughtered one another with religious zeal, using terrifying weapons of destruction, which grew ever more efficient. In those dark days, powerful weapons proliferated in the hands of national governments and small groups of terrorists, obsessed with hatred. Weapons were readily available to ordinary adults and children. Life was taken for granted. Suicide was rampant. Killing was easy. Enemies were destroyed because they were "different" or refused to accept subordination or practised their own version of religion or refused to relinquish their property or their national sovereignty. Monuments to the dead were everywhere. Battlefields were sacred. National anthems glorified political boundaries and their flags and their bloody wars. Some religious wore symbols of an execution device -- a cross -- as jewelry, and they hung the cross with a dying man nailed to it over their beds, around their necks, and on the walls of their buildings. Death in the name of each righteous cause was venerated. Armies destroyed one another and "enemy" populations in the name of their own particular gods or sacred causes. Suicide bombers were glorified. Various religions touted their own versions of Truth and Morality, always attributed to one or another "God" who allegedly spoke directly to earthly leaders. Religious disagreements often became the pretext for acts of unspeakable violence against non-believers. The superstitious blamed bad Mother Nature for disasters and credited good Father God when their prayers (wishes) came true. Love, peace, and non-violence were unable to overcome the entrenched power of the self-selected oligarchists -- the Faithful -- who used fear, insecurity, and physical force, including murder, to ensure absolute control by manipulating all economic, scientific, political, educational, military, religious, communication, technological, and social systems. Then, GP

When a couple of the student stages are damaged in a flood, she moves the show she has to direct to a local community center in the hopes of raising enough funds that they'll be able to keep their doors open. But someone wants The Center to fail, and if that means Angela's show, and her final grade, have to fail as well, they're totally okay with that. Since they met at her sister's place the previous summer, Alex Checketts has had an unhealthy interest (in his opinion) in Angela, who is twelve years younger than he is. He finds himself roped into accompanying the musical she's written for her project and gets caught up in the mystery behind who is trying to shut down the

Whether they'll be able to make it work after she moves to New York worries them both. But first they have to survive to put on Angela's show and save The Center

Fitzgerald's Craft of Short Fiction Mar 31 2020 Normal 0 false false false MicrosoftInternetExplorer4 Fitzgerald's Craft of Short Fiction offers the first comprehensive study of the four collections of short stories that F. Scott Fitzgerald (1896-1940) prepared for publication during his lifetime: Flappers and Philosophers (1920), Tales of the Jazz Age (1922), All the Sad Young Men (1926), and Taps at Reveille (1935). These authorized collections—which include works from the entire range of Fitzgerald's career, from his undergraduate days at Princeton to his final contributions to Esquire magazine—provide an ideal overview of his development as a short story writer. Originally published in 1989, this volume draws upon Fitzgerald's copious personal correspondence, biographical studies, and all available criticism, and analyzes how Fitzgerald perceived his achievements as a writer of short fiction from both artistic and commercial standpoints. Petry pays close attention to the individual stories, exploring how Fitzgerald's growing technical expertise and the evolution of his themes reflect changes in his personal life.
