A Lifetime in English

Education Aug 05 2020 A Lifetime in English Education is a reminder of how important a good school can be in providing pupils from all backgrounds with a rounded education that can only strengthen the bonds of society. This unique insight on the history of post-war British education, tells the

personal journey of Philip Vennis – a crusading educationalist, whose long career started at Dulwich College, after which he spent a short time at Bletchley Park as an intelligence officer. Following his degree from Cambridge he taught for nine years at East Ham Grammar School for Boys, became a Deputy Headmaster at Ounsdale Comprehensive School in Wombourne, and then a Headmaster at New Mills Grammar School, Derbyshire, finishing his career with almost twenty years as Principal of one of Hampshire’s premier Sixth Form colleges at Itchen College, Southampton. As his career develops so does

his conviction in a belief that a wide ranging education should be provided by the state for all. Philip’s career spanned the post-war education acts, and the rise of the comprehensive system, right up to the cultural changes of the eighties. His belief in public service, his passion for the arts, and his conviction in the power of education to help people transcend their backgrounds is completely different from the primary experience for most current Heads, that of managing a budget and making schools more cost-effective and running them like a business. This book, written by his wife, Diana Vennis, should be an inspiration to all progressive

educationalists. In a contemporary environment where the co-ed, comprehensive, open access philosophy seems to have lost out to a market-led educational system, this book is a timely reminder of the journey British education has taken in the post-war period.

begin in Sarajevo, a small, blissful city where a young boy's life is consumed with street soccer with the neighborhood kids, resentment of his younger sister, and trips abroad with his engineer-cum-beekeeper father. Here, a young man's life is about poking at the pretensions of the city's elders with American music, bad poetry, and slightly better journalism. And then, his life in Chicago: watching from afar as war breaks out in Sarajevo and the city comes under siege, no way to return home; his parents and sister fleeing Sarajevo with the family dog, leaving behind all else they had ever known; and Hemon himself starting a new

life, his own family, in this new city. And yet this is not really a memoir. The Book of My Lives, Hemon's first book of nonfiction, defies convention and expectation. It is a love song to two different cities; it is a heartbreaking paean to the bonds of family; it is a stirring exhortation to go out and play soccer—and not for the exercise. It is a book driven by passions but built on fierce intelligence, devastating experience, and sharp insight. And like the best narratives, it is a book that will leave you a different reader—a different person, with a new way of looking at the world—when you've finished. For fans of Hemon's fiction, The Book of

My Lives is simply indispensable; for the uninitiated, it is the perfect introduction to one of the great writers of our time. A Kirkus Reviews Best Nonfiction Book of 2013

depicts his life experiences from the 1930s to the early twenty-first century. It is intended primarily for his descendants who may be interested in the trials, failures, aspirations, and successes of their ancestor. It may also be of interest to those who recognise that reward is not a right, but the result of dedication and effort. It will describe the foundation and subsequent personal development that his life at sea, family responsibilities and struggles in political manoeuvring to reach business recognition and success all led to the creation and development of his own successful corporate identity. **Life and Health Insurance**
