The “social” features of these technologies create the necessary “massification” effects that make millions of users share their own personal information and content over large web-based interactive platforms. Corporations, businesses and governments all over the world are also developing and deploying more and more applications to interact with their businesses, customers, suppliers and citizens to enable stronger and tighter relations with all of them. Moreover, legacy non-Web systems are being ported to this new intrinsically connected environment. IBWAS

Viele Firmen sind immer noch der Meinung, dass sie sich dem zum Teil globalen Wettbewerb mit einer einfachen Webseite stellen können. Dies bestätigt ihr Handeln, da einige Internetauftritte von Unternehmen, besonders im mittelständischen Bereich, äußerst unprofessionell wirken. Die andauernde Rezession der Wirtschaft hat den Unternehmensverantwortlichen jedoch gezeigt, wie wichtig es ist, die neuen Technologien effizient einzusetzen. Dass dies eben nicht so einfach ist, lässt sich daran erkennen, dass mittlerweile einige Unternehmen insolvent sind, weil Sie es versäumt haben, die neuen Techniken in ihr Unternehmen schnell, richtig und kostendeckend bzw. gewinnbringend einzubinden. Auch war es dem Kunden schlicht zu unsicher, im World Wide Web sein Geld auszugeben.
