Arabic Today Sep 05 2020 Audio material to accompany the book is available at the following website: www.eupublishing.com/page/ArabicToday/audio A student, business and professional course in spoken and written Arabic aimed at those with no prior knowledge of the language. Suitable for business professionals and students wanting to communicate directly with people and institutions in the Arab world, Arabic Today is a self-contained course in contemporary Arabic. Tuition tends to concentrate either on the written language (never used in everyday speech) or on a selected regional dialect (which is never written down). Arabic Today breaks with this tradition, capitalising on the emerging form of spoken Pan-Arabic. This supraregional form of educated speech is drawn from the most influential areas, as well as the modern written word. So whether you wish to speak the language or add writing skills as well, this course book and accompanying audio website are the ideal tools for self-tuition and classroom use. The second edition of this book has been thoroughly revised and updated to make it relevant to a new generation of readers. Grammar is explained more clearly and precisely, the reading material has been updated and the typography is clearer. New word indexes give meanings and reference for the vocabulary and together with the grammar index they offer an invaluable additional reference function.

Studien zu Röm 13,1-7 Oct 31 2022 English summary: Due to its reception history, the exhortation to be subject to governing authorities in Rom 13:1-7 is one of the most contested passages in the Pauline epistles. Stefan Krauter presents the first exegetical monograph to interpret the text as a part of Neronian political discourse. Paul takes up central motifs of Graeco-Roman political ideology of his time, as well as traditions of Jewish political thought. Rom 13:1-7 not only advises Roman Christians to avoid political turmoil but also legitimizes governing authorities as installed by God in order to promote the moral good. It is further argued that it is in no way possible to deduce from this text a Christian political ethics for today. German description: Die Ermahnung zur Unterordnung unter die Obrigkeit in Rom 13,1-7 gehört aufgrund ihrer Wirkungsgeschichte zu den umstrittensten Passagen im Corpus Paulinum. Erstmals wird hier der Text umfassend in den politischen Diskurs seiner Entstehungszeit eingeordnet. Aus literarischen, epigraphischen und numismatischen Zeugnissen arbeitet Stefan Krauter zentrale politische Themen der Herrschaft Neros heraus. Er analysiert die Stellung des Paulus und seiner Adressaten innerhalb des römischen Herrschaftssystems. Darauf aufbauend werden die Aussagen von Rom 13,1-7 historisch verortet und interpretiert. Dabei zeigt sich, dass die verbreitete Einschätzung, Paulus reagiere mit dem Text pragmatisch auf ein aktuelles Problem in Rom mit der Anweisung zu politischer Zurückhaltung, nicht richtig ist. Paulus legitimiert vielmehr Herrschaft grundsätzlich als von Gott zum Zweck der Durchsetzung des moralisch Guten eingesetzt. Dabei nimmt er zentrale Gedanken sowohl aus dem aktuellen politischen Diskurs seiner Zeit als auch aus der jüdischen Tradition auf. Der so interpretierte Text wird mit weiteren Aussagen des Paulus über die römische Herrschaft verglichen und zu zentralen Themen seiner Theologie in Beziehung gesetzt. Abschliessende Überlegungen zu seiner aktuellen theologischen Relevanz zeigen, dass von ihm kein Weg zu einer heute verantwortbaren christlichen politischen Ethik führt.

The Secret History of Lucifer (New Edition) Mar 31 2020 In her new account of an old religion, Lynn Picknett explains that Lucifer means 'the light bringer' and was a personification of the Morning Star, the planet Venus and its goddess. 'He' was originally 'she' -- a divine representation of love, light and human warmth. The early Christian Church appropriated the name Lucifer, and it became synonymous with darkness and the Devil. Yet many great thinkers have covertly followed the old Luciferan way, most famously Leonardo da Vinci, who encrypted the symbols of his heretical beliefs in his work, visible only to those who have the key.

Electing a President Oct 26 2019 The image of a prison with a revolving door helped George Bush win the presidency in 1988, but did negative advertising damage the electoral process itself? Why did campaign '88 represent an all-time low in the minds of many voters? These are some of the questions that impel this thought-provoking analysis of the 1988 presidential election, sponsored by the John and Mary R. Markle Foundation. Using extensive empirical studies of the candidates, the media, and the voters, Bruce Buchanan, executive director of the Markle Commission on the Media and the Electorate, traces the roots of popular dissatisfaction with the 1988 election. Buchanan argues that the campaign drifted too far from popular ideals of how democratic processes ought to work—that the substitution of negative advertising and quickie “sound bites” for reasoned debate on national problems and issues alienated much of the electorate, causing the lowest voter turnout in sixty-four years. Negative campaigning, however, cannot bear the full blame for the 1988 election. While the Markle Commission offers specific recommendations for improvements in candidate and media performance, the great need, says Buchanan, is for voters to reclaim the electoral process, to insist that candidates and the media give enough information about positions and programs for voters to make informed choices. Voters need to be educated out of the idea that democratic elections and representative government can somehow occur without the participation of ordinary citizens. At a time when the American democratic process is being used as a model by newly independent nations around the world, it is particularly appropriate to ask how well it works at

home. Electing a President does just that.
