BRICS and International Tax Law Sep 13 2021 With the ongoing expansion of outbound foreign direct investment (FDI) in the countries representing the BRICS economic bloc (Brazil, Russia, India, China, and South Africa) – and with all of them at the same time listed among the top seven countries plagued by tax evasion and avoidance in the guise of illicit out flows – the governments, both individually and through cooperative initiatives, have devised new international tax strategies that are proving to be of great interest and value to other countries, both developing and developed. The core of these strategies addresses the necessity of stemming the out flow of revenue while strongly supporting FDI, both inbound and outbound while complying with international obligations including those arising from human rights laws. This book is the first in-depth commentary on this new and evolving area of international tax law. The detailed analysis covers the entire field of BRICS international tax law, considering topics such as the following: – information exchange procedures and pitfalls; – response to the OECD's Base Erosion and Profit-Sharing (BEPS) initiative; – role of bilateral and multilateral double taxation conventions including the Multilateral Instrument and the Bilateral Investment Treaties; – thin capitalization; – transfer pricing; – controlled foreign corporation rules; – shortcomings related to authorities' limited manpower; – international audit and investigation procedures; – the BRICS approach to residence and mandatory and binding arbitration; and – the BRICS approach to shaping the developing world's international tax system. Notably, the author personally conducted interviews with senior international representatives of the BRICS tax authorities, as well as with leading BRICS academics and practitioners. Tax cases, together with human rights and investment cases and administrative guidelines in all these countries are also included in the analysis. The study concludes with recommendations for improving each of the countries' tax law and procedures, especially in the area of dispute resolution. The author's goal is to extend the existing body of knowledge of the BRICS' international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance: an approach which facilitates both outbound and inbound FDI, simplifies tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty. In achieving this objective, the author has produced a major work that is of immeasurable value to tax advisers, government and governance officials, academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities.

Design and Development of Affordable Healthcare Technologies Mar 27 2020 Technological advancements in the last few decades have significantly revolutionized the healthcare industry, resulting in life expectancy improvement in human beings. The use of automated machines in healthcare has reduced human errors and has notably improved disease diagnosis efficiency. Design and Development of Affordable Healthcare Technologies provides emerging research on biomedical instrumentation, bio-signal processing, and device development within the healthcare industry. This book provides insight into various subjects including patient monitoring, medical imaging, and disease classification. This book is a vital reference source for medical professionals, biomedical engineers, scientists, researchers, and medical students interested in the comprehensive research on the advancements in healthcare technologies.

Beyond Strategies: Cultural Dynamics in Asian Connections Aug 24 2022 While strategic issues continue to be the critical element for foreign policy formulation there are significant dimensions outside the hard core of policy framework that remain by and large unappreciated in policy-related literature. These dimensions envelop a rather wide range of actions/activities that essentially comprise what could be broadly referred to as constituting cultural dynamics. These entail looking beyond the radar of strategic relationships, at socio-cultural engagements encompassing both institutions and communities. These in turn involve a large number of citizens cutting across boundaries and reiterating and reemphasising a sense of belonging or (un)belonging. This volume is an attempt at looking beyond the realms of strategy in the Asian geopolitical space. This compilation of essays, commentaries, research notes and film review is an attempt at presenting a nuanced understanding, analysis and appreciation of the cultural linkages in the Asian milieu.

India Policy Forum 2013-14 May 21 2022 The India Policy Forum (IPF) is organized by the National Council of Applied Economic Research (NCAER) in New Delhi in partnership with the Brookings Institution, Washington, D.C. It aims to examine India's economic reforms and its economic transition using policy-relevant empirical research. The IPF comprises an annual international conference in July in New Delhi and the IPF Volume that brings together the conference papers. These papers undergo detailed revisions after

the conference based on discussants' comments at the IPF and the guidance provided by the editors. The IPF is guided by distinguished international advisory and research panels. The first paper in this 2013 IPF Volume evaluates the impact of laws governing the operation of India's labour market within the organized industrial sector. The next paper analyzes India's role in the rapid development of international production networks. The third paper examines the conduct of Indian monetary policy since the onset of the global financial crisis, focusing on the persistent high rates of inflation in India. The fourth paper provides an overview of fiscal and monetary policies in the years after the financial crisis. The volume concludes with an assessment of the value of social audits, widely advocated as a tool for improving public accountability, in the MGNREGA program in Andhra Pradesh. The annual IPF Volume is globally the most cited collection of articles on India and should be useful to researchers and policy-makers in economics and political economy.

**English Studies in India Oct 26 2022** This volume is a collection of scholarly papers that explore the complex issues concerning English Studies in the present Indian context. The discussions in this volume range from historical perspectives to classroom-specific pedagogies, from sociological and political hierarchies to the dynamics of intellectual development in the English language environment. Interrogating both policy and practice pertaining to English Studies in the context of Indian society, culture, history, literature and governance, the chapters seek to formulate contemporary perspectives to these debates and envision alternative possibilities. Since the introduction of English to India more than 2 centuries ago, the language has transmuted the very fabric of Indian society, culture, history, literature and governance. The idea of India cannot be conceived in its entirety without taking into consideration the epistemological role that English has played in its formation. The present globalized world order has added dimensions to English Studies which are radically different from those of India's colonial and postcolonial past. It is therefore imperative that the multitudinous shades and shadows of the discipline be re-examined with inputs drawn from the present context. This volume is for scholars and researchers of English literature and language studies, linguistics, and culture studies, and others interested in exploring new paradigms of engagement with the disciplinary formulation of English Studies in India.

**Deep Learning Applications and Intelligent Decision Making in Engineering Oct 02 2020** Deep learning includes a subset of machine learning for processing the unsupervised data with artificial neural network functions. The major advantage of deep learning is to process big data analytics for better analysis and self-adaptive algorithms to handle more data. When applied to engineering, deep learning can have a great impact on the decision-making process. *Deep Learning Applications and Intelligent Decision Making in Engineering* is a pivotal reference source that provides practical applications of deep learning to improve decision-making methods and construct smart environments. Highlighting topics such as smart transportation, e-commerce, and cyber physical systems, this book is ideally designed for engineers, computer scientists, programmers, software engineers, research scholars, IT professionals, academicians, and postgraduate students seeking current research on the implementation of automation and deep learning in various engineering disciplines.

**Understanding Public Diplomacy in East Asia Oct 14 2021** Set against the backdrop of tensions in East Asia, this book analyzes how East Asia's "new middle powers" and emerging powers employ public diplomacy as a key element of their foreign policy strategy and in so doing influence regional power dynamics. The volume brings together contributions from an international and influential group of scholars, who are leading debates on public diplomacy within East Asia. Where the study of public diplomacy has so far focused primarily on the West, the essays in this book highlight the distinct strategies of East Asian powers and demonstrate that understanding public diplomacy requires studying its strategies and practices outside as much as within the Western world. A focus on public diplomacy likewise gives us a more varied picture of state-to-state relations in East Asia.

**PROFESSIONAL ETHICS AND TEACHING COMPETENCY OF TEACHERS Feb 18 2022 1.1** Introduction: Brain is the best gift of God to humanity. It makes him supreme among all other creatures of earth. A child's brain although a natural gift, needs to be shaped and well directed for living an agreeable, calm and contingent life. The practice which carries out this reward is what we mark as education. Education trends and carves him for humanity. There are usually two characteristics of human life: one is natural or biological and the other one is socio-cultural or spiritual. Man envisaged in terms of his biological subsistence alone is no better than an animal. His biological subsistence is secured through food, shelter and reproduction. But human life can never be limited to its biological existence alone. Man's life can only be overvalued by education and it is only the cultural or social feature of human life which specifies his ultimate place and thus composes the splendid work of Almighty creator.

**International Handbook of Psychological Well-Being in Children and Adolescents Sep 20 2019** This handbook addresses universal developmental and cultural factors contributing to child and adolescent mental health and well-being across the globe. It examines sociocultural contexts of development and identifies children's and adolescents' perspectives as critical to understanding and promoting their psychological well-being. It details the Promoting Psychological Well-Being Globally project's methodology for data collection and analysis, provides cross-cultural analyses of its findings, and offers a practical model for clinicians and other professionals seeking to apply this knowledge to real-life settings. Featured topics include: Sexual health, gender roles, and psychological well-being in India. Psychological well-being as a new educational boundary in Italy. Mapping psychological well-being in Romania. Youth perspectives on contributing factors to psychological well-being in Sri Lanka. Culturally specific resilience and vulnerability in Tanzania. Longing for a balanced life – the voices of Chinese-American/immigrant youth in the United States. *The International Handbook of Psychological Well-Being in Children and Adolescents: Bridging the Gaps Between Theory, Research, and Practice* is an invaluable resources for researchers, clinicians, scientist-practitioners, and graduate students in child and school psychology, social work, public health, positive psychology, educational policy and politics, and maternal and child health.

**IMPLEMENTING INCLUSION IN SCHOOLS Dec 16 2021** Implementing Inclusion in Schools School restructuring initiatives worldwide indicate a paradigm shift towards inclusion. Even though inclusive education has come a long way, its effective implementation at different levels in school, as well as higher learning institutions, is a challenging and perplexing task which requires demystification. An attempt has been made in the book to connect theoretical framework with practicing strategies and global trends in inclusive education in addition to highlighting challenges and issues. The book brings together contributors from eminent scholars not only from India but also from U.S. and Brazil to share their best practices, inclusive education models and curriculum modifications to make this book a valuable resource for professionals and practitioners in the field. The book includes twelve chapters divided into two broad themes. The first deals with the theoretical aspects of inclusion such as decoding inclusion, the journey of inclusive education, policies and cultural beliefs. The second theme highlights hands-on experiences, practices, case-study of institutions implementing successful inclusion and global trends in inclusive education. The book should prove helpful for students, teachers, researchers, policymakers and administrators in the field.

***Mobility, Modernity and the Slum*** Jul 31 2020 Only virtuous humans are supposed to move in time to meet their happy destiny or karma. The tale of Jamal in *Slumdog Millionaire* is such a case of serendipitous mobility towards riches and love – a ‘journey’ in which good heroes and urban communities respecting solidarity are successfully modernised. Unsurprisingly, the film became tangled in many controversies around India’s destiny in the world: the film inserted Mumbai into various financial, political and artistic scenes, increased tourism in its filmed slums, and brought about charity projects in which celebrities and tourist businesses were involved. *Slumdog Millionaire* served as a global example of a ‘developing country’s’ uneven but unique modernisation. This book examines such mobilities of ideas, art, tourism and activism together. In doing so, it reveals the significance of Mumbai as a post-colonial city in discussions of modernity – a form of mobile adaptation to new world realities. Tzanelli examines the various agents involved in controversies through multiple virtual and real journeys to India’s colonial history and present social complexity, with a view to actualise a post-colonial future, a ‘destiny’ as the country’s serendipitous destination. Addressed to interdisciplinary audiences, the book will be a useful text for students and scholars of globalisation, mobility, tourism, media and social movement theory.

***Re-Orientalism and Indian Writing in English*** Dec 24 2019 At its most basic, re-Orientalism is defined as forms of Orientalism practiced and manifested by Orientals in representing the Orient. This book looks at the application and discourse of re-Orientalism in contemporary Indian and South Asian writing in English, particularly social realism fiction.

***The Idea of Ancient India*** Jan 05 2021 A major contribution towards the different perspectives and issues central to understanding ancient India This book engages with some of the most important issues, debates, and methodologies in the writing of ancient Indian history. Thematically structured, the first section discusses religious and regional processes through a meticulous analysis of inscriptions and material remains. The second—based extensively on archival sources—connects ancient and modern India through a discussion of the beginnings of Indian archaeology and the discovery, interpretation, and reinvention of ancient sites in colonial and post-colonial times. The third underlines the importance of reconstructing the intellectual landscape of ancient India through a sensitive, yet, critical historicization of political ideas in texts and inscriptions. The final section makes a strong case for situating ancient India within a broader, Asian, frame.

***Urban Poverty, Local Governance and Everyday Politics in Mumbai*** Nov 15 2021 This book explores the informal (political) patronage relations between the urban poor and service delivery organisations in Mumbai, India. It examines the conditions of people in the slums and traces the extent to which they are subject to social and political exclusion. Delving into the roles of the slum-based mediators and municipal councillors, it brings out the problems in the functioning of democracy at the ground level, as election candidates target vote banks with freebies and private-sector funding to manage their campaigns. Starting from social justice concerns, this book combines theory and insights from disciplines as diverse as political science, anthropology and policy studies. It provides a comprehensive, multi-level overview of the various actors within local municipal governance and democracy as also consequences for citizenship, urban poverty, gender relations, public services, and neoliberal politics. Lucid and rich in ethnographic data, this book will be useful to scholars, researchers and students of social anthropology, urban studies, urban sociology, political science, public policy and governance, as well as practitioners and policymakers.

***Trends and Issues in Housing in Asia*** Jul 11 2021 This book offers a comprehensive overview of current housing practices across Asian cities based on facts and trends in the market. For many countries in Asia, the future of housing is now. This future is closely linked to successful theoretical advancement and policy practice in housing studies. This volume brings together twelve chapters divided across four thematic parts that sum up the concept and conditionality of housing in Asian cities. It studies housing through conceptual perspectives and empirical studies to explore established notions, cultures and practices relevant to the 21st-century post-reform context in Asia. Housing and property have long been economic drivers, leading many individual households towards better lives and associated social and community benefits, while also collectively improving the economic base of a city or country. This book examines the nature of the interplay of both state and market in the housing outcomes of these cities. With its extensive geographic coverage across South East Asia, South Asia, and the Far East and a cross section of different income groups, the book will interest researchers and scholars in urban studies, architecture, development studies, public policy, political studies, sociology, policymakers in local and central governments, housing and planning professionals and commercial firms engaged in property markets or real estate in Asia. It will also provide ideas, tools and good practices for institutional enablement, stakeholders involved in these interventions, private sector organisations and NGOs.

***Uncornered*** Aug 12 2021 Are you keen to transform your career? Would you like to learn about strategies that will help you to counter career turbulence? Are you looking for practical guidelines/pointers on how to unleash your potential? Would you like to know how super achievers have achieved their outstanding success? You can find the answers to these questions and many more in Luis Moniz's book "*Uncornered - Learning from the corner office*". He has interviewed over 40 highly successful professionals from diverse sectors and job functions to capture their experiences, perspectives, learnings and practical advice in his book. The overriding theme for the book is to remain uncornered at all times so that we take charge of our careers and proactively create credentials for possible next-level roles. Luis Moniz is a senior IIMA alumnus (class of 1978) and is a leading executive & career coach focused on corporate leaders. He spent many years in senior management roles before becoming a C-suite headhunter in 2004 and then setting up his coaching practice in 2010.

***ABSOLUTE*** May 29 2020 Transcending Reality Charlie Chaplin once said that nobody lives long enough to be anything but an amateur. This expression unequivocally applies to artists, for creating art is a continuous process of learning and discovery. In order to bring the fascinating riches of artistic creativity within the reach of the mankind, ANOKHII has collaborated with artists from around the world in compiling this book. My desire is to arouse creativity and evoke a feeling of depth by bringing the plethora wealth of art into this book. By faithfully rendering the simplicity and richness of these paintings, this book intends to preserve the ‘universal language’ of art. Painting is produced when diverse range of colours harmonise together. By blending all the remarkable paintings, I wish to create harmony. In Carl Sagan’s words, ‘In the vastness of space and the immensity of time, it is my joy..’ to edit this book. Editing this book has been a huge task. I feel fortunate to have worked on it and want to thank all artists for their contributions, thoughtful opinions and patience. I hope that this book will be an ever-present source of inspiration, offering the remarkable panorama of artists around the world. To anyone who gives close mindfulness, the insights and visions contained in these paintings will extend way beyond to define what art truly is. I extend my sincere thanks and gratitude to all the valuable personalities who supported me in releasing the book

***Handbook of Personal Security*** Oct 22 2019 The issue of psychological security within an increasingly unstable, interconnected world has become a defining challenge of modern individual and cultural life. The terror attacks of September 11, 2001 and the

global financial crisis that unfolded in 2008 have intensified a sense of global and personal insecurity. This concern with psychological insecurity is reflected in contemporary culture, politics, the business world, consumer behavior, the arts, and other areas. Within this context, the psychological sciences have kept pace, vigorously investigating these issues. This handbook features the latest theory and research examining cognitive, emotional, and behavioral responses to security threats. It expands the conceptual focus from specific security threats to the broader range of antecedents, processes, and consequences of psychological security/insecurity. The chapters are organized into four content areas: personal security in individual contexts, personal security in interpersonal contexts, personal security with cultural and health contexts, and interdisciplinary analyses of personal security. They represent a new and vibrant area of research unified by the common goal of understanding the factors that shape a sense of personal security. Together, these provocative chapters provide specific starting points that will shape future theory, policy, and practice on this dominant social issue of the 21st Century and, more importantly, offer opportunities to connect social and personality psychology to its scientific kin.

Of Gods and Books Nov 22 2019 India has been the homeland of diverse manuscript traditions that do not cease to impress scholars for their imposing size and complexity. Nevertheless, many topics concerning the study of Indian manuscript cultures still remain to receive systematic examination. *Of Gods and Books* pays attention to one of these topics - the use of manuscripts as ritualistic tools. Literary sources deal quite extensively with rituals principally focused on manuscripts, whose worship, donation and preservation are duly prescribed. Around these activities, a specific category of ritual gift is created, which finds attestations in pre-tantric, as well as in smārta and tantric, literature, and whose practice is also variously reflected in epigraphical documents. *De Simini* offers a first systematic study of the textual evidence on the topic of the worship and donation of knowledge. She gives account of possible implications for the relationships between religion and power. The book is indispensable for a deeper understanding of the cultural aspects of manuscript transmission in medieval India, and beyond.

Urban Development and Environmental History in Modern South Asia Mar 19 2022 This book provides a pioneering study of the historical interaction between the city and the natural environment from the colonial to the contemporary era in South Asia. The book provides a multi-disciplinary analysis examining the environmental history of the city and bringing together contributions from environmental experts and practitioners as well as academics. Focusing on case studies stretching from the Maldives and Sri Lanka to the Indian subcontinent, the chapters trace linkages between the contemporary and earlier patterns of urban expansion and their environmental effects and consider lessons that can be drawn with respect to preventing future environmental degradation and mitigating the effects of climate change. An important contribution to the field, this book studies the contemporary environmental issues arising from rapid South Asian urbanization. It will be of interest to researchers in the field of South Asian Studies, world history and environmental history.

Managing Resources for Futuristic Wireless Networks Jun 22 2022 The key parameter that needs to be considered when planning the management of resources in futuristic wireless networks is a balanced approach to resource distribution. A balanced approach is necessary to provide an unbiased working environment for the distribution, sharing, allocation, and supply of resources among the devices of the wireless network. Equal resource distribution also maintains balance and stability between the operations of communication systems and thus improves the performance of wireless networks. *Managing Resources for Futuristic Wireless Networks* is a pivotal reference source that presents research related to the control and management of key parameters of bandwidth, spectrum sensing, channel selection, resource sharing, and task scheduling, which is necessary to ensure the efficient operation of wireless networks. Featuring topics that include vehicular ad-hoc networks, resource management, and the internet of things, this publication is ideal for professionals and researchers working in the field of networking, information and knowledge management, and communication sciences. Moreover, the book will provide insights and support executives concerned with the management of expertise, knowledge, information, and organizational development in different types of work communities and environments.

RRB Group D Level 1 Guide Sep 25 2022 1. Guide divides the entire syllabus into 4 parts 2. Every section is provided with 3 section for quick revision 3. Special section given to current affairs 4. 2 Practice Sets are given at the end of the book Candidates who are preparing for the Railway examinations, to fulfill their dream in making careers at Indian Railways. RRB has brought the golden opportunity by announcing 1,03,769 seats for Group D Level 1 in the various posts of Track Maintainer Grade-IV, Helper/Assistant in various technical departments (Electrical, Mechanical and S&T departments), Assistant Pointsman, Level-I posts in other departments of Indian Railways. Grab this opportunity with the current edition of "Study Package Level 1 Railways Recruitment Boards (RRBs) Group D" that has been designed carefully to help aspirants for the computer based test 2021. Following the latest pattern of the exam, this book is divided into chapters that have been categorized under 4 sections; Mathematics, General Intelligence, General Science and General Awareness. Each chapter of every section is well explained in detail providing complete understanding of the concepts. Each section is accompanied by 3 section tests for thorough practice. A special section is provided for Current Affairs. Apart from Sectionwise – Chapterwise learning, this book provides 2 practice sets to get the insights of the paper pattern. Enclosed with a good set of study resources, this book is a complete success package for aspirants gearing up for RRBs Group - D CBT 2021. TOC Current Affairs, Mathematics, General Intelligence, General Science and General Awareness, 2 practice sets.

International Directory of Arts 2013 Dec 04 2020 The 37th edition of *International Directory of Arts (IDA)* contains more about 150,000 addresses (including telephone and fax numbers, eMail and URL) from all over the world: Museums and Public Galleries Universities, Academies, Schools Associations Art and Antique Trade, Numismatics Art and Antiques Fairs Galleries Auctioneers Restorers Art Publishers Art Journals Antiquarians and Art Booksellers Within each chapter, addresses are arranged by country and within country, sections are set out alphabetically by city. Details of the specializations of museums, as well as the names of curators and senior academic museum staff are also included. The address contents were revised and updated for this edition following a questionnaire mailing. The revision also took into account numerous national and international reference works. The eBookPLUS format comprises the content and search criteria of the printed edition and its indices, facilitating complex searches.

Perspectives on Neoliberalism, Labour and Globalization in India Nov 03 2020 This book employs a variety of perspectives such as Institutional, Social Democratic, Marxist, Gender and Informal, Biblical and Dalit, to critically examine the impact of neo-liberal globalisation on both formal and informal sectors of the labour market and the industrial relations system. The narratives not only interrogate current institutions and paradigms, but also outline future developments.

Computational Intelligence in Industrial Application Jan 25 2020 These proceedings of the 2014 Pacific-Asia Workshop on Computational Intelligence in Industrial Application (CIAA 2014) include 81 peer-reviewed papers. The topics covered in the book

include: (1) Computer Intelligence, (2) Application of Computer Science and Communication, (3) Industrial Engineering, Product Design and Manufacturing, (4) Automatic

**Many Voices, Many Worlds** Aug 20 2019 This book explores different forms of Community Media, focusing on how the politics of caste, class, gender, and access to funding and technology, come to bear upon communities and their communicative practices.

**Mind Matters: A Psychiatrist's Narrations** Jul 23 2022 This book is narration by a psychiatrist. The purpose of this book is to provide education, information and knowledge about mental health and prevention of psychological illnesses. For this reason, Dr Shrivastava, a long time psychiatrist, has compiled stories of problems faced by patients and treatments they received with frank discussion and academic facts. One out of five people in our society suffer from a mental disorder. The experience of psychological illness disconnects them from their own selves. Though it is a treatable condition, patients seldom receive treatment. One of the main barriers is the stigma which is a clinical risk factor. We are unable to deal with stigma because people do not speak up about their experiences. We are unable to project examples of successful treatment. This limitation increases stigma.

**Women, Microfinance and the State in Neo-liberal India** Jun 17 2019 This book discusses women-oriented microfinance initiatives in India and their articulation vis-à-vis state developmentalism and contemporary neo-liberal capitalism. It examines how these initiatives encourage economically disadvantaged rural women to make claims upon state-provided microcredit and connect with multiple state institutions and agencies, thereby reshaping their gendered identities. The author shows how Self-Help Group (SHG)-based microfinance institutions mobilise agency and create channels of empowerment for women as well as make them responsible for alleviating poverty for themselves and their families. The book also brings out the importance of factoring in women's dissenting voices when they negotiate developmental projects at the grassroots level. Rich in empirical data, this volume will be useful to scholars and researchers of development studies, gender studies, economics, especially microeconomics, politics, public policy and governance.

**Banking, Finance, and Accounting: Concepts, Methodologies, Tools, and Applications** Jun 29 2020 With the global economy still in recovery, it is more important than ever for individuals and organizations to be aware of their money and its potential for both depreciation and growth. **Banking, Finance, and Accounting: Concepts, Methodologies, Tools, and Applications** investigates recent advances and undertakings in the financial industry to better equip all members of the world economy with the tools and insights needed to weather any shift in the economic climate. With chapters on topics ranging from investment portfolios to credit unions, this multi-volume reference source will serve as a crucial resource for managers, investors, brokers, and all others within the banking industry.

**ECEG2013- 13th European Conference on eGovernment** Apr 20 2022 These proceedings represent the work of authors at the 13th European Conference on e-Government (ECEG 2013). The Conference this year is hosted by the University of Insubria in Como, Italy. The Conference Chair is Professor Walter Castelnovo and the Programme Chair is Professor Elena Ferrari, both are from the Department of Theoretical and Applied Sciences at the University of Insubria. The opening keynote address is given by Dr Gianluca Misuraca from the European Commission, Joint Research Centre, Institute for Prospective Technological Studies, Seville, Spain and Gianluca is addressing the topic "eGovernment: Past, Present & Future: A policy-research perspective for renewing governance in the digital age." The second day of the conference is opened by Dr Antonio Cordella from the London School of Economics, London, UK, who will talk about "Public value creation: the new challenge for e-government policies." ECEG brings together, researchers, Government officials and practitioners in the area of e-Government from around the world. Participants are able to share their research findings and explore the latest developments and trends in the field which can then be disseminated to the wider community. With an initial submission of 153 abstracts, after the double blind, peer review process there are papers published in these Conference Proceedings from 40 countries including Australia, Austria, Belgium, Brazil, Canada, China, Costa Rica, Croatia, Denmark, Egypt, Germany, Greece, India, Iran, Iraq, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malaysia, Netherlands, New Zealand, Norway, Pakistan, Poland, Romania, Russia, Saudi Arabia, Serbia, Slovenia, South Africa, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey, UK and USA. This will ensure a very interesting two days.

**Research & Teaching Aptitude Paper-I** Apr 08 2021 2022-23 NTA UGC-NET/JRF Vol.-2 Research & Teaching Aptitude Paper-I Chapter-wise Solved Papers

**Indians in the First World War** Mar 07 2021 **Indians in the First World War: The Missing Links** is the first authoritative and complete academic account of the Indian participation in the First World War to be written by an Indian historian. The Great War involved significant Indian military contributions and casualties that are largely unheard of. The war also brought about major changes in the Indian social and political situation, caste structure and viewpoint regarding Indian identity, and fuelled the demand for India's independence. This book carefully articulates and examines these crucial historic changes. The book covers Indian perspectives on all major aspects—historical, social, political and religious, among others—that were instrumental in ensuring India's participation in the war. Based on the author's own research and deep familiarity with Indian history and contemporary political reality, the book throws new light on some major events during the war. It is an indispensable book that deserves to be read by anyone who is interested in gaining a more thorough understanding of India's contribution to and standing in world history and politics.

**U.G.C. Care Listed Research Article Trends Of Pure Science And Applied Disciplines In Higher Education System In India And Abroad During Covid-19 Lockdown Period** Jun 10 2021

**Early Detection of Neurological Disorders Using Machine Learning Systems** Feb 24 2020 While doctors and physicians are more than capable of detecting diseases of the brain, the most agile human mind cannot compete with the processing power of modern technology. Utilizing algorithmic systems in healthcare in this way may provide a way to treat neurological diseases before they happen. **Early Detection of Neurological Disorders Using Machine Learning Systems** provides innovative insights into implementing smart systems to detect neurological diseases at a faster rate than by normal means. The topics included in this book are artificial intelligence, data analysis, and biomedical informatics. It is designed for clinicians, doctors, neurologists, physiotherapists, neurorehabilitation specialists, scholars, academics, and students interested in topics centered on biomedical engineering, bio-electronics, medical electronics, physiology, neurosciences, life sciences, and physics.

**Portals of Globalization** Apr 27 2020 While ports are traditionally considered national infrastructure sites that connect states to global markets, special economic zones and past free ports are portrayed as threats to national sovereignty. This book calls these narratives into question as it explores the history of planning Mumbai's ports and free zones during periods of global and regional transition from the British Raj, to national independence, to economic liberalization. The book opens with a study of an unsuccessful plan hatched by merchants in 1833 to make Bombay a free port to deal with an emerging British India and the advent of free trade. The book ends with how India's current special economic zones and emphasis on port expansion are part of broader

goals to reposition India in transregional Asian trade, to connect Mumbai with northern India, and to enact local plans for a global city that threaten the very port that first connected Mumbai to the world. To understand the functionality of these port and zone projects beyond typical policy prescriptions, this book proposes portals of globalization as a spatial format that fosters processes of reterritorialization.

**Releasing the Commons** May 09 2021 This book moves beyond seeing the commons in the past tense, an entity passed over from the public into the private, to reimagine the commons as a process, a contest of force, a reconstitution, and a site of convening practices. It highlights new spaces of gathering opening up, such as the digital commons, and new practices of being in common, such as community economies and solidarity networks. The commons is seen as a contested domain of the collective and as a changing way of being in common, with the balance poised in the tensile play between political economy and social innovation. The book focuses on the possibility of recovering a future in which more can be held by the many, focusing on three concepts: nation and nature as a commons, publics and rights, and bodies, concerning the management of lives and livelihoods. Across these three passage points, the book finds evidence of a commons under attack but also defended in fragile though promising ways. With contributions from leading scholars, this thought provoking book will be of great interest to students and scholars in geography, environmental studies, politics, anthropology, and cultural studies.

**An Illustrated History of Health and Fitness, from Pre-History to our Post-Modern World** Sep 01 2020 This book examines the health/fitness interaction in an historical context. Beginning in primitive hunter-gatherer communities, where survival required adequate physical activity, it goes on to consider changes in health and physical activity at subsequent stages in the evolution of "civilization." It focuses on the health impacts of a growing understanding of medicine and physiology, and the emergence of a middle-class with the time and money to choose between active and passive leisure pursuits. The book reflects on urbanization and industrialization in relation to the need for public health measures, and the ever-diminishing physical demands of the work-place. It then evaluates the attitudes of prelates, politicians, philosophers and teachers at each stage of the process. Finally, the book explores professional and governmental initiatives to increase public involvement in active leisure through various school, worksite, recreational and sports programmes.

**To the Limit... and Beyond** Jan 17 2022 Compelling stories of 13 MBAs who came from a modest background and completed their MBA from HNCC Solapur to embark on a journey where the destination is unknown. As they did not have a run-way to takeoff, they created their path which shapes up in the form of inspiring adventure with a lot of learning and take away for the teeming millions who are planning to be part of the organised sector of India. Each story's gripping narrative unfolds about their dedication and hard work to create a space for themselves and construct their brand equity. Their passion for enhancing their brand equity valuation gives them the energy to overcome the obstacles and convert challenges into opportunities. It is an exciting insight into their strength and capability to deliver the best despite constraints and limitations. It is a convincing account of a commoner's triumph, who paved their path and created a difference basis their self-belief and value system to touch the sky. It is, in fact, a saga of Toils, Tears, Tenacity and Triumph.

**Who is Who in Thermal Analysis and Calorimetry** Jul 19 2019 This is an expanded and revised second edition, presenting accurate and comprehensive information about our leading thermal scientists to current and future generations. In our globalized world, most researchers in thermal analysis do not know each other in person and are not familiar with each other's achievements. This volume provides the reader with an up-to-date list of the prominent members in this community. The publication contains only living scientists. The selection is based partly on several decades of the editors' personal professional experience and also partly on the opinion of the Regional Editors of the Journal of Thermal Analysis and Calorimetry.

**Globalization, Labour Market Institutions, Processes and Policies in India** Feb 06 2021 This book explores the effects of product market and labour market reforms on firms, labour institutions and labour rights in the economic and industrial relations system in India. India has over the years liberalized its economy through a broad range of reforms concerning the product market and complementing these it has also sought to reform the labour market and the industrial relations system. The book assesses the impact of these reforms on both the formal and informal labour markets in India, critically examines the labour processes and uncovers/describes precarious conditions of labour in various industries and occupations, and analyzes the dynamics involved in the making of industrial, employment and labour policies in contemporary India.
