[Low skilled take their qualifications "one step up"](#) Jul 14 2021 Adult learning is recognized as a key component of lifelong learning and Member States are required to remove barriers to participation, to increase overall quality and efficiency in adult learning, to speed up the process of validation and recognition and to ensure sufficient investment in and monitoring of the field (European Commission, 2006, 2007; European Parliament, 2008; European Council, 2008). It is unanimously recognized that adult learning can play a pivotal role in meeting the goals of the Lisbon Strategy, by fostering social cohesion, providing citizens with the skills required to find new jobs and helping Europe to better respond to the challenges of globalisation. Such needs are taken into consideration in this Volume where the main issues faced are related to what 33 European countries have been doing in order to raise the skills levels of low-skilled workers, address the problem of the high number of early school leavers, combat social exclusion, ensure the efficiency, effectiveness, quality of adult learning.

Socio-economic Systems: Paradigms for the Future Sep 23 2019

This book is reflective of a science-based vision of the future development paradigm of economic and social systems. It deals with the digitization as the technological basis for the future development of economic and social systems and presents a review of groundbreaking technologies and prospects for their application. The specific character of the industry and prospects for the application of digital technologies in business are analyzed. A rationale is provided for future prospects for the sustainable development of economic and social systems in a digital economy. The authors determine the process of the formation and development of the information-oriented society, social and educational aspects of the digitization, as well as the institutional framework of the digital future of social and economic systems. The book combines the best works following the results of the 12th International Research-to-Practice Conference "Artificial Intelligence: Anthropogenic Nature vs. Social Origin" that was held by the Institute of Scientific Communications (ISC) in cooperation with the Siberian Federal University and the Krasnoyarsk Regional Fund of support of scientific and scientific-technical activities on 5-7 December 2019, in Krasnoyarsk, Russia, as well as following the results of the 3rd International Research-to-Practice Conference "Economic and Social Systems: Paradigms for the Future" that was held by the ISC in cooperation with the Pyatigorsk State University on 5-6 February 2020. The target audience of the book consists of representatives of the academic community concerned with the future prospects for the development of economic and social systems, as well as economic agents engaged in the digitization of business processes, and representatives of public agencies regulating the development of business systems for their progressivity, sustainability and competitiveness.

Scholarly Ethics and Publishing: Breakthroughs in Research and Practice Oct 25 2019

A vital component of any publishing project is the ethical dimensions, which can refer to varied categories of practice: from conducting a proper peer review to using proper citation in research. With the implementation of technology in research and publishing, it is important for today's researchers to address the standards of scientific research and publishing practices to avoid unethical behavior. Scholarly Ethics and Publishing: Breakthroughs in Research and Practice is an essential reference source that discusses various aspects of ethical values in academic settings including methods and tools to prevent and detect plagiarism, strategies for the principled gathering of data, and best practices for conducting and citing research. It also assists researchers in navigating the field of scholarly publishing through a careful analysis of multidisciplinary research topics and recent trends in the industry. Highlighting a range of pertinent topics such as academic writing, publication process, and research methodologies, this publication is an ideal reference source for researchers, graduate students, academicians, librarians, scholars, and industry-leading experts around the globe.

Human Resource Intelligence und Analytics May 24 2022 Das Buch bietet einen umfassenden Überblick über die Anwendung und Implementierung von Business-Intelligence-Lösungen im Personalmanagement. Business-Intelligence-Systeme finden als Analyse- und Planungssysteme verbreitete Anwendung in vielfältigen Unternehmensbereichen wie Vertrieb/Customer Relationship Management, Logistik/Supply Chain Management sowie Personalmanagement. Daher beschäftigt sich Autoren und Herausgeber intensiv mit der Anwendung von Business-Intelligence-Systemen im Personalmanagement und geben einen ausführlichen systematischen Einblick in entsprechende grundlegende technologische Konzepte und personalwirtschaftliche Anforderungen. Ziel des Buches ist daher eine spezifisch auf die Anwendungsdomäne Personalmanagement ausgerichtete Ausarbeitung der Business-Intelligence-Konzeption in technischer und fachlicher Hinsicht.
