Die Grammatik- und Wortschatzkenntnisse von Englischlernenden am Ende der Jahrgangsstufe 4 Sep 27 2022 Die Arbeit beschäftigt sich mit der Frage, welche Wortschatz- und Grammatikkenntnisse Grundschülerinnen und -schüler am Ende der Klassenstufe 4 im Unterrichtsfach Englisch vorweisen können. Dabei liegt der Fokus der Arbeit auf dem dialogischen Sprechen. Im Rahmen der Arbeit wird untersucht, welcher aktive Wortschatz den Schülerinnen und Schülern zur Verfügung steht, um gemeinsam mit einem Partner ein Gespräch zu führen, welches ein erstes Kennenlernen simuliert. Zudem ist es von Interesse, inwieweit die Kinder hierfür auf chunks (feste Wendungen) zurückgreifen und welche grammatischen Strukturen sie sowohl innerhalb der chunks als auch darüber hinaus verwenden. Des Weiteren werden die von den Schülerinnen und Schülern angesprochenen Themen analysiert und herausgestellt, inwieweit sie in der Lage sind, diese sprachlich umzusetzen. Dies beinhaltet auch eine Analyse der Normabweichungen, welche sich im Bereich Wortschatz, Morphologie und Syntax zeigen, sodass typische Fehler, welche von den Schülerinnen und Schülern gemacht werden, aufgezeigt werden können. Ebenfalls untersucht wird die Frage, ob sich Unterschiede hinsichtlich des Zeitpunktes des Beginns des Englischunterrichts (ab Klasse 1 oder Klasse 3) zeigen.

SADC Gender Protocol 2017 Barometer Nov 24 2019 The SADC Protocol on Gender and Development is the only sub-regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol, its updating, implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015, SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals (SDGs), Beijing Plus Twenty and the Africa Agenda 2063 in 2016. In July 2017, the Ministers adopted a Monitoring, Evaluation and Reporting Framework (MERF) that will be the basis of future reporting. Now in its ninth edition, the 2017 Barometer is the first assessment of the Post-2015 SADC Gender Protocol. Moving with the times, the Alliance has expanded the two key main yardsticks in the Barometer: the SADC Gender and Development Index (SGDI) and the Citizen Score Card (CSC). The Barometer incorporates many MERF and SDG indicators, as well as its own unique measures of voice, choice and control. The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region. A wealth of data, insights and analysis awaits all readers of the Barometer, that will also be made available online and in multi-media formats. The "SADC we want" is one in which citizens engage; step it up for gender equality, and make sure we achieve Planet 50/50 by 2030!

Wärmeversorgungssysteme mit saisonalen Wärmespeichern Jan 19 2022 Der Einsatz von erneuerbaren Energien im Wärmesektor gewinnt im Zuge der Energiewende zunehmend an Bedeutung. Jedoch erschwert die starke Volatilität nachhaltiger Energieträger eine versorgungssichere Wärmebereitstellung. Der Einsatz von saisonalen Wärmespeichern kann Schwankungen teilweise ausgleichen. Die Entkopplung von Wärmeerzeugung und Wärmeverbrauch ermöglicht eine dezentrale und nachhaltige Wärmeversorgung mit erneuerbaren Energien. Die vorliegende Arbeit wählt einen interdisziplinären Ansatz zur Bewertung eines dezentralen solarthermisch betriebenen saisonalen Wärmespeichers zur Wärmeversorgung von Wohngebäuden. Die Einflüsse von ökonomischen, sozialen und ökologischen Parametern auf die Marktfähigkeit saisonaler Behälterwärmespeicher wurden untersucht.

Risks, Identity and Conflict Jun 12 2021 This volume explores the complex interrelation between risk, identity and conflict and focuses specifically on ethnicity, culture, religion and gender as modes of identity that are often associated with conflict in the contemporary world. It draws on theoretical perspectives as well as pays special attention to analysis of diverse case studies from Africa, Middle East, Europe, East and Southeast Asia and Latin America. Using various analytical tools and methodologies, it provides unique narratives of local and regional social risk factors and security complexities. The relationship between risk and security is multidimensional and perpetually changing, and lends itself to multiple interpretations. This publication provides a new ground for theoretical and policy debates to unlock innovative understanding of risk through analyses of identity as a significant factor in conflict in the world today. At the same time, it explores ways to address such conflicts in a more people-centered, empowering and sustainable way.

The Philosophy of Giambattista Vico Sep 15 2021 With a new introduction by Alan Sica. Giambattista Vico (1668-1744) is often regarded as the beleaguered, neglected genius of pre-Enlightenment Naples. His work—though known to Herder, Coleridge, Matthew Arnold, and Michelet—widely and deeply appreciated only during the twentieth century. Although Vico may be best known for the use James Joyce made of his theories in *Finnegans Wake*, Croce's insightful analysis of Vico's ideas played a large role in alerting readers to his unique voice. Croce's volume preceded Joyce's creation of "Mr. John Baptist Vicker" by a quarter century. During the last 25 years Vico's ideas about history, language, anti-Cartesian epistemology, and rhetoric have begun to receive the recognition their admirers have long claimed they deserve. Increasing numbers of publications appear annually which bear the stamp of Vico's thinking. Even if he is not yet so renowned as some of his contemporaries, such as Locke, Voltaire, or Montesquieu, there are good reasons to believe that in the future he will be equally honored as a cultural theorist. As a theorist of historical process and its language, there is no more innovative voice than his until the twentieth century—which explains in part why such figures as Joyce and R.G. Collingwood freely drew on Vico's work, particularly his *New Science*, while creating their own. If Vico was Naples' most brilliant, if uncelebrated, citizen prior to the Enlightenment taking hold in Southern Italy, then Croce (1866-1952) is surely the city's most important thinker of modern times, and the single indispensable Italian philosopher since Vico's death. When a genius of Croce's interpretative prowess, evaluates the work of another, it is inevitable that an explosive mixture will result. A great virtue of this book is its fusion of Croce's unique brand of idealism and aesthetic philosophy with Vico's epistemological, ethical, and historical theories. If Vico's theory of cyclical changes in history, the *corsi e ricorsi*, remains fruitful, it might be argued that Croce's evaluation of his countryman's ideas represented the next turn of the philosophical wheel toward enlightenment.

SADC Gender Protocol 2015 Barometer Jul 01 2020 In August 2008, Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. The SADC Gender Protocol is the only sub-regional instrument that brings together existing global and continental commitments to gender equality and enhances these through time bound targets. Aligned to Millennium Development Goal Three, the original 28 targets of the Protocol targets expire in 2015. Now that 2015 is here, we need to step back, assess and reposition. In June 2014, SADC Gender Ministers agreed to review the targets of the Gender Protocol in line with the Sustainable Development Goals (SDGs). In May this year, ministers added that they want the Protocol to be accompanied by a Monitoring, Evaluation and Results Framework. The 2015 Barometer shows that implementation is now the biggest missing gap in the quest for gender equality. Now is the time to strengthen resolve, reconsider, reposition, and re-strategise for 2030. SADC GENDER PROTOCOL BAROMETER • 2015 2015 is here! Overcoming Inequalities in Schools and Learning Communities: Innovative Education for a New Century Jul 13 2021 Educational inequalities have strongly impacted disadvantaged and underserved populations such as indigenous, Roma, migrant children, students with disabilities, and those affected by poverty. A wide array of research has contributed to explaining the mechanisms and effects of inequalities in the achievement patterns, dropout rates, disengagement in the school experiences of children and youth traditionally excluded. Research also suggests the negative consequences for child development – including cognitive, language, and social-emotional functioning – of poverty and lack of quality education in the early years. Consequently, the current unequal access to optimal learning environments for every single child to succeed in education and to have a better life perpetuates the exclusion and neglects their right to education for those minorities. This Research Topic aims at moving beyond causes and shed light upon effective solutions by providing successful pathways for integration and inclusion of the learners most heavily affected. Scholars worldwide are looking for successful actions with children, youth, and communities of learners historically underserved to overcome educational and social exclusion. These transformative approaches go beyond the deficit thinking and are grounded in theories, empirical evidence, and multidisciplinary interventions oriented towards achieving social impact, which refers to the extent to which those actions have contributed to improve a societal challenge. The international network of "Schools as Learning Communities" is advancing knowledge on deepening and expanding the impact of what has been defined as Successful Educational Actions (SEAs); that is, those interventions that improve students' achievement and social cohesion and inclusion in many diverse contexts, regardless the socioeconomic, national, and cultural environment of schools. Drawing on the evidence generated by this network of researchers to address the global challenge of inequality by studying educational actions oriented towards achieving social impact and potentially transferrable to other contexts, this Research Topic aims at deepening on this approach. In short, our purpose is that the contributions included in this Research Topic contribute to reduce educational and social inequalities and especially benefit those populations most in need.

The Gender Based Violence Indicators Study Dec 18 2021 Over two thirds of women in Botswana (67%) have experienced some form of gender violence in their lifetime including partner and

non-partner violence. A smaller, but still high, proportion of men admit to perpetrating violence against women. Inspired by the Commonwealth Plan of Action on Gender and Development (2005-2015) and Southern African Development Community (SADC) Protocol on Gender and Development target of halving GBV by 2015, this research project provides the first comprehensive and comparative baseline assessment of the extent, effects and response to GBV in Botswana. A representative sample of 639 women and 590 men across Botswana completed questionnaires in their preferred local language on behaviour and experiences related to GBV. Researchers asked women about their experience of violence perpetrated by men while men were asked about their perpetration of violence against women.

Closer You Are Mar 29 2020 The authorized biography of Robert Pollard, indie rock icon and founder of the music group Guided By Voices Robert Pollard has been a staple of the indie rock scene since the early '80s, along with his band Guided By Voices. Pollard was a longtime grade school teacher who toiled endlessly on his music, finding success only after adopting a do-it-yourself approach, relying on lo-fi home recordings for much of his and his band's career. A prolific artist, Pollard continues to churn out album after album, much to the acclaim of critics and his obsessive and devoted fans. But his story has never been faithfully told in its entirety. Until now. Author Matthew Cutter is a longtime friend of Pollard and, with Pollard's blessing, he's set out to tell the whole, true story of Guided By Voices. Closer You Are is the first book to take an in-depth look at the man behind it all, with interviews conducted by the author with Pollard's friends, family, and bandmates, along with unfettered access to Pollard himself and his extensive archives. Robert Pollard has had an amazing and seemingly endless career in rock music, but he's also established himself as a consummate artist who works on his own terms. Now fans can at long last learn the full story behind one of America's greatest living songwriters.

Gender-Based Violence and Layered Disasters Dec 06 2020 This book investigates the widespread and persistent relationship between disasters and gender-based violence, drawing on new research with victim-survivors to show how the two forms of harm constitute 'layered disasters' in particular places, intensifying and reproducing one another. The evidence is now overwhelming that disasters and gender-based violence are closely connected, not just in moments of crisis but in the years that follow as the social, economic and environmental impacts of disasters play out. This book addresses two key gaps in research. First, it examines what causes the relationship between disasters and gender-based violence to be so widespread and so enduring. Second, it highlights victim-survivors' own accounts of gender-based violence and disasters. It does so by presenting findings from original research on cyclones and flooding in Bangladesh and the UK and a review of global evidence on the Covid-19 pandemic. Drawing on feminist theories, it conceptualises the coincidence of gender-based violence, disasters and other aggravating factors in particular places as 'layered disasters.' Taking an intersectional approach that emphasises the connections between culture, place, patriarchy, racism, poverty, settler-colonialism, environmental degradation and climate change, the authors show the significance of gender-based violence in creating vulnerability to future disasters. Forefronting victim-survivors' experiences and understandings, the book explores the important role of trauma, and how those affected go about the process of survival and recovery. Understanding disasters as layered casts light on why tackling gender-based violence must be a key priority in disaster planning, management and recovery. The book concludes by exploring critiques of existing formal responses, which often ignore or underplay gender-based violence. The book will be of interest to all those interested in understanding the causes and impacts of disasters, as well as scholars and researchers of gender and gender-based violence.
