A New Nation of Goods Feb 29 2020 A New Nation of Goods highlights the significant role of provincial artisans in four crafts in the northeastern United States—chairmaking, clockmaking, portrait painting, and book publishing—to explain the shift from preindustrial society to an entirely new configuration of work, commodities, and culture.

The Twenty-First-Century Western May 02 2020 Focusing on twenty-first century Western films, including all major releases since the turn of the century, the essays in this volume cover a broad range of aesthetic and thematic aspects explored in these films, including gender and race. As diverse contributors focus on the individual subgenres of the traditional Western (the gunfighter, the Cavalry vs. Native American conflict, the role of women in Westerns, etc.), they share an understanding of the twenty-first century Western may be understood as a genre in itself. They argue that the films discussed here reimagine certain aspects of the more conventional Western and often reverse the ideology contained within them while employing certain forms and clichés that have become synonymous internationally with Westerns. The result is a contemporary sensibility that might be referred to as the postmodern Western.

The Worker Elite e-book Jan 10 2021 Despite what radical intellectuals often think, workers know quite a bit about where they are situated within the class society (hard to believe, i know!). Thus, it's typical for members of the worker elite to identify themselves as middle class, though of course some workers may adopt that term merely as an inspiration. For the most part, workers decide that they are middle class on a very practical basis: their distinct, all-around preferential status as wage earners, consumers, and "citizens." These workers believe themselves to be separate in essential ways from the proletariat. We should take this perception seriously! These notes take a critical view of the role of the worker elite under capitalism. That doesn't mean I hate middle class workers. I'm one myself. I don't hate intellectuals or farmers or shopkeepers either. Middle class people aren't free under this system. And ultimately we can make individual choices; we can resist capitalism or not. What I have learned to hate are the illusions and the opportunism that go along with middle class privilege. These are what continuously persuade the worker elite to join the other middle classes in embracing capitalism. They also motivate the class to manipulate, dominate, and strangle the freedom struggles of other workers for its own benefit. The main force for revolution will come from within the working class. I believe that today, more than ever. But it will not come from the privileged worker elite. That's a deadly lie that has helped destroy the hopes of generations of radical activists and, more important, the hopes of generations of oppressed people."—Bromma, from the author's preface.

Theodore Roosevelt Sep 25 2019 Joshua Hawley examines Roosevelt's political thought to arrive at a revised understanding of his legacy. He sees Roosevelt as galvanizing a 20-year period of reform that permanently altered American politics and Americans' expectations for government social progress and presidents.

The Global Factory Mar 24 2022 This key new book synthesises Peter Buckley's work on 'the global factory' – the modern networked multinational enterprise. The role of interfirm networks, entrepreneurship and cooperation in the creation and management of global factories leads to a discussion of their governance, internal knowledge transfer strategies and

performance, including their role in potentially combating societal failures. Emerging country multinationals are examined as a special case of global factories with a focus on Indian and Chinese multinationals, their involvement in tax havens and offshore financial centres, the performance and processes of their acquisition strategies – all seen as key aspects of globalisation.

In the Chair Jul 24 2019 All of the poets interviewed in this collection are from Northern Ireland, all were born after 1920, and each has published at least one volume of poetry. Arranged chronologically by each poet's date of birth, this collection deals with an impressive body of work. The poets include Seamus Heaney, Paul Muldoon, Michael Longley, John Montague, Derek Mahon, Ciaran Carson, as well as less-known voices, including Gerald Dawe, Roy McFadden, and Conor O'Callaghan. The interviews explore the poet's work and development, the social/historical context, and the impact of assimilated influences. If they explore a poetry often rooted in "the North," they also suggest the individuality and diversity of this poetry, of work whose imaginative range is not circumscribed by either literal borders or critically convenient categories. The other poets included are: James Simmons, Tom Paulin, Frank Orsmy, Medbh McGuckian, Robert Greacen, Cathal P Searcaigh, Colette Bryce, Moyra Donaldson, Jean Bleakney, Martin Mooney, Padraic Fiacc, and Cherry Smyth.

Russia in Space Dec 29 2019 Until the Apollo-Soyuz flight of 1972, the Russian Space Program was shrouded in such complete secrecy that only rumors of failures (or catastrophes) reached the West. This comprehensive history of the Russian Space Program, from its Sputnik origins to the privatized Mir Space Station, addresses the technical, political, historical, human, and organizational issues and provides a balanced focus on the manned and unmanned programs. It is the first book to assess the Russian Space Program including the 10-year period since the fall of communism.

Der lange Weg zur Freiheit Oct 26 2019 »Ich bin einer von ungezählten Millionen, die durch Nelson Mandelas Leben inspiriert wurden.« Barack Obama Eine fast drei Jahrzehnte währende Gefängnishaft ließ Nelson Mandela zum Mythos der schwarzen Befreiungsbewegung werden. Kaum ein anderer Politiker unserer Zeit symbolisiert heute in solchem Maße die Friedenshoffnungen der Menschheit und den Gedanken der Aussöhnung aller Rassen wie der ehemalige südafrikanische Präsident und Friedensnobelpreisträger. Auch nach seinem Tod finden seine ungebrochene Charakterstärke und Menschenfreundlichkeit die Bewunderung aller friedenswilligen Menschen auf der Welt. Mandelas Lebensgeschichte ist über die politische Bedeutung hinaus ein spannend zu lesendes, kenntnis- und faktenreiches Dokument menschlicher Entwicklung unter Bedingungen und Fährnissen, vor denen die meisten Menschen innerlich wie äußerlich kapituliert haben dürften.

The Economy of East Central Europe, 1815-1989 Aug 17 2021 From a widely published expert in the field, this major survey reviews two centuries of modernization and examines the dramatic changes in the economies of Eastern Europe. This is a new and comprehensive overview which incorporates fresh research and recent changes to the region to trace this economic history of Eastern Europe within the wider political and ideological context Uniquely taking the broader historical picture into account,

David Turnock brings together the entire scope of the modernization process, from the first phase of modern national development in the Balkans and the impact of imperial systems on the area as a whole, to the feeling of 'unfinished business' at the end of the Second World War. He continues up to the present-day state of transition, evaluating the contrasts in the region between the northern and southern states, domestic division between dynamic and backward areas, and the increasing emphasis on the opening up of frontier regions. Wide in scope and including detailed and informative chronologies, this book will prove an invaluable asset to students of European history and economics.

The Business of Slavery and the Rise of American Capitalism, 1815–1860 Jan 28 2020 Calvin Schermerhorn's provocative study views the development of modern American capitalism through the window of the nineteenth-century interstate slave trade. This eye-opening history follows money and ships as well as enslaved human beings to demonstrate how slavery was a national business supported by far-flung monetary and credit systems reaching across the Atlantic Ocean. The author details the anatomy of slave supply chains and the chains of credit and commodities that intersected with them in virtually every corner of the pre-Civil War United States, and explores how an institution that destroyed lives and families contributed greatly to the growth of the expanding republic's capitalist economy.

The Novel and the Sea Jan 22 2022 For a century, the history of the novel has been written in terms of nations and territories: the English novel, the French novel, the American novel. But what if novels were viewed in terms of the seas that unite these different lands? Examining works across two centuries, *The Novel and the Sea* recounts the novel's rise, told from the perspective of the ship's deck and the allure of the oceans in the modern cultural imagination. Margaret Cohen moors the novel to overseas exploration and work at sea, framing its emergence as a transatlantic history, steeped in the adventures and risks of the maritime frontier. Cohen explores how Robinson Crusoe competed with the best-selling nautical literature of the time by dramatizing remarkable conditions, from the wonders of unknown lands to storms, shipwrecks, and pirates. She considers James Fenimore Cooper's refashioning of the adventure novel in postcolonial America, and a change in literary poetics toward new frontiers and to the maritime labor and technology of the nineteenth century. Cohen shows how Jules Verne reworked

adventures at sea into science fiction; how Melville, Hugo, and Conrad navigated the foggy waters of language and thought; and how detective and spy fiction built on sea fiction's problem-solving devices. She also discusses the transformation of the ocean from a theater of skilled work to an environment of pristine nature and the sublime. A significant literary history, *The Novel and the Sea* challenges readers to rethink their land-locked assumptions about the novel.

Festival Places Jul 04 2020 Festivals have burgeoned in rural areas, revitalising old traditions and inventing new reasons to celebrate. How do festivals contribute to tourism, community and a rural sense of belonging? What are their cultural, environmental and economic dimensions? This book answers such questions - featuring contributions from leading geographers, historians, anthropologists, tourism scholars and cultural researchers. It draws on a range of case studies: from the rustic charm of agricultural shows and family circuses to the effervescent festival of Elvis Presley impersonators in Parkes; from wildflower collecting to the cosmopolitan beats of ChillOut, Australia's largest non-metropolitan gay and lesbian festival. Festivals as diverse as youth surfing carnivals, country music musters, Aboriginal gatherings in the remote Australian outback, Scottish highland gatherings and German Christmas celebrations are united in their emphasis on community, conviviality and fun.

Transformative Sustainable Development May 14 2021 Recent debates about sustainable development have shifted their focus from fixing environmental problems in a technocratic and economic way to more fundamental changes in social-political processes and relations. In this context, participation is a genuinely transformative approach to sustainable development, yet the process by which participation leads to transformation is not sufficiently understood. This book considers how the act of participating in sustainable development projects can bring about social transformation that is considered to be fair and just by the participants and non-participants in a broader societal context. Drawing on ideas from social theory and applied anthropology, the book proposes a reflexivity-based framework to analyse participation as a type of social action underpinned by primary experience. Development projects have a transformative effect when participants are given the opportunity to reflect on their experience, share the reflection with others, and open new space for collective deliberation and change. The book applies this framework to assess community-based participatory projects in the Amazon, African slums and rural settlements, and disaster stricken areas in Japan. It also outlines potential institutions of governance to institutionalize the change by referring to current food governance, drawing out lessons with international relevance. This book will be of interest to students of sustainable development, environmental policy and development studies, as well as practitioners and policy-makers in these fields.
