Developing the Leader Within You 2.0 Workbook Aug 22 2019 “My greatest discovery in forty years of leading: Leadership can be developed.” ~ Inc. Magazine’s No. 1 Leadership Expert, John C. Maxwell Twenty-five years ago, John Maxwell published the book that forever transformed how people think about leadership. Developing the Leader Within You showed that leaders are made, not born, and helped more than two million people in the process. Maxwell now returns to this classic text to include the insights and practices he has learned in the decades since that work first appeared. In this completely revised and expanded workbook, based on the book of the same title, you will receive everything you need to take a significant step in your leadership journey, along with in-depth activities designed to help develop the leader within you. If you complete all the readings and exercises and answer all the

questions, you will be amazed at how your influence, effectiveness, and impact will increase in such a short time. And if you're going through this process with a group, you'll enjoy the challenging discussion questions at the end of each lesson so you can explore the ideas in even greater depth. With insights gleaned from his forty-plus years of leadership success, Maxwell will especially help readers explore the value of: Achieving success using the Five Levels of Leadership Developing people—a leader's most appreciable assets Identifying and solving problems and preventing their recurrence Defining and articulating a vision for your organization Building on the leadership skills you already possess No matter the arena in which you find yourself called to serve—family, business, or nonprofit—the principles Maxwell shares in this workbook will help you develop the vision, value, influence, and motivation required of successful leaders. project attempts to tackle several challenges: - to experience the variety of different teaching cultures as a source of innovation rather than as an obstacle; - to adopt a pluridisciplinary approach by introducing references taken from the social sciences in order to develop reflection on the role of languages in social cohesion; - to try and provide answers to a question hitherto rarely raised in the didactics of languages and cultures, namely the place of cultural mediation itself. Life and Loss Jun 19 2019 Many clinicians recognize that denying or ignoring grief issues in children leaves them feeling alone and that acknowledging loss is crucial part of a child's healthy development. Really dealing with loss in productive ways, however, is sometimes easier said than done. For decades, Life and Loss has been the book clinicians have relied on for a full and nuanced presentation of the many issues with which grieving children grapple as well as an honest exploration of the interrelationship between unresolved grief, educational success, and responsible citizenry. The third edition of Life and Loss brings this exploration firmly into the twenty-first century and makes a convincing case that children's grief is no longer restricted only to loss-identified children. Children's grief is now endemic; it is global. Life and Loss is not just the book clinicians need to understand grief in the twenty-first century—it's the book they need to work with it in constructive ways.

Nine chapter authors are Priority Research Grant or Doctoral Dissertation Grant awardees from The International Research Foundation for English Language Education (TIRF), and four overview chapters are written by well-known experts in English language education. Each research chapter addresses issues that motivated the research, the context of the research, data collection and analysis, findings and discussion, and implications for practice, policy, and future research.
