Handbook of Children with Special Health Care Needs Jul 02 2020 Children with chronic conditions, developmental disorders, and birth defects represent a sizeable minority of American children—as many as one in five. Often their families have financial or other issues limiting their access to appropriate care, thus limiting their adult prospects as well. Compounding the problem, many valuable resources concerning this population are difficult to access although they may be critical to the researchers, practitioners, and policymakers creating standards for quality care and services. In response, the Handbook of Children with Special Health Care Needs assembles research, applied, and policy perspectives reflecting the range of children's problems requiring special services. Widely studied conditions (e.g., communication disorders, substance abuse) and those receiving lesser attention (e.g., tuberculosis) are covered, as are emerging ideas such as the "medical home" concept of continuity of care. Its interdisciplinary outlook makes the Handbook of Children with Special Health Care Needs a vital, forward-looking text for developmental psychologists, pediatricians, early childhood and special education researchers and practitioners, disability researchers, policymakers, and advocates, and providers for children with special health care needs.

Handbook of Social Resources in Kansas Dec 07 2020 "The development of the social welfare program in Kansas indicated the need for current information about agencies and organizations interested in helping people. In response to this request the State Department of Social Welfare prepared a compilation of these social resources in 1939 under the title of a Handbook of Social Resources. Then 10 years later the material in the Handbook was revised and more agencies included. Information about many of these resources was brought up to date in 1951. The present revision represents the most recent information about social resources available to persons residing in Kansas. Although the Handbook was compiled primarily for persons engaged in organized social welfare activities, it has been of value to professional, religious, commercial, labor, social, and civic organizations interested in the health, welfare, and other social resources of Kansas"--Preface.
