Civil Procedure in Focus Apr 09 2021 Civil Procedure in Focus by Jeremy Counsellor and Eric Porterfield uses a combination of accessible explanatory text, cases, and other primary legal sources to teach civil procedure, and then provides opportunities for students to apply the law to multiple sets of facts in every chapter. Selected cases illustrate key changes in the law and show how courts have developed and apply doctrine. The unintimidating approach of this casebook provides a hands-on, experiential learning environment that can be essential to many students' success. Through practice-based exercises, students learn to apply legal principles and concepts to real-world scenarios. Simply knowing the facts of a benchmark case **Read Book**

enough; knowing how to apply the doctrine from one case to a different set of facts enhances a student's ability to succeed in and after law school. New to the Second Edition: Multiple-choice questions at the end of each chapter Discussion of "Snap Removal," a hot topic currently percolating through the federal court system Updates regarding recent US Supreme Court cases regarding personal jurisdiction Professors and students will benefit from: Applying the Concepts and Civil Procedure in Practice exercises. These end-of-chapter exercises encourage students to synthesize the chapter material and apply relevant legal doctrine and code to real-world scenarios. Students can use these exercises for self-assessment or the professor can use them to promote class interaction. Real Life Applications. Every case in a chapter is followed by Real Life Applications, which present a series of questions based on a scenario similar to the facts in the case. Real Life Applications challenge students to apply what they have learned and help prepare them for real-world practice. Professors can use Real Life Applications to spark class discussions or provide them as individual short-answer assignments. Case Previews and Post-Case Follow-Ups. To succeed, law students must know how to deconstruct and analyze cases. Case Previews highlight the legal concepts in a case before the student reads it. Post-Case Follow-Ups summarize the important points and go one step further—noting the significance of a case to current law as well as its later ramifications. Clear exposition of key concepts in the text that means professors can spend less class time lecturing students on the basics and more time discussing different perspectives on the law, current issues, etc. Essay, short-answer, and multiple-choice questions in every chapter Practice-based hypotheticals that challenge students to apply doctrine to different fact scenarios Exhibits that highlight the relevant rule of law and corresponding legal authority

Algorithms and Autonomy Jun 30 2020 Algorithms influence every facet of modern life: criminal justice, education, housing, entertainment, elections, social media, news feeds, work... the list goes on. Delegating important decisions to machines, however, gives rise to deep moral concerns about responsibility, transparency, freedom, fairness, and democracy. Algorithms and Autonomy connects these concerns to the core human value of autonomy in the contexts of algorithmic teacher evaluation, risk assessment in criminal sentencing, predictive policing, background checks, news feeds, ride-sharing platforms, social media, and election interference. Using these case studies, the authors provide a better understanding of machine fairness and algorithmic transparency. They explain why interventions in algorithmic systems are necessary to ensure that algorithms are not used to control citizens' participation in politics and undercut democracy. This title is also available as Open Access on Cambridge Core.

THE ART OF WHOLESALING PROPERTIES Nov 04 2020 The Art

of Wholesaling Properties: How to Buy and Sell Real Estate without Cash or Credit distills the experiences of two of the nation's largest real estate wholesalers who, all told, have flipped over one thousand homes. Aram Shah and Alex Virelles present a step-by-step guide that explains how others may replicate their proven methods in their own wholesaling ventures. Reading this book will give investors the A-to-Z insights they need for cashing in on the fastest and most profitable ways to flip paper in the real estate market. Moving along a strategic step at a time, The Art of Wholesaling Properties explains how to • make offers that actually get accepted; • find hidden, motivated sellers; • use a real estate agent to find gold mines through the MLS; • build a strong list of cash buyers; • negotiate with sellers using proven and tested scripts; • assign or double close on properties; • master the A-B, B-C transaction; • deploy a team and put the business on autopilot; and • achieve financial freedom without using cash or credit! If you find the prospects of making money exciting, if you get the feeling there is wealth hidden in the real estate market in your community, and if you desire to learn demonstrably successful techniques to apply in your own ventures, then The Art of Wholesaling Properties: How to Buy and Sell Real Estate without Cash or Credit will give you the guidance and education you need to begin wholesaling homes and generating profits without using your own cash or credit.

proceedings, as well as commentaries on well-known arbitration rules which are frequently incorporated in international legal agreements. Most international commercial contracts now include an arbitration clause as an alternative to resolving disputes in the state courts. This second edition of the Practitioner's Handbook includes newly updated country chapters, expanded international coverage and commentary on the most important arbitration rules worldwide. It is written by world-leading arbitration practitioners and academics and combines a practical approach with in-depth legal research and analysis of important national and international case law. The book is unique in its coverage, providing uniformly designed country reports and thorough commentaries on internationally recognized arbitration rules in just one volume. There are individual chapters for the following countries: Austria, Belgium, China & Hong Kong, England, France, Germany, Italy, Netherlands, Singapore, Sweden, Switzerland, USA. Each country report covers: jurisdiction, the tribunal, arbitration procedure, the award, amendments and challenge to the award, liability of arbitrators and enforcement of national awards; and provides details of national arbitration laws, arbitral institutions in the jurisdiction, model arbitration clauses and a bibliography, including a list of key judicial decisions. The first edition was reviewed as "an outstanding book" and "an extremely useful tool". The work is an indispensable one-stop reference point for lawyers drafting international arbitration clauses or handling arbitration proceedings in different countries.
