The Lion Led the Way Apr 24 2022 Was there a meaningful stellar sign over Bethlehem? What did it look like to someone looking up at the night sky? Did wise men really come from the East seeking Israel's Messiah sometime after the birth of Jesus? The biblical account of the wise men and the star that announced the coming of the Messiah of Israel has inspired and puzzled people for two millennia. Important aspects of Babylonian astronomy seem to be involved in understanding the star's appearing. But in addition, *The Lion Led the Way* also explores the men and events from a profoundly Jewish perspective. The traditional Jewish names of stars and planets, Jewish symbols, as well as Jewish dates, all seem to be keys to unlocking the mystery of the famous star. The star of Bethlehem was not the brightest of the heavenly lights, nor was it the most spectacular stary manifestation of all time. However, it was part of the most meaningful set of celestial events in human history. The God of Israel is surprising. His ways are not our ways; his thoughts are not our thoughts. The star gives us a concrete example of God's intervention in the universe. Book website: www.star-of-bethlehem.info

Gender and the Superhero Narrative Jan 10 2021 Contributions by Dorian L. Alexander, Janine Coleman, Gabriel Gianola, Mel Gibson, Michael Goodrum, Tim Hanley, Vanessa Hemovich, Christina Knopf, Christopher McGunnigle, Samira Nadkarni, Ryan North, Lisa Perdigao, Tara Prescott-Johnson, Philip Smith, and Maite Ucaregui The explosive popularity of San Diego's Comic-Con, Star Wars: The Force Awakens and Rogue One, and Netflix's Jessica Jones and Luke Cage all signal the tidal change in superhero narratives and mainstreaming of what were once considered niche interests. Yet just as these areas have become more openly inclusive to an audience beyond heterosexual white men, there has also been an intense backlash, most famously in 2015's Gamergate controversy, when the tension between feminist bloggers, misogynistic gamers, and internet journalists came to a head. The place for gender in superhero narratives now represents a sort of battleground, with important changes in the industry at stake. These seismic shifts—both in the creation of superhero media and in their critical and reader reception—need reassessment not only of the role of women in comics, but also of how American society conceives of masculinity. Gender and the Superhero Narrative launches ten essays that explore the point where social justice meets the Justice League. Ranging from comics such as Ms. Marvel, Batwoman: Elegy, and Bitch Planet to video games, Netflix, and cosplay, this volume builds a

platform for important voices in comics research, engaging with controversy and community to provide deeper insight and thus inspire change.

The Covid-19 Crisis in South Asia May 14 2021 This edited book provides a range of perspectives on the handling of particular aspects of the Covid-19 pandemic across the principal states of South Asia. As the first academic volume to deal with the COVID-19 pandemic in South Asia, it examines such issues as how India has dealt with the fallout of the pandemic on its substantial diaspora in the Middle East; the competitive Sino-Indian vaccine diplomacy strategies in Bangladesh; Nepal's attempts to cope with the pandemic in light of its limited health infrastructure; Sri Lanka's differential treatment of its population based upon ethnic preferences; and how Pakistan's civil-military relations shaped its handling of the pandemic. The Introduction and the first section summarize the responses to the pandemic made by each principal state in the region. These chapters assess the process of decision-making within each state, with special attention placed on identifying and analyzing the actors involved. The Covid-19 pandemic is also reshaping international relations of the subcontinent and the pandemic has laid bare several new cross-border challenges and opportunities that states will have to contend with in the future. The book also considers five of the most pressing issue areas. First, it considers how diaspora communities in the Gulf were affected by the pandemic, and what lessons South Asian sending states can take from protecting their citizens in the future. Second, the Covid-19 pandemic will affect how countries engage in status politics, shaping which countries will be able to lead in regional relations. Third, the Covid-19 pandemic is likely to affect prospects for regional cooperation, both for dealing with the current pandemic as well as future crises. Fourth, it will shape how South Asian states engage in global governance. Fifth, South Asian states may revisit their relations with China in light of the pandemic. This book will be of much interest to students of South Asian politics, human security and international relations.

American National Security Policy Sep 17 2021 Security policy is a key factor not only of domestic politics in the U.S., but also of foreign relations and global security. This text sets to explain the process of security policy making in the United States by looking at all the elements that shape it, from institutions and legislation to policymakers themselves and historical precedents. To understand national security policy, the book first needs to address the way national security policy makers see the world. It shows that they generally see it in realist terms where the state is a single rational actor pursuing its national interest. It then focuses on how legislative authorities enable and constrain these policy makers before looking at the organizational context in which policies are made and implemented. This means examining the legal authorities that govern how the system functions, such as the Constitution and the National Security Act of 1947, as well as the various governmental institutions whose capabilities either limit or allow execution, such as the CIA, NSA, etc. Next, the text analyzes the processes and products of national security policy making, such as reports, showing how they differ from administration to administration. Lastly, a series of case studies illustrate the challenges of implementing and developing policy. These span the post-Cold war period to the present, and include the Panama crisis, Somalia, the Balkans Haiti, the Iraq wars, and Afghanistan. By combining both the theory and process, this textbook reveals all aspects of the making of national security policy in United States from agenda setting to the successes and failures of implementation.

The Oxford Handbook of Music Making and Leisure May 26 2022 "Music has been a vital part of leisure activity across time and cultures. Contemporary commodification, commercialization, and consumerism, however, have created a chasm between conceptualizations of music making and numerous realities in our world. From a broad range of perspectives and approaches, this handbook explores avocational involvement with music as an integral part of the human condition. The chapters in The Oxford Handbook of Music Making and Leisure present myriad ways for reconsidering and refocusing attention back on the rich, exciting, and emotionally charged ways in which people of all ages make time for making music. The contexts discussed are broadly Western, including an eclectic variety of voices from scholars across fields and disciplines, framing complex and multifaceted phenomena that may be helpfully, enlighteningly, and perhaps provocatively framed as music making and leisure. This volume may be viewed as an attempt to reclaim music making and leisure as a serious concern for, amongst others, policy makers, scholars, and educators who perhaps risk eliding some or even most of the ways in which music - a vital part of human existence - is integrated into the everyday lives of people. As such, this handbook looks beyond the obvious, asking readers to consider anew, "What might we see when we think of music making as leisure?"--publisher's website

The Declaration of Independence and God Dec 29 2019 This book studies the concept of a 'self-evident' God in American legal thought from the Revolution to the present.

From Warsaw with Love Jan 28 2020 From Warsaw with Love is the epic story of how Polish intelligence officers forged an alliance with the CIA in the twilight of the Cold War, told by the award-winning author John Pomfret. Spanning decades and continents, from the battlefields of the Balkans to secret nuclear research labs in Iran and embassy grounds in North Korea, this saga begins in 1990. As the United States cobbles together a coalition to undo Saddam Hussein's invasion of Kuwait, six US officers are trapped in Iraq with intelligence that could ruin Operation Desert Storm if it is obtained by the brutal Iraqi dictator. Desperate, the CIA asks Poland, a longtime Cold War foe famed for its excellent spies, for help. Just months after the Polish people voted in their first democratic election since the 1930s, the young Solidarity government in Warsaw sends a veteran ex-Communist spy who'd battled the West for decades to rescue the six Americans. John Pomfret's gripping account of the 1990 cliffhanger in Iraq is just the beginning of the tale about intelligence cooperation between Poland and the United States, cooperation that one CIA director would later describe as "one of the two foremost intelligence relationships that the United States has ever had." Pomfret uncovers new details about the CIA's black site program that held suspected terrorists in Poland after 9/11 as well as the role of Polish spies in the hunt for Osama bin Laden. In the tradition of the most memorable works on espionage, Pomfret's book tells a distressing and disquieting tale of moral ambiguity in which right and wrong, black and white, are not conveniently distinguishable. As the United States teeters on the edge of a new cold war with Russia and China, Pomfret explores how these little-known events serve as a reminder of the importance of alliances in a dangerous world.

Roman but Not Catholic Oct 26 2019 This book offers a clearly written, informative, and fair critique of Roman Catholicism in defense of the catholic faith. Two leading evangelical thinkers in church history and philosophy summarize the major points of contention between Protestants and Catholics, honestly acknowledging real differences while conveying mutual respect and charity. The authors address key historical, theological, and philosophical issues as they consider what remains at stake five hundred years after the Reformation. They also present a hopeful way forward for future ecumenical relations, showing how Protestants and Catholics can participate in a common witness to the world.

Betsy Ann Plank Feb 08 2021 In 1973, Betsy Ann Plank became the first woman to chair the Public Relations Society of America in its twenty-five-year history. It was a tumultuous time to assume the national association's leadership. Civil society seemed to be fraying at the edges, and trust in political institutions and corporations had plummeted in the aftermath of Watergate. Nevertheless, Plank, in her fearless style, took up the challenge head-on. From the start and throughout the span of her sixty-three-year career in public relations, she managed to overcome the very real barriers she faced due to gender-based discrimination in what was a male-dominated industry. As a PR practitioner, Plank served as executive vice president of Daniel J. Edelman, Inc., director of PR planning at AT&T, and assistant vice president of external affairs at Illinois Bell. Beyond her service in the professional realm, Plank grew her legacy by taking the time to mentor countless PR professionals, educators, and students. She saw this dissemination of knowledge as her greatest gift to the field of public relations. In this highly readable biography, Karla Gower explores Plank's personal life and career, tracing her evolution from a low-level job in advertising through her contributions to the rise of the rapidly changing PR industry in the 1960s and the evolution of her personal devotion to the enhancement of public relations education.

The World Turned Upside Down? Mar 12 2021 A World Turned Upside Down? poses two overarching questions for the new period opened by the Trump election and the continued growth of right-wing nationalisms. Is there an unwinding of neoliberal globalization taking place, or will globalization continue to deepen, but still deny the free cross-border movement of labor? Would such an unwinding entail an overall shift in power and accumulation to specific regions of the Global South that might overturn the current world order and foster the disintegration of the varied regional blocs that have formed? These questions are addressed through a series of essays that carefully map the national, class, racial, and gender dimensions of the state, capitalism, and progressive forces today. Sober assessment is crucial for the left to gain its political bearings in this trying period and the uncertainties that lie ahead.

LGBTQ Young Adult Fiction Oct 19 2021 Young adult literature featuring teenage lesbian, gay, bisexual, transgender and questioning characters is fast growing in popularity. Unlike the "problem novels" of the past, which focused on the guilt, bullying and isolation of LGBTQ characters, today's narratives present more sympathetic and celebratory portrayals. The author explores a selection of recent novels--many of which may be new to readers--and places them in the wider contexts of LGBTQ literature and history. Chapters discuss a range of topics, including the relationship of Queer Theory to literature, LGBTQ families, and recent trends in utopian and dystopian science fiction.

Winter Is Coming Feb 20 2022 The stunning story of Russia's slide back into a dictatorship--and how the West is now paying the price for allowing it to happen. The ascension of Vladimir Putin--a former lieutenant colonel of the KGB--to the presidency of Russia in 1999 was a strong signal that the country was headed away from democracy. Yet in the intervening years--as America and the world's other leading powers have continued to appease him--Putin has grown not only into a dictator but an international

threat. With his vast resources and nuclear arsenal, Putin is at the center of a worldwide assault on political liberty and the modern world order. For Garry Kasparov, none of this is news. He has been a vocal critic of Putin for over a decade, even leading the pro-democracy opposition to him in the farcical 2008 presidential election. Yet years of seeing his Cassandra-like prophecies about Putin's intentions fulfilled have left Kasparov with a darker truth: Putin's Russia, like ISIS or Al Qaeda, defines itself in opposition to the free countries of the world. As Putin has grown ever more powerful, the threat he poses has grown from local to regional and finally to global. In this urgent book, Kasparov shows that the collapse of the Soviet Union was not an endpoint—only a change of seasons, as the Cold War melted into a new spring. But now, after years of complacency and poor judgment, winter is once again upon us. Argued with the force of Kasparov's world-class intelligence, conviction, and hopes for his home country, *Winter Is Coming* reveals Putin for what he is: an existential danger hiding in plain sight.

Becoming Your Version of an Athlete Sep 25 2019 Sport is one of life's greatest forms of expression—the opportunity to showcase your creativity, your artistry, the individual within. As coaches, why do we so often place athletes all in the same box? Or in a fitness setting, why is every person given the same 'beginner' programme over and over? Much like placing a bird in a cage, if we never truly understand the individual, they will never know their wings are supposed to be used to fly. In this book, we look at how we can create an individual approach when working with athletes. Understanding their physical characteristics, emotional reactions and cognitive responses to training are key aspects of coaching. This book will help you unlock the door to a person's individual potential. This book looks at how we create a structure to suit the individual, not forcing an individual into our structure. It is a vital concept to look at and understand no matter what your sporting background is. Whether you are a coach or an athlete, there are concepts here that will help you improve your understanding towards taking an individual approach and how you can improve the people you work with, build better relationships and create systems to suit them. Jamie Geraghty has written this book, Ireland's first representative in the WSWCF Calisthenics World Cup Super-Final, and he has developed the largest Calisthenics Club in the country. He has created the first Athlete Development Pathway for the sport, and his courses and programmes have been implemented in clubs and schools across the country.

Women and Evacuation in the Second World War Oct 07 2020 Groups of young evacuees, standing on railway stations with gas masks and cardboard suitcases have become an iconic image of wartime Britain, but their histories have eclipsed those of women whose domestic lives were affected. This book explores the effects of this unparalleled interference in the domestic lives of women, looking at the impact on everyday experience and on ideas of femininity, domesticity and motherhood. Maggie Andrews argues that wartime evacuation is important for understanding the experience and the contested meanings of domesticity and motherhood in the 20th century. As this book shows, evacuation represents a significant and unrecognised area of women's war work, and precipitated the rise of competing public discourses about domestic labour and motherhood.

Brief History of the Charismatic Movement, Christian Mysticism, and Let-Go-Let-God Oct 09 2020 All my books can be read online for free at <http://wayneodonnell.com>. "Freely you have received, freely give" (Mt. 10:8). This booklet is included in and comprises one section in my book "Paul's Decision Making in Acts: Anti-Charismatic, Pro-Jewish." The history of the Charismatic Movement, Christian Mysticism, and the Let-Go-Let-God doctrine is the history of both misinterpreting the Bible, and also of seeking something more than the Bible. It's about wanting to get something quick and exciting after justification and before glorification, instead of just diligently laboring using the new mind to serve and battle. Rom. 7:6, "Now ... we ... serve in newness of spirit." Rom. 8:3-9, "They that are after the flesh [all the unsaved] do mind [think about and love] the things of the flesh; but they that are after the Spirit [all who have been justified, think about and love] the things of the Spirit [the Word]. For to be carnally minded is death, but to be spiritually minded is life and peace. Because the carnal mind is hated against God. ... So then they that are in the flesh [all the unsaved] can't please God. But you [all who have been justified] are not in the flesh, but in the Spirit, since the Spirit of God dwells in you. Now if any man doesn't have the Spirit of Messiah [only the unsaved], he is none of his." Biblically, there's no shortcut to sanctification. After we're justified, we learn and labor, using the new mind, and the next event is glorification. 1 Ths. 1:9, "You turned to God from idols [past spiritual justification event], to serve the living and true God [present sanctification process], and to wait for his Son from heaven [future physical glorification event]." The greatest hindrance to more complete practical sanctification, is the false doctrine of "let go and let God," as taught by John Wesley (sinless perfectionism), Phoebe Palmer (altar theology), William Boardman (higher life), Hannah Whitall Smith (secret of a happy Christian life), the Keswick Convention (resting faith), Charles Trumbull (victorious life), and many others. As Watchman Nee (1903-1972) said, "From now on I will not do anything, I will not manage anything, and I will not be concerned about anything. From now on I will let go. Brothers and sisters, this is surrendering. This is letting go." But Jesus said, Mt. 9:38, "Pray ... the Lord ... will send forth -laborers- into his harvest."

Christian Dying Jul 28 2022 We human beings are mortal. Our lives in this world inevitably terminate in death. This reality, however, need not cause us to despair, since Jesus Christ has gone before us into the far country of death, giving us hope that this defining feature of our earthly lives is not the end, but instead is an entrance into Christ's presence and a path to the fullness of the Spirit's new creation in which God will be all in all. *Christian Dying: Witnesses from the Tradition* is a collection of essays containing reflections from Christian authors--whether Catholic, Orthodox, or Protestant--on the meaning and appropriation of Christian hope in the face of death in conversation with a number of great voices from the Christian tradition. Black Dahlia, Red Rose Aug 24 2019 ***** A TIMES 'BOOK OF THE YEAR' ***** ***Shortlisted for the CWA Dagger for non-fiction*** 'A magnificent, meticulous and startling re-examination of a crime that haunts the world's imagination' Geoffrey Wansell, author of *An Evil Love: The Life of Frederick West* 'Eatwell writes brilliantly . . . [she] has finally offered [Elizabeth] Short a type of belated justice. Her book reads like a thriller' Sunday Times 'A compelling read, in both style and substance . . . A must-read for anyone with an interest in the Black Dahlia - or indeed any fan of the true-crime genre' Rod Reynolds, author of *The Dark Inside* 'Compulsively readable, impeccably researched and heart-rending at times . . . Superb!' Sarah Lotz, author of *The Three and The White Road* ***** On 15th January 1947, the naked, dismembered body of a black-haired beauty, Elizabeth Short, was discovered lying next to a pavement in a Hollywood suburb. She was quickly nicknamed The Black Dahlia. The homicide inquiry that followed consumed Los Angeles for years and the authorities blew millions of dollars of resources on an investigation that threw up dozens of suspects. But it never was solved. Until now. In this ground-breaking book, Piu Eatwell reveals compelling forensic and eye witness evidence for the first time, which finally points to the identity of the murderer. The case was immortalised in James Ellroy's famous novel based on the case, in Kenneth Anger's Hollywood Babylon and Brian de Palma's movie *The Black Dahlia*. This is a dark tale of sex, manipulation, obsession, psychopathy and one of the biggest police cover ups in history.

How to Know the Will of God May 02 2020 This book is about how to know God's will through the scriptures and wisdom instead of by supposedly hearing God's voice. All my books can be read online for free at <http://wayneodonnell.com>. "Freely you have received, freely give" (Mt. 10:8). This booklet is included in and comprises several sections in my book "Paul's Decision Making in Acts: Anti-Charismatic Pro-Jewish Commentary on Acts." In 1980, Garry Friesen wrote "Decision Making and the Will of God," a book that debunked the traditional view that God leads by inward impressions into His perfect, specific will. But Bible teachers continue to teach prayer is a two-way conversation; churches continue to question pastoral candidates about their 'call' to the ministry; and Christians continue to try to discern God's inner voice to make decisions. Maybe it would help if we had more scholarly journal articles on the topic. Grudem. I ... categorized the articles published in three refereed evangelical journals for the last five years [before 2000]: Westminster Theological Journal, ... Trinity Journal, ... and ... the Journal of the Evangelical Theological Society. Not counting book reviews, there were 257 scholarly articles [on all topics]. ... [But regarding] God's guidance in our daily lives. Zero articles. Yet some understanding of God's guidance affects every Christian every day of his or her life! ... Either Garry Friesen is right on that topic, or he's wrong. ... We should expect to see many more scholars contributing articles and books supporting and developing their viewpoints. Christians in the book of Acts made their decisions by the Word and Wisdom, not by listening for inward impressions. I would love to read an exposition of the Book of Acts that showed Paul, the other apostles, and their co-workers, making most of their decisions by listening for inward impressions, but it would require reading that doctrine into the text, rather than expositing it out of the text. Friesen. In order to arrive at the conclusion of the traditional approach [to decision-making], it is necessary to water down the biblical examples and spice up the biblical teaching. Examples [like in Acts] are watered down to be less miraculous than they really are [so we can think we're doing them too]. Biblical teaching [like in the epistles] must be spiced up to be more specific than it really is [for example, a promise to Israel to "guide you continually" (Is. 58:11), doesn't actually say anything about Christians being guided by 'inward impressions']. Paul made most of his decisions by the Word and Wisdom, not by inward impressions, and only rarely by direct revelation, even though he was the apostle on the cutting-edge of Jesus' mission to bring the gospel to the Gentiles. Most of Paul's decisions in Acts can be explained 17 principles he followed.

Paul's Decision Making in Acts Jun 14 2021 This book is a commentary on the New Testament Book of Acts that is primarily about the Apostle Paul and his mission to the Aegean. All my books can be read online for free at <http://wayneodonnell.com> or <http://bible.ag>. "Freely you have received, freely give" (Mt. 10:8). In 1980, Garry Friesen wrote "Decision Making and the Will of God," a book that debunked the traditional view that God leads by inward impressions into His perfect, specific will. But Bible teachers continue to teach prayer is a two-way conversation; churches continue to question pastoral candidates about their 'call' to the ministry; and Christians continue to try to discern God's inner voice to make decisions. Christians in the book of Acts made their decisions by the Word and Wisdom, not by listening for inward impressions. Almost all Paul's decisions in Acts can be explained by 17 logical principles he followed. Paul was Jesus' surrogate to complete Jesus' mission to bring the gospel to the Gentiles of the Aegean Sea, and to the Jews of the diaspora. Isaiah 49:1, 6. "Listen, O Islands, to me; and hearken, you Jewish People, from far. The LORD has called me from the womb. ... He said, 'It is a light thing that you would be my servant to ... restore the preserved of Israel. I will also give you for a light to the Gentiles, so that you may be my salvation to the end of the earth.'" The first part of the book of Acts asks, "Can even Gentiles be saved?" But the last part focuses on Luke's real message: The Congregation should continue to look equally Jewish and Gentile, even though Gentiles become far more numerous in the Congregation. This is God's highest purpose; gathering two into the one body of Messiah, according to Ephesians. All Paul's epistles were written by the end of Acts 28. There's no need for a speculated release and second Roman imprisonment. This book also provides an accounting of the movements of Paul's coworkers; and a history of Charismaticism, Christian mysticism, and the false doctrine of "Let Go and Let God."

Storytelling Industries Nov 19 2021 This book shows how the unique characteristics of traditionally differentiated media continue to determine narrative despite the recent digital convergence of media technologies. The author argues that media are now each largely defined by distinctive industrial practices that continue to preserve their identities and condition narrative production. Furthermore, the book demonstrates how a given medium's variability in institutional and technological contexts influences diverse approaches to storytelling. By connecting US film, television, comic book and video game industries to their popular fictional characters and universes; including Star Wars, Batman, Game of Thrones and Grand Theft Auto; the book identifies how differences in industrial practice between media inform narrative production. This book is a must read for students and scholars interested in transmedia storytelling.

A Practical Guide to Successful Construction Projects Jul 24 2019 Written by experienced and innovative projects lawyer Arent van Wassenaeer, this book explains what the critical success factors are for construction projects to be completed on time, within everyone's budget, to the right quality, with all stakeholders satisfied and without disputes. In so doing, van Wassenaeer discusses how such projects could be structured, tendered for, executed and completed, and what legal and non-legal mechanisms are available to achieve success in construction projects. Using examples of real projects, *A Practical Guide to Successful Construction Projects* provides tools for those in leading and managerial positions within the construction industry to change – where necessary – their usual operational methods into methods which are aimed at achieving project success.

The Eudaimonic Turn Jan 22 2022 This book is a collection of critical essays that examine a radical shift in focus and orientation. In the challenge to the hermeneutics of suspicion, the adoption of alternative reading strategies, and the investigation of well-being, this collection is an analogue of a new discourse that has immensely enriched literary studies in the last decade.

God's Amazing Grace: Reconciling Four Centuries of African American Marriages and Families Oct 31 2022 "God's Amazing Grace: Reconciling Four Centuries of African American Marriages and Families is an insightful study that will be welcomed by thoughtful practitioners and all who ponder the African American family's complexity. Readers familiar with the deep, rich reservoir of African American family literature will recognize many of the black scholars referenced in this work. Readers unfamiliar with these sources will be grateful to discover them and the effective use of disparate literature. "This work will become a different kind of guide for studying African American history through the lens of the African American family. Underneath all the research is the search for answers to the compelling questions: Is there a correlation between slave owners' denial to slaves, God's design for the family, and the familial chaos that has plagued African American families for more than a hundred fifty years? And if there is connection, what is it? "The author has brought something new to a familiar topic of discussion—the Bible. The unique moral compass that steered this study is solidly anchored in the bedrock of holy scripture. In this work, the history and sociology of African American marriages are examined in light of the questions asked by Holy Scripture. In so doing, Dr. Turner skillfully attempts to help readers make sense of the story of black families in America. May this book mark the beginning to a new reality for African American families" (Dr. Willie Peterson, senior executive advisor, adjunct professor of Pastoral Ministries, Dallas Theological Seminary).

White House Warriors: How the National Security Council Transformed the American Way of War Aug 05 2020 This revelatory history of the elusive National Security Council shows how staffers operating in the shadows have driven foreign policy clandestinely for decades. When Michael Flynn resigned in disgrace as the Trump administration's national security advisor the New York Times referred to the National Security Council as "the traditional center of management for a president's dealings with an uncertain world." Indeed, no institution or individual in the last seventy years has exerted more influence on the Oval Office or on the nation's wars than the NSC, yet until the explosive Trump presidency, few Americans could even name a member. With key analysis, John Gans traces the NSC's rise from a collection of administrative clerks in 1947 to what one recent commander-in-chief called the president's "personal band of warriors." A former Obama administration speechwriter, Gans weaves extensive archival research with dozens of news-making interviews to reveal the NSC's unmatched power, which has resulted in an escalation of hawkishness and polarization, both in Washington and the nation at large.

Paris, Capital of Fashion Jul 04 2020 Paris, Capital of Fashion accompanies a major exhibition at The Museum at FIT, New York's only museum dedicated solely to the art of fashion. This lavishly-illustrated book is edited by MFIT's director and chief curator, Valerie Steele, also the author of the acclaimed Paris Fashion: A Cultural History. This new book opens with an important essay on how and why Paris became famous as the international "capital of fashion." Steele traces how the mythic "aura" of Paris fashion was constructed over generations, as the splendour of the court at Versailles came to be echoed by the spectacle of the haute couture. Yet Paris has faced repeated challenges from other fashion capitals, especially London, Milan, and New York. Essays by Christopher Breward, David Gilbert, Grazia d'Annunzio, and Antonia Finnane place Paris within a broader global narrative, while Sophie Kurkdjian investigates the cultural value of the Parisian couture, and Agnès Rocomora explores the online imagery of the chic Parisienne. As The New Yorker recently put it, Paris is "the most glamorous and competitive of the world's fashion capitals." No other city has been branded "Fashion" as Paris has. By opening the study of Paris fashion to new approaches, this book explains why Paris still retains its position as the world's undisputed fashion capital.
