Qu'il nous parle, juste le temps qu'il faut, de chirurgie, de meubles d'époque, d'apiculture, de musique, de métempsycose ou de braconnage, qu'il emprunte le style " cinéma " ou qu'il pastiche Voltaire, c'est toujours

The Best of Roald Dahl Mar 18

2022 If Stephen King could write with murderous concision, he might have come up with "The Landlady," the story of a boarding house with an oddly talented proprietress and a small but permanent clientele. If Clive Barker had a sense of humor, he might have written "Pig," a brutally funny look at cooks and vegetarianism. And a more bloodthirsty Jorge Luis Borges might have imagined the fanatical little gambler in "Man From the South," who does his betting with a hammer, nails, and a butcher knife. But all these stories in this volume

were written by Roald Dahl, whose genius for the horrific and grotesque is unparalleled and entirely his own. "Dahl has the mastery of plot and characters possessed by great writers of the past, along with a wildness and wryness of his own. One of his trademarks is writing beautifully about the ugly, even the horrible."--Los Angeles Times "An ingenious imagination, a fascination with odd and ordinary detail, and a lust for its thorough exploitation are the...strengths of Dahl's storytelling."--New York Times Book Review

Chocolate Factory. Few writers have had the enduring cultural influence of Roald Dahl, who inspired generations of loyal readers. Acclaimed biographer Jeremy Treglown cuts no corners in humanizing this longstanding immortal of juvenile fiction. Roald Dahl explores this master of children's literature from childhood—focusing a tight lens on the relationship between Dahl and his mother, who lovingly referred to him as “Apple”—through to his death. Treglown deftly navigates Dahl's time as a fighter pilot in the Royal Air Force, exploring how the experience transformed many of the beliefs that influenced the

English writer's work, including *The Gremlins*, which was commissioned by Walt Disney. A former editor of the *Times Literary Supplement*, Treglown discusses many of Dahl's most famous works, such as *James and the Giant Peach* and *Fantastic Mr. Fox*, while also delving into his marriage to actress Patricia Neal, combing through letters and archives to show a man who could be both comic and vitriolic, thoughtful yet manipulative and irascible. Treglown highlights many of Dahl's literary achievements as well as his breakdowns and shortcomings, presenting a very personal and telling picture of the author and the

inner turmoil that crippled him. Separating the man from the myth, Treglown's frank, intimate portrait of Dahl illuminates the contradictions within the mind of this beloved author, a man who could be both a monster and a hero. It is required reading for book lovers and film buffs alike. famous writer of children's books and adult short stories, but few are aware of his fascination with medicine. Right from his earliest days to the end of his life, Dahl was intrigued by what doctors do, and why they do it. During his lifetime, he and his family suffered some terrible medical tragedies: Dahl nearly died when his fighter plane went down in World War II; his son had severe brain injury in an accident; and his daughter died of measles infection of the brain. But he also had some medical triumphs: he dragged himself back to health after the plane crash, despite a skull fracture, back injuries, and blindness; he was responsible

for inventing a medical device (the Wade-Dahl-Till valve) to treat his son's hydrocephalus (water on the brain), and he taught his first wife Patricia to talk again after a devastating stroke. His medical interactions clearly influenced some of his writing - for example the explosive potions in George's Marvellous Medicine. And sometimes his writing impacted on events in his life - for example the research on neuroanatomy he did for his short story William and Mary later helped him design the valve for treating hydrocephalus. In this unique book, Professor Tom Solomon, who looked after Dahl towards the end of his life, examines

Dahl's fascination with medicine. Taking examples from Dahl's life, and illustrated with excerpts from his writing, the book uses Dahl's medical interactions as a starting point to explore some extraordinary areas of medical science. Solomon is an award-winning science communicator, and he effortlessly explains the medical concepts underpinning the stories, in language that everyone can understand. The book is also peppered with anecdotes from Dahl's late night hospital discussions with Solomon, which give new insights into this remarkable man's thinking as his life came to an end.

Published to mark the centenary of Roald Dahl's (Welsh) birth, *Roald Dahl: Wales of the Unexpected* breaks new ground by revealing the place of Wales in the imagination of the writer known as 'the world's number one storyteller'. Exploring the complex conditioning presence of Wales in his life and work, the essays in this collection dramatically defamiliarise Dahl and in the process render him uncanny. Importantly, Dahl is encountered whole - his books for children and his fiction for adults are read as mutually invigorating bodies of work, both of which evidence the ways in which Wales, and the author's Anglo-Welsh

orientation, demand articulation throughout the career. Recognising the impossibility of constructing a monolithic 'Welsh' Dahl, the contributors explore the compound and nuanced ways in which Wales signifies across the oeuvre. *Roald Dahl: Wales of the Unexpected* takes Dahl studies into new territory in terms of both subject and method, showing the new horizons that open up when Dahl is read through a Welsh lens. Locating Dahl in illuminating new textual networks, resourcefully offering fresh angles of entry into classic Dahl texts, rehabilitating neglected Dahl texts, and analysing the layered

15/16

genesis of (seemingly) familiar works by excavating the manuscripts, this innovative volume brings Dahl 'home' in order to render him invigoratingly unhomey. The result is not a parochialisation of Dahl, but rather a new internationalisation.
