From Boy to Sissy Baby Aug 22 2019 The Sissy Baby is an incredibly important and common aspect of ABDL life. These four novels are not books that are a full-on sissy extravaganza from the first word until the last. They are – like in real life – a step-by-step journey that follows the story of a young man who finds femininity erupting in his life, just as infancy is also developing. The twin aspect merge and a sissy baby is formed. And in every case, the sissy baby needs to find a life where they are able to live, develop, grow and be part of a relationship that works and matters. I hope you enjoy these four novels as much as the authors enjoyed writing them and it is worth remembering that while they are fiction, they do represent part of the canvas of real life and some scenes are based in part on actual events. Enjoy your travels through the world of the sissy adult baby.

The Forgotten Things May 11 2021 The Forgotten Things takes place inside an unparticular, unspecified, and seemingly unspacial little toyshop. Within this toyshop, there is a corner where broken rejected toys are placed. These toys were unwanted by their owners and so were brought to the little toyshop to be resold. The Forgotten Things is a collection of stories about these unwanted forgotten toys. Each toy represents an internal struggle of the human heart such as, self-loathing, warped self-image, depression, loss, and loneliness. Together, these forgotten things represent the desire to find our purpose and a place to belong. Each forgotten thing finds a new purpose and each one learns to love every part of themselves even the parts that might not be perfect. In their own way, in their own time, each of the toys learns that nothing is so broken that it cannot be mended.
