Hard Acceleration Sep 25 2019 Davin Jamison is already burned out when he receives an honorable discharge from the United States Army. After he lands a job in Manhattan, Kansas, his life seems to be on track until his boss lays him off. As a father and husband, Davin already feels the pressure as the provider. But when his wife continually reminds him of his failed military career, an angry David abandons his family for a new beginning in Arkansas. Anxious to see Kansas in his rear mirror, Davin pushes his motorcycle to its limits. After he speeds past a trooper, the officer pursues him on a death-defying chase into Topeka that grabs news coverage and the attention of two men who bail him out of jail. Donald Walker and Richard Sharpe have been searching for the right driver to represent them in the Transcontinental American Race. As an alternative to prison, they invite Davin to participate in a coast-to-coast race with sixteen others that include an Englishman, an ex-marine, and a beautiful Porsche test driver. As the race begins, Davin

soon learns that speed limits are simply suggestions. In this fast-paced tale, a young man leaves everything behind to learn what he is truly made of during a transcontinental race through America.

their introduction in 1964, American muscle cars have been closely associated with masculinity. In the 21st century, women have been a growing presence in the muscle car world, exhibiting classic cars at automotive events and rumbling to work in modern Mustangs, Camaros and Challengers. Informed by the experiences of 88 female auto enthusiasts, this book highlights women's admiration and passion for American muscle, and reveals how restoring, showing and driving classic and modern cars provides a means to challenge longstanding perceptions of women drivers and advance ideas of identity and gender equality.

The Big Crescendo Jun 02 2020 Lou Crasher is a black Canadian rock drummer chasing the rock-star dream in present-day Los Angeles. He works at the L.A. Practice Joint, a rehearsal space for musicians. When Angela, the most beautiful African American woman he's ever seen walks into the office Lou tumbles hard for her. Her band ends up booking time and as the days go by Lou does his best to impress Angela...but it's going as smoothly as lumpy oatmeal. It gets worse when the "Joint" gets burglarized and Angela's band gets their musical equipment stolen. Lou jumps on the opportunity because he figures the equation is simple: ya get the gear—ya get the girl! Using his music contacts Lou pounds the pavement and winds up uncovering a dangerous gear-theft ring. But discovering them is not enough. Lou goes undercover and joins a band who's frontman may not only be part of the ring he may be the

top dog. While knee deep in the case Lou is tapped by Rex Spivey, a celebrity coke-snorting music producer famed for creating pop stars, to find his precious colonial era snare drum believed to be owned at one time by famous social reformer and abolitionist Frederick Douglass. Although not an actual P.I. Lou can't say no to Spivey when he sees how many zeros are on the check. Lou's two cases become deeply entangled and the danger factor heats to the boiling point. If Lou manages to duck flying bullets, navigate through seductive double-talking dames and avoids the wrath of drug dealers he might not only recover all of the property but he may win Angela's heart. But is Angela even really who she says she is? Praise for THE BIG CRESCENDO: "Jonathan Brown hits it out of the park with this debut novel, featuring Lou Crasher, a smart, funny, hard-working drummer with a flair for detective work. The snappy dialog, memorably realistic Los Angeles setting and quirky, compelling cast of supporting characters add to the fun. Can't wait for the encore." —Anne Hillerman, New York Times bestselling author of the Bernadette Manuelito mystery series "Music fans, this is your book! In Lou Crasher, a journeyman drummer turned accidental P.I., Jonathan Brown has created a complex character set on a collision course with a cast of dangerous characters in and around L.A.'s music scene. With the pace of a blast beat, Crasher rumbles with a music theft ring, seedy drug dealers, and select members of L.A.'s elite, all while falling for a beautiful woman he is determined to help. Twist after twist, a breakneck pace, and the quick wit of Lou Crasher will have you turning the pages into the night. A wonderful debut." —Shawn Reilly Simmons, author of the Red Carpet Catering mysteries "The Big Crescendo is a sex, drugs and rock 'n' roll mystery, played out at a breakneck 180 beats per minute. Amateur PI Lou Crasher does his hero Jim Rockford proud in this slam-bang, action-packed thriller." —Paul D. Marks, Shamus Award-winning author of White Heat

Made in Japan and Other Japanese Business Novels May 02 2020 The term "business novel" is a translation of the Japanese word *kezai shosetsu*, which may be translated literally as * 'economy novel.' Critic Makoto Satoka first used the word "business" in place of "economy" in his monograph *How to Read Business Novels* (1980).¹ Business novels are "popular novels" (*taishu bungaku*) widely read by Japanese businessmen, their wives, students, and other professionals.. Business novels were recognized as a * 'field' or a literary sub-genre in the late 1950s. It was Saburo Shiroyama's *Export* (*Yushutsu*) (1957), if not his *Kinjo the Corporate Bouncer* (*Sokaiya Kinjo*) (1959), which marshalled their enormous popularity. The seven short works in this collection represent prototypes of the business novel. Their distinctive features are that business activities

motivate plot developments, although psycho-socio-cultural elements are tightly interwoven. The Age of the Muscle Car Dec 21 2021 A breed unlike any seen before or since, the powerful, stylish American muscle car defined an era in automotive history. This history traces the rise and fall of these great performance cars from their precursors in the 1950s through the seminal appearance of the Pontiac GTO in 1964 and then year by year to the end in the 1970s. Approachable and nontechnical yet deeply informative, it puts the bygone muscle car in its cultural and aesthetic contexts, describes developments in styling, performance and marketing, and revels in the joys of muscle car ownership in the 21st century.
