The Cambridge Primary Review Research Surveys Aug 21 2019 The Cambridge Primary Review Research Surveys is the outcome of the Cambridge Primary Review - England's biggest enquiry into primary education for over forty years. Fully independent of government, it was launched in 2006 to investigate the condition and future of primary education at a time of change and uncertainty and after two decades of almost uninterrupted reform. Ranging over ten broad themes and drawing on a vast array of evidence, the Review published thirty-one interim reports, including twenty-eight surveys of published research, provoking media headlines and public debate, before presenting its final report and recommendations. This book brings together the twenty-eight research surveys, specially commissioned from sixty-five leading academics in the areas under scrutiny and now revised and updated, to create what is probably the most comprehensive overview and evaluation of research in primary education yet published. A particular feature is the prominence given to international and comparative perspectives. With an introduction from Robin Alexander, the Review's director, the book is divided into eight sections, covering: children's lives and voices: school, home and community children's development, learning, diversity and needs aims, values and contexts for primary education the structure and content of primary education outcomes, standards and assessment in primary education teaching in primary schools: structures and processes teaching in primary schools: training, development and workforce reform policy frameworks: governance, funding, reform and quality assurance. The Cambridge Primary Review Research Surveys is an essential reference tool for professionals, researchers, students and policy-makers working in the fields of early years, primary and secondary education.

In die Wildnis Oct 23 2019 Im August 1992 wurde die Leiche von Chris McCandless im Eis von Alaska gefunden. Wer war dieser junge Mann, und was hatte ihn in die gottverlassene Wildnis getrieben? Jon Krakauer hat sein Leben erforscht, seine Reise in den Tod rekonstruiert und ein traurig-schönes Buch geschrieben über die Sehnsucht, die diesen Mann veranlasste, sämtliche Besitztümer und Errungenschaften der Zivilisation hinter sich zu lassen, um tief in die wilde und einsame Schönheit der Natur einzutauchen. - Verfilmt von Sean Penn mit Emile Hirsch.

Alles zerfällt Jul 24 2022 Der Afrika-Roman, der die moderne afrikanische Literatur begründete und die Weltliteratur prägte - endlich in neuer Übersetzung! Chinua Achebe erzählt von Verrat und Rache, von Leidenschaften, die keine Ruhe finden, und von Sehnsüchten, die keine Zukunft haben. Okonkwo, stark und jähzornig, stösst sich an den strengen Stammesregeln und zerbricht an dem Regime der britischen Kolonialherren. In seinem Meisterwerk beschreibt Achebe den Konflikt einer archaischen Kultur in einer Sprache, die rituell-sprichwörtlich, dokumentarisch und elementar poetisch ist: Mit diesem Roman erhielt der Kontinent eine Stimme.

Megaregulation Contested Aug 01 2020 The Japan-led Trans-Pacific Partnership (CPTPP) of 2018 is the most far-reaching 'megaregional' economic agreement in force, with several major countries beyond its eleven negotiating countries also interested. Still bearing the stamp of the original US involvement before the Trump-era reversal, TPP is the first instance of 'megaregulation': a demanding combination of inter-state economic ordering and national regulatory governance on a highly ambitious substantive and trans-regional scale. Its text and ambition have influenced other negotiations ranging from the Japan-EU Agreement (JEEPA) and the US-Mexico-Canada Agreement (USMCA) to the projected Pan-Asian Regional Comprehensive Economic Partnership (RCEP). This book provides an extensive analysis of TPP as a megaregulatory project for channelling and managing new pressures of globalization, and of core critical arguments made against economic megaregulation from standpoints of development, inequality, labour rights, environmental interests, corporate capture, and elite governance. Specialized chapters cover supply chains, digital economy, trade facilitation, intellectual property, currency levels, competition and state-owned enterprises, government procurement, investment, prescriptions for national regulation, and the TPP institutions. Country studies include detailed analyses of TPP-related politics and approaches in Japan, Mexico, Brazil, China, India, Indonesia, and Thailand. Contributors include leading practitioners and scholars in law, economics, and political science. At a time when the WTO and other global-scale institutions are struggling with economic nationalism and geopolitics, and bilateral and regional agreements are pressed by public disagreement and incompatibility with digital and capital and value chain flows, the megaregional ambition of TPP is increasingly important as a precedent requiring the close scrutiny this book presents.
