**A Magnificent Adventure** Oct 05 2020 The Whisper, to a child's heart, had proven itself to be true and enduring through many years of life's journey. Often feeling alone was proven through time to be quite the opposite. In looking back, a long path of travel was unfolding. Steps of fear and a small faith had been led, while dancing sugarplums now stood to attention. Life is a one-time chance to soar, a journey meant for purpose. The simplicity of a child's fable and the most treacherous of life's storms, what could they have in common, a famous racehorse, a fireman, a wooden puppet, an old scrooge, a Ghost, a banker, a king and four dysfunctional friends on a path? They all carried a depth of truth that in later life would reveal the mystery to a Magnificent Adventure.

UNBORED Adventure Apr 11 2021 UNBORED Adventure has all the smarts, innovation, and free-wheeling spirit of the original UNBORED and its 2014 spinoff, UNBORED Games, but with a fresh focus on encouraging kids to break out of their techno-passivity and explore the world around them--whether that's a backyard, a downtown, or a forest. Combining old-fashioned favorites with today's high-tech possibilities, the book offers a goldmine of creative, constructive activities that kids can do on their own or with their families. From camouflage techniques, survival skills, and cloudspotting advice to instructions on how to build an upcycled kite or raft, to using apps to navigate and explore, it's all here--along with comics that dive into the secret history of everything from bicycling to women explorers. A fun corrective to our over-anxious parenting culture, UNBORED Adventure encourages kids to become more independent and resilient, to solve problems and ask questions, and to engage with both their community and natural environment. The original UNBORED is already a much beloved, distinctly contemporary family brand. Along with UNBORED Games, UNBORED Adventure extends the franchise in a handy, flexibound format so that the whole family can enjoy themselves indoors, outdoors, online, and offline. \*Los Angeles Magazine

adventure. She yearns for adventure. Thomas may not climb the Himalayas or search for sunken treasure, but she's always ready to take on the forces of nature working through her life and her relationships. In *The Longest Adventure*, Thomas shares her life adventure, beginning with her birth in 1929. Growing up in a warm, self-reliant, Yiddish-speaking community in Winnipeg, Canada. She became aware early on of the world her parents came from and the wider world around her she could move into if she tried. Leaving both a religious and richly cultural community for an operatic career with the Arts Council Opera Group and the Glyndebourne Opera Festival in Great Britain, she discovered the richness to be found in the music of the great composers and became a promoter of this art form for the rest of her working years. Marriage to a Welsh teacher of English and a seeker of his own spiritual path in Subud and motherhood with five gifted children was followed by entrepreneurial social work in the creation and development of a community cultural organization, the Preville Fine Arts Centre. She served as chairwoman of the regional school commission that introduced the French immersion program to Canada. This memoir narrates the adventurous story of one woman who took a leap from one world to another, a plunge from one career to another, and a step from religion to humanism.

Everyday Adventures with Unruly Data Sep 04 2020 Paired informal and scholarly essays show how everyday events reveal fundamental concepts of data, including its creation, aggregation, management, and use. Whether questioning numbers on a scale, laughing at a misspelling of one’s name, or finding ourselves confused in a foreign supermarket, we are engaging with data. The only way to handle data responsibly, says Melanie Feinberg in this incisive work, is to take into account its human character. Though the data she discusses may seem familiar, close scrutiny shows it to be ambiguous, complicated, and uncertain: unruly. Drawing on the tools of information science, she uses everyday events such as deciding between Blender A and Blender B on Amazon to demonstrate a practical, critical, and generative mode of thinking about data: its creation, management, aggregation, and use. Each chapter pairs a self-contained main essay (an adventure) with a scholarly companion essay (the reflection). The adventure begins with an anecdote—visiting the library, running out of butter, cooking rice on a different stove. Feinberg argues that to understand the power and pitfalls of data science, we must attend to the data itself, not merely the algorithms that manipulate it. As she reflects on the implications of commonplace events, Feinberg explicates fundamental concepts of data that reveal the many tiny design decisions—which may not even seem like design at all—that shape how data comes to be. Through the themes of serendipity, objectivity, equivalence, interoperability, taxonomy, labels, and locality, she illuminates the surprisingly pervasive role of data in our daily thoughts and lives.

Brad Swift's *Dominion Over All* is a delight. Both youth and adult readers can relate to young Zak's rite of passage into an

adventurer's life. Young Boy and his dog, a Magic Cat, a Flying Dog, and a poisoned world, what more can you ask for. This was a delight to read, kept me turning the pages, and waiting to see how it all would come together. My 8yr old, 13yr old, and even 15yr old, enjoyed the story. This is a wonderful story of adventure as Zak, with the help of his new friends, finds the strength within himself to do what he never thought possible.
