**The African American Journey to the Power Dome** Jun 11 2021 How far has the American Dream been accessible to black characters in African American literature? The answer to this question requires a deep probing of the emotional and ideological patterns delineated in Black American narratives. This book traces the African American journey from the plantation to the power dome through multiple socio-artistic perspectives of Black American authorship. It captures numerous referential

inventions ranging from the 'colored' to the 'Black American,' while throwing light on the transforming status of America's Native Son, the marked visibility of its Invisible Man, and endless aspirations hovering Just Above My Head. This book highlights how these narratives—despite their authors being fundamentally different in their respective approaches—are connected to each other. D. H. Lawrence's American Journey Aug 13 2021

The Risen Adam Aug 01 2020 Showing Lawrence's familiarity with biblical typology from both written and visual sources, Virginia Hyde explores its many ironic and paradoxical versions in his works. She demonstrates his use of typological precursors of Christ, such as Adam and David, Moses and Aaron, and his development of a coherent cosmology centered on the cross and the Tree of Life. These features often take on radically revisionist meanings when informed by Lawrence's interests in theosophy and occult lore. Hyde

fully recognized Lawrence's intensely dynamic style and examines the ways in which he works creatively with his models. Hyde sheds new light on Lawrence's &"leadership&" views, linking them to patriarchal assumptions inherent in biblical typology. She utilizes manuscripts and sketches as well as his traditional works to show that a complex form of biblical symbolism affects both his form and content in unexpected ways. His symbols are often traceable to iconographic models with typological significance. The Risen Adam includes pioneering treatments of the first Quetzalcoatl, the 1923 version of The Plumed Serpent, so different in part from the final novel as to form a separate creative effort. Hyde also offers provocative new readings of The Rainbow, Women in Love, Aaron's Rod, &"The Border Line,&" The Plumed Serpent, David, The Man Who Died, Birds, Beasts and Flowers, and other works. The book is illustrated with artwork by Lawrence and with examples of the medieval and other iconography he knew.

**Doing Race in Social Studies** Feb 07 2021 Race and racism are a foundational part of the global and American experience. With this idea in mind, our social studies classes should reflect this reality. Social studies educators often have difficulties teaching about race within the context of their classrooms due to a variety of institutional and personal factors. *Doing Race in Social Studies: Critical Perspectives* provides teachers at all levels with research in social studies and critical race theory (CRT) and specific content ideas for how to teach about race within their social studies classes. The chapters in this book serve to fill the gap between the theoretical and the practical, as well as help teachers come to a better understanding of how teaching social studies from a CRT perspective can be enacted. The chapters included in this volume are written by prominent scholars in the field of social studies and CRT. They represent an original melding of CRT concepts with considerations of enacted social studies pedagogy. This volume addresses a void in the social studies conversation about race—how to think and teach about race within the social science disciplines that comprise the social

studies. Given the original nature of this work, *Doing Race in Social Studies: Critical Perspectives* is a much-needed addition to the conversation about race and social studies education.

**Meguriai** Nov 23 2019 "Meguriai" in Japanese means "chance meeting." "Meguriai: Nobuko's American Journey" is about a Japanese girl named Nobuko who dreamed of studying in

America just as her father had done in the early 20th century. Nobuko was born in Tokyo, Japan in 1927 to a U.S. educated father and at that time un-commonly free-thinking mother. After seeing smiling faces in old photos of her father's American friends in Ohio, she wanted to visit this magical country called America when she grew up. Nobuko majored in English to prepare herself for the life in America. The World War II was not in her equation! Nobuko personally experienced the U.S. firebombing of Tokyo, but her dream of going to America never wavered. To create friendship between the victor and the vanquished, the leaders of the U.S. occupation forces created a joint Messiah Chorus and called out to the universities in Tokyo. Nobuko and several of her friends at her college signed up hoping for the opportunity to practice English! The choral group made up of 200 American and Japanese people, performed at the Hibiya Performance Hall accompanied by the Japan Philharmonic Orchestra on Christmas Day, 1945, four months after the war ended. The romance between Nobuko in the alto section and Earle in the base section blossomed and eventually led to their marriage in 1947. A year later they moved to Champaign, Illinois. "Nobuko's American Journey" is about how Nobuko learned to cope with the very different culture and values and to raise her bi-racial children.

shedding new light on the impact of Barack Obama's stunning presidential victory and introducing the emerging young African American politicians forging a bold new path to political power. Ifill argues that the Black political structure formed during the Civil Rights movement is giving way to a generation of men and women who are the direct beneficiaries of the struggles of the 1960s. She offers incisive, detailed profiles of such prominent leaders as Newark Mayor Cory Booker, Massachusetts Governor Deval Patrick, and U.S. Congressman Artur Davis of Alabama (all interviewed for this book), and also covers numerous up-and-coming figures from across the nation. Drawing on exclusive interviews with power brokers such as President Obama, former Secretary of State Colin Powell, Vernon Jordan, the Reverend Jesse Jackson, his son Congressman Jesse Jackson Jr., and many others, as well as her own razor-sharp observations and analysis of such issues as generational conflict, the race/ gender clash, and the "black enough" conundrum, Ifill shows why this is a pivotal moment in American history. The Breakthrough is a remarkable look at contemporary politics and an essential foundation for understanding the future of American democracy in the age of Obama.

**Willpower: A Historical Study Of An Influential Leadership Attribute** May 10 2021 This thesis investigates a single leadership attribute: willpower. Willpower is defined as the amalgamation of continuing in the face of adversity; the refusal to accept failure; and the power to affect a desired outcome in others. The central research question investigates how a leader generates willpower and transmits it to produce a desired effect. The methodology employed investigates three historical military leaders at the strategic, operational, and tactical levels of war over a sixty year period. The leaders analyzed are General Colin Powell, Admiral Chester Nimitz, and Lieutenant General Harold Moore. This analysis method was chosen to answer the three secondary research questions: Is there a common thread? Is willpower different at different levels of war? Has willpower transmission changed over time? To provide objectivity, a leader who possessed willpower

and still failed, General Douglas MacArthur, is also studied. The historical leaders studied are found to have similarities in how they generate and transmit willpower. The willpower transmission techniques employed by the research subjects have not changed significantly over the period studied. However, willpower transmission techniques do reveal differences over the three levels of war. Using translation as an analytical category, it explores what is translatable and untranslatable between nation-specific approaches such as British/American cultural studies, German Kulturwissenschaften and other traditions in studying culture. The range of articles included in the book covers both theoretical reflections and specific case studies

that analyze the tensions and compatibilities amongst contemporary perspectives on the study of culture. By testing various key concepts - translation, cultural transfer, travelling concepts - this volume reflects on an essential vocabulary and common points of reference for scholars seeking new frameworks and methodologies for the foundation of a trans/national study of culture that is commensurate with the entangled nature of our world society.
