Caribbean Migrations Mar 29 2020 "With mass migration changing the configuration of societies worldwide, we can look to the Caribbean to reflect on the long-standing, entangled relations between countries and areas as uneven in size and influence as the United States, Cuba, Hispaniola, Puerto Rico, and Jamaica. More so than other world regions, the Caribbean has been characterized as an always already colonial region. It has long been a key area for empires warring over influence spheres in the new world, and where migration waves from Africa, Europe, and Asia accompanied every political transformation over the last five centuries. In Caribbean Migrations, an interdisciplinary group of humanities and social science scholars study migration from a long-term perspective, analyzing the Caribbean's "unincorporated subjects" from a legal, historical, and cultural standpoint, and exploring how despite often fractured public spheres, Caribbean intellectuals, artists, filmmakers, and writers have been resourceful at showcasing migration as the hallmark of our modern age"--

Latina/o Communication Studies Feb 08 2021 This is the first book within the field of communication studies to map the terrain of Latina/o performance. Using rhetorical criticism and performance ethnography, the book examines performance from a variety of perspectives: from identity and community in everyday life, to how it intersects with popular culture. Discussions - from Ricky Martin to Chicana feminist pilgrimages to issues of diaspora - contribute to the book's argument that the relationship between rhetorical scholarship and emerging performance work has largely been ignored. Latina/o Communication Studies aims to challenge this split by creating a more complex and less Eurocentric understanding of rhetoric. This rich and informative book contributes to a more nuanced understanding of race and ethnicity and attests to the importance of Latina/o studies in the field of communication.
