**Sport Coaching Research and Practice** Mar 21 2022 Research shapes our understanding of practice in powerful and important ways, in sports coaching as in any other discipline. This innovative study explores the philosophical foundations of sport coaching research, examining the often implicit links between research process and practice, descriptions and prescriptions. Arguing that the assumptions of traditional single-disciplinary accounts, such as those based in psychology or sociology, risk over-simplifying our understanding of coaching, this book presents an alternative framework for sports coaching research based on critical realism. The result is an embedded, relational and emergent conception of coaching practice that opens new ways of thinking about coaching knowledge. Drawing on new empirical case study research, it demonstrates vividly how a critical realist-informed approach can provide a more realistic and accountable knowledge to coaching stakeholders. This knowledge promises to have important implications for coaching, and coach education and

development practices. Sport Coaching Research and Practice: Ontology, Interdisciplinarity and Critical Realism is fascinating reading for any student or researcher working in sports coaching, sport pedagogy, physical education, the philosophy or sociology of sport, or research methodology in sport and exercise.

**Courage Before Confidence** Aug 02 2020 The only place where confidence comes before courage is in the dictionary. The first step to all change is awareness without blame or guilt. Become aware of your whispers, listen, evaluate and decide if it is ego or soul talking to you. You decide. You are the boss. Life is not a dress rehearsal. This self-coaching journal will guide you and give you the quiet space and time to be guided into your deep desires. You will discover how to listen to what your heart and life are trying to tell you. Courage is your path to confidence. 60 pages of inspiration and only 10 minutes per day will guide you to: \* Step up to the plate and swing\* Aim up and move forward with confidence\* Become a deliberate decision-maker\* Enjoy emotional freedom\* Live the life you were meant to live\* Stop procrastinating\* Align your true self to your ideal life. \* Actually, be on the playing field vs. watching from the stands This is the time to walk into your power and start living your truth! And - it takes COURAGE to become genuinely CONFIDENT. And confidence is the best place to be. When you are confident, you KNOW you can do something, and it's relatively easy. Best feeling in the world...certainty! Usually, courage has to come before confidence. And we are so afraid of trying and failing, or looking silly, and listening to all those limiting beliefs in our heads. Limiting beliefs like I'm too young, I'm too old, I don't have the education I need, I'll fail and look bad, what if I'm successful or like it...will people think I'm crazy or arrogant? Be Bold enough to use your voice. Be Brave enough to listen to your heart. Be Strong enough to live the life you've always imagined!" The most important relationship you will ever have is the one you have with yourself." All my best on your journey, Rita

**Responsive Literacy Coaching** Sep 27 2022 In Responsive Literacy Coaching, Cheryl Dozier draws on twenty-four years of experience as an elementary classroom teacher and teacher educator to present both a theoretical framework and practical tools to enact responsive literacy coaching. Through thoughtful and purposeful coaching, teachers learn effective ways to improve literacy instruction and student achievement. The range of tools offered in the text invite customization based on the reader's specific instructional context. This framework empowers literacy coaches and teachers through conversation, sustained engagement, and reflective analysis. Dozier argues that at its best, literacy coaching is responsive, collegial, thoughtful, thought-provoking, deliberate, reflective, and transferable. In this book she invites readers to enter into a coaching dialogue, through: vignettes that bring coaching interactions to life; prompts to engage both teachers and students; occasions for collaborative reflection; frequently-asked questions. As literacy tasks are documented and analyzed, coaching interactions logged and categorized, and assessment scores scrutinized, Dozier cautions coaches to avoid being so caught up in the doing of coaching that one forgets the purpose behind it. In this book she provides an occasion for them to step back, and ask, what is the goal of literacy coaching? What kind of literacy environments and experiences are we creating for our schools and our students? What is possible as we engage in transformative literacy practices? While the tools offered in this book do not provide a "quick fix," they foster critical thinking and sustained inquiry that leads to positive change for both teachers and students.

**Leadership, Coaching and Followership** Jul 25 2022 This volume presents evidence-based ideas on all three converging forces to suit an array of individuals and their organisations. The volume is thick with evidence, detail and case studies that the reader can draw upon and apply to their own situations. ? Defining exactly what is leadership has been a persistent problem for researchers and theorists. Discovering how to create or produce leaders likewise has been a difficult challenge over the years. Written by an academic, executive and coach, the author focuses on three important converging aspects: leadership, followership and coaching. Focus on leaders is disproportionate to what actually occurs within most organisations especially the relationship between the leader and the followers. That leadership is tantamount with being in control of a situation is challenged, together with the belief that leadership capability is primarily shaped in line with a set of success criteria. The coach plays a significant part in this process although rarely visible.
