x 4 step 2 of 3 evaluate this function at x 7  
express your answer as an integer or simplified  
fraction if the function is undefined at the given  
value indicate undefined  
[ring mathematics wikipedia](#) May 26 2022 web in  
mathematics rings are algebraic structures that  
generalize fields multiplication need not be

commutative and multiplicative inverses need  
not exist in other words a ring is a set equipped  
with two binary operations satisfying properties  
analogous to those of addition and multiplication  
of integers ring elements may be numbers such  
as integers or complex
