Step Back Dec 26 2019 How to find clarity amid the turbulence of work and life We all wish we had more time to pause and reflect about small decisions and big goals—and everything in between. But since we live and work in a vortex of tasks, meetings, decisions, and responsibilities, we rarely get the chance to step back. In this practical guide, bestselling author and Harvard Business School professor Joseph Badaracco argues that you don't need long periods of solitude and tranquility to reflect well. In fact, reflection can take place in the cracks and crevices of your very busy life, and these moments can help you understand your feelings, look at problems from different perspectives, focus on what really matters, and, ultimately, lead a better life. Building on candid interviews with over a hundred executives and professionals, as well as on the classic works of Marcus Aurelius, Michel de Montaigne, and Ignatius of Loyola, Badaracco offers simple, customizable principles and ideas for reflection that lend a gentle discipline to an otherwise nebulous process. Concise, smart, and pragmatic, Step Back is the guide you need to make reflection a positive force in your work and life.

A Grief Received Oct 16 2021 Discover hope, comfort, transformation--the gifts given in grief Too often, we think of loss like we might a broken bone. We leave the bone alone, protect it from bumps, and wait. We think eventually everything will go back to normal, the same as it always was. But losing a loved one is nothing like a broken arm. Loss is amputation, and the path to healing doesn't lead back to the same, only ahead to the different. A Grief Received offers a personal, authentic, and practical approach to weathering grief with hope. Writing with deep insight, JL Gerhardt draws on the loss of her younger brother when she was twenty-one, other personal experiences of grief, and her work in ministry alongside her husband, a minister and chaplain. Through nine practices grieving people can adopt to position themselves to receive the gifts of grief,

Gerhardt provides touchstones readers will recognize and a path to personal transformation. Each chapter includes personal reflection questions and suggested resources. Gerhardt assumes the role of friend, partner, and speaker of sometimes-inconvenient but always-helpful truths. Readers will walk away comforted, directed, and inspired to seek God and God's shaping in their grief.

Mission to Athens Apr 10 2021 Judge Severus delves into a famous historical cold case, a murder trial held in the Roman Senate in 160 CE. The defendant was Herodes Atticus, the richest and one of the most learned men in Greece, a member of the Senate himself, and a teacher and friend of both the emperor Marcus Aurelius and his younger co-emperor Lucius Verus. The victim was Herodes' pregnant young wife Regilla. Though acquitted by the Senate, many thought Herodes was guilty, saved by political influence and interference. To this day, scholars are uncertain about his culpability. -- Amazon.

Pragmatic Rationalism: An Introduction Aug 14 2021 Pragmatic rationalism is a coherent blend of elements from Epicureanism, Stoicism, Empiricism, and Existentialism. It holds that the ultimate goal of life is happiness-individual happiness identified as psychic tranquility or untroubledness-and attempts to pursue that goal in the most practical, efficacious manner possible. Accordingly, it emphasizes investing this pursuit in the only things we each control, our thoughts and feelings, and minimizing desire for and reliance on all things external to us and therefore not under our control, such as wealth and fame. It insists that individuals choose, and therefore are responsible for, all they think and feel. It rejects all emotionalism and belief systems and, instead, relies on induction and probability to guide decision making and behavior. Though an egoistic and hedonistic philosophy from the individual's perspective, it nevertheless advocates the Golden Rule as the most useful guiding principle in interaction with others.

The Three-Petalled Rose Aug 02 2020 This is a book for anyone who wants to live "the good life," but who has not yet found a clear path to that goal. By examining the common threads that unite three, great spiritual traditions--Judaism, Buddhism, and Stoicism--the author provides a framework for achieving a fulfilled and ethically responsible life. The author helps the reader take the spiritual "nutrients" from these three ancient traditions and transform them into a life of beauty, order, and purpose. No scholarly expertise or special knowledge of religion is required to understand this book, nor need the reader believe in a "supreme being" or owe allegiance to a particular religion. All that's needed is an open mind and a sincere desire to create an awakened and flourishing life.

Stoicism Oct 24 2019 This is the first introduction to Stoic philosophy for 30 years. Aimed at readers new to Stoicism and to ancient philosophy, it outlines the central philosophical ideas of Stoicism and introduces the reader to the different ancient authors and sources that they will encounter when exploring Stoicism. The range of sources that are drawn upon in the reconstruction of Stoic philosophy can be bewildering for the beginner. Sellars guides the reader through the surviving works of the late Stoic authors, Seneca and Epictetus, and the fragments relating to the early Stoics found in authors such as Plutarch and Stobaeus. The opening chapter offers an introduction to the ancient Stoics, their works, and other ancient authors who report material about ancient Stoic philosophy. The second chapter considers how the Stoics themselves conceived philosophy and how they structured their own philosophical system. Chapters 3-5 offer accounts of Stoic philosophical doctrines arranged according to the Stoic division of philosophical discourse into three parts: logic, physics, and ethics. The final chapter considers the later impact of Stoicism on Western philosophy. At the end of the volume there is a detailed guide to further reading.

The Persian Assassin Feb 26 2020 The Persian Assassin is the 7th in the series of highly acclaimed and best selling Judge Marcus Flavius Severus mysteries in Ancient Rome. This story takes place in the year 169 CE during the reign of Marcus Aurelius. It is 6 months after the events in Across the River Styx and Judge Severus now wants to retire and live his life with his family in the countryside, where he can study philosophy and history and astronomy and contemplate. He is fed up with dealing with the problems of the huge Urbs. But Fate intervenes. The Roman secret service, the curiosi, has information that the Persian secret service, the spasaka, has sent an assassin to kill the Roman Emperors Lucius Verus and Marcus Aurelius. This is to retaliate not just for the defeat of the Parthian dynasty in the recent war, but for the Roman sacking of its capital at Ctesiphon. By the time this information reaches Rome, the Emperor Lucius Verus is already dead, apparently from a stroke. But was he murdered by a Persian assassin? And whether he was or not, if there were an assassin on the loose, Marcus Aurelius would be the next target. Severus receives a letter from Marcus Aurelius, his friend from childhood, saying that the curiosi are stumped in their search for the Persian assassin and request the help of Judge Severus. Reluctant as he is to come out of retirement, Severus cannot refuse the Emperor. As the investigation gets underway, there is a scary attempt to assassinate Marcus Aurelius by infiltrating an Egyptian cobra into the Emperor's own bed. By happenstance, the attempt fails. The ensuing investigation leads to places and suspects inside the City of Rome and outside, at the Imperial villa in Lanuvium and the Marsic snake charming cult on Lake Fucinus. As in

previous cases, Judge Severus is aided by his private secretary and freedman Alexander, his police aides Vulso and Straton, his court clerk Proculus, his wife Artemisia, and his judicial assessor, Flaccus, all of whom reconvene to assist in tracking down the Persian assassin. This book, as the others in the series, is not only a mystery, but also captures the daily life of ancient Rome and is a sojourn into the world of courts, police, espionage and criminal law of the period. All laws, rescripts and legal procedures are from Roman law sources. Alan Scribner was an Assistant District Attorney in the office of Frank S. Hogan in New York County and a criminal defense attorney. He is also an independent scholar of Ancient Rome, co-author with J.C.Douglas Marshall of *Anni Ultimi: A Roman Stoic Guide to Retirement, Old Age and Death*. Scribner is the author of the Judge Marcus Flavius Severus Mysteries in Ancient Rome series: *Mars the Avenger*, *The Cyclops Case*, *Marcus Aurelius Betrayed*, *The Return of Spartacus*, *Mission to Athens* and *Across the River Styx*.

[Marcus Aurelius Betrayed](#) Mar 21 2022 Judge Severus returns in "Marcus Aurelius Betrayed", the third of the highly acclaimed and best selling historical mysteries set at the height of the Roman Empire. The year is now 163 CE, 2 years after the events in "The Cyclops Case" and 5 years after the events in "Mars the Avenger". It is the third year of the reign of Marcus Aurelius. In "Marcus Aurelius Betrayed", Marcus Flavius Severus, Judge in the Court of the Urban Prefect in the City of Rome, is appointed by Emperor Marcus Aurelius as his special judge to travel to Alexandria to investigate an attempt to murder the Prefect of Egypt. Poison has been put in the Prefect's drinking cup at an orgy, but the poison was drunk by the guest of honor, an official of the Imperial Post, who was on the couch next to the Prefect. Judge Severus, with the assistance of his wife Artemisia, his private secretary Alexander and his court and police aides track down clues and witnesses in Alexandria in quest of a solution. On the way they encounter thefts of rare books from the Great Library of Alexandria, the production of fake antiquities and judicial murder. Eventually, through a number of plot twists and turns, the case is referred to the Emperor in Rome and the investigation continues in the capital of the Empire. As in "Mars the Avenger" and "The Cyclops Case", *Marcus Aurelius Betrayed* is both a mystery and daily life of Ancient Rome, a sojourn into the world of the Roman Empire and its courts, police and criminal law. The investigation takes Severus and his aides to the wonders in the Roman province of Egypt -- the Great Library, the Museum, the Pharos Lighthouse, the Pyramids -- as well as to the streets of Alexandria, a house of high class courtesans and army maneuvers in the field. There are also scenes in the city of Rome and in Roman courts. The book is accurate as to the criminal laws and procedures of the time. All laws, rescripts and legal procedures come from Roman law sources, which are extensive for the 2nd Century CE. A culminating trial is held in Rome before the Emperor Marcus Aurelius himself where Judge Severus unravels the mystery through a series of shrewd deductions.
