Dispute Resolution in China, Europe and World Sep 25 2019 This book brings together articles from leading experts in the field of international dispute resolution. The main focus is on the situation in Asia, though the European perspective also plays an important part. Accordingly, the focus on the Asian dispute resolution market with a distinctly American and European "touch" is one of the book's most unique features. The dispute resolution market is rapidly transforming, and dispute resolution law is changing with it –especially in Asia. This book highlights recent advances and outlines future trends in this area. Emphasis is especially placed on International Commercial Arbitration Law on the one hand; and on International Investment Arbitration Law on the other. Two dedicated sections address these two topics, while another is dedicated to a quite new phenomenon in the field of international dispute resolution, the emergence of International Commercial Courts not only in Asia, but also in other regions of the world (e.g. in the Netherlands). This raises a host of interesting legal questions, which the book addresses. The book's final section investigates general trends in dispute resolution (e.g. the rising cost problem in arbitration in general).

Dispute Resolution Under Tax Treaties Mar 12 2021 As the interrelationship among tax bases continues to parallel the rapid development of the global economy, disputes among governments as to their right to tax international trade and investments under income tax treaties are expected to increase in number and scope. This study takes an in-depth look at the mechanisms used to resolve such disputes and how they interact with the interests of the various parties involved in the process. The study presents an analysis of the available literature, supplemented by statistical data from North America, Europe and Asia. Analysis of this data leads to interesting insights into the way the dispute resolution process functions when it is applied in different contexts. A comprehensive common framework of analysis, based on a checklist for governments, international organizations and taxpayers, is also developed in the study. This framework lists the main advantages and disadvantages of treaty-related international income tax dispute resolution procedures. The checklist is formulated with the aim to assist readers informing policies and in arguing positions, taking into account the subjective value given by each reader to each listed item. The study concludes by suggesting the creation of a new mechanism for the resolution of tax treaty-related disputes, and advocates, in part, the establishment of a new international organization with links to domestic judicial networks. This mechanism is then subjected to the same common framework analysis and checklist used in earlier parts of the study. The analysis suggests how such a mechanism would mitigate some of the most formidable challenges associated with the current dispute resolution procedures.

Dispute Resolution in China Aug 29 2022 In recent years, the Chinese legal system on civil litigation, arbitration and mediation, including their respective laws, regulations, and legal institutions, has undergone many changes. These reforms include, for example, three rounds of Reform Plans of the People's Courts (1998-2013), amendments to the Civil Procedure Law in 2007 and 2012, revisions to rules of China's flagship arbitration institution, the China International Economic and Trade Arbitration Commission (CIETAC), in 2005 and 2012, and promulgation of the People's Mediation Law in 2010. This book focuses on the law and development of these three major dispute resolution mechanisms in China, examining the design and legal framework of civil litigation, arbitration and mediation, their operations, challenges, and past-decade reforms. It also explores the wider contextual factors (political, economic, and societal) that led to these developments and looks at the possible obstacles to further development, for civil justice reform in particular and rule-of-law in general. By examining up-to-date literatures while exploring answers to the academic inquiries, this book provides a thorough analysis of the dynamic contemporary Chinese system of dispute resolution that has on the one hand blended Chinese traditions, socioeconomic and sociopolitical realities, guanxi culture and foreign experience, and has on the other hand developed distinctively to respond to China's market and societal transitions. This book will be an invaluable reference tool for students, scholars and practitioners with an interest in Chinese law, dispute resolution, and broader economic and political dimensions of dispute resolution development in China.

Over the last quarter of a century, much learning has taken place on the topic of ADR and the literature on the subject is now voluminous. This book puts forward the thesis that the peculiar experiences of the developing world ought to help reshape our traditional notions of ADR. Furthermore, the impact of globalisation on the developing world has brought with it special and peculiar challenges to our notions of civil and criminal justice which are not replicated elsewhere. This book will appeal to a wide readership. International Dispute Resolution Feb 08 2021 The contributions in this book cover a wide range of topics within modern disputeresolution, which can be summarised as follows: harmonisation, enforcement andalternative dispute resolution. In particular, it looks into the impact of harmonisedEU law on national rules of civil procedure and addresses the lack of harmonisationin the US regarding the recognition and enforcement of foreign judgments. Furthermore,the law on enforcement is examined, not only by focusing on US law, but also onhow to attach assets in order to enforce a judgment. Finally, it addresses certain typesof alternative dispute resolution. In addition, the book looks into the systems andcultures of dispute resolution in several regions of the world, such as the EU, the US andChina, that have a high impact on globalisation. Hence, the book is diverse in the senseof dealing with multiple issues in the field of modern dispute resolution./div The book offers explorations of the impact of international rules

and EU law on domestic civil procedure, through case studies from, among others, the US, China, Belgium and the Netherlands. The relevance of EU law for the national debate and its impact on the regulation of civil procedure is also considered. Furthermore, several contributions discuss the necessity and possibility of harmonisation in the emergency arbitrator mechanisms in the EU. The harmonisation of private international law rules within the EU, particularly those of a procedural nature, is juxtaposed to the lack thereof in the US. Also, the book offers an overview of the current dispute settlement mechanisms in China. The publication is primarily meant for legal academics in private international law and civil procedure. It will also prove useful to practitioners regularly engaged in cross-border dispute resolution and will be of added value to advanced students, as well as to those with an interest in international litigation and more generally in the area of dispute resolution. Vesna Lazić is Senior Researcher at the T.M.C. Asser Institute, Associate Professor of Private Law at Utrecht University and Professor of European Civil Procedure at the University of Rijeka. Steven Stuij is an expert in Private International Law and a PhD Candidate/Guest Researcher at the Erasmus School of Law, Rotterdam. Ton Jongbloed is Guest Editor on this volume.

International Dispute Resolution Sep 17 2021 This volume considers the application of dispute resolution theory and practice to international conflicts and explores the uses of formal processes such as diplomacy or treaty formation, as well as more informal processes such as multiple-track private negotiations or peace workshops. The volume also presents materials on more innovative forms of complex transnational or sub-national conflict resolution, such as transitional and restorative justice institutions and processes, both formal (truth and reconciliation commissions) and indigenous and informal (Rwandan gacaca). The articles are selected from both public and private international law settings and query whether universal principles of multi-national dispute resolution are possible or whether each conflict is likely to be sui generis or requiring deep contextual analysis and integrity. They also explore the dialogic, as well as dialectical, relationships in the development of conflict resolution theory and practice in multi-cultural and multi-disciplinary settings and show that the application of dispute resolution theories from multiple sources and cultures (both Western and Eastern, as well as Northern and Southern) to multiple sites of conflicts (including courts, tribunals and other forms of dispute resolution at different levels and from multiple jurisdictions) raises important dilemmas of universalism and particularism in international conflict resolution.

A Handbook of Dispute Resolution Dec 09 2020 A Handbook of Dispute Resolution examines the theoretical and practical developments that are transforming the practice of lawyers and other professionals engaged in settling disputes, grievance-handling and litigation. The book explains what distinguishes ADR from other forms of dispute resolution and examines the role ADR can play in a range of contexts where litigation would once have been the only option, such as family law and company law. In some areas, like industrial relations, ADR is not an alternative, but the main method of conflict-intervention, and several contributors draw on their experience of negotiating between management and unions. A wide variety of methods is open to the non-litigious, including resort to Ombudsmen, negotiation, small claims courts and mini-trials; these and other options receive detailed attention. Given the newness of ADR as a discipline, questions about the training of mediators and about the role of central government have not yet been resolved. The final section of the book is devoted to discussion of these issues. Case studies are drawn from the international arena - examples from China, Canada, Australia, Germany and North America place ADR in a cultural and historical perspective.

Sie sind nur eine beispielhafte Aufzählung für Personen, die sich mit einer Persönlichkeitsrechtsverletzung konfrontiert sahen. Der „Tatort“ solcher Verletzungen liegt zunehmend in der digitalen Welt. Manch einer sieht dies als rechtsfreien Raum an, doch offensichtlich ist, dass auch hier Regeln gelten müssen. Erst kürzlich sprach die Bundeskanzlerin Frau Dr. Angela Merkel davon, dass im Internet ähnliche Maßstäbe gelten müssten wie im realen Leben und die eigene Freiheit dort ende, wo die Freiheit des anderen verletzt sei. Somit stellt sich die Frage nach Regelungen, der Haftung für Verletzungen, aber vor allem nach Lösungsansätzen, um derartige Persönlichkeitsrechtsverletzungen im Internet zu vermeiden und resultierende Konflikte zu schlichten.

Alternative Dispute Resolution in Tanzania Aug 17 2021 Today, Alternative Dispute Resolution (ADR) has gained international recognition and is widely used to complement the conventional methods of resolving disputes through courts of law. ADR simply entails all modes of dispute settlement/resolution other than the traditional approaches of dispute settlement through courts of law. Mainly, these modes are: negotiation, mediation, [re]conciliation, and arbitration. The modern ADR movement began in the United States as a result of two main concerns for reforming the American justice system: the need for better-quality processes and outcomes in the judicial system; and the need for efficiency of justice. ADR was transplanted into the African legal systems in the 1980s and 1990s as a result of the liberalization of the African economies, which was accompanied by such conditionalities as reform of the justice and legal sectors, under the Structural Adjustment Programmes. However, most of the methods of ADR that are promoted for inclusion in African justice systems are similar to pre-colonial African dispute settlement mechanisms that encouraged restoration of harmony and social bonds in the justice system. In Tanzania ADR was introduced in 1994 through Government Notice No. 422, which amended the First Schedule to the Civil Procedure Code Act (1966), and it is now an inherent component of the country's legal system. In recognition of its importance in civil litigation in Tanzania, ADR has been made a compulsory subject in higher learning/training institutions for lawyers. This handbook provides theories, principles, examples of practice, and materials relating to ADR in Tanzania and is therefore an essential resource for practicing lawyers as well as law students with an interest in Tanzania. It also contains additional information on evolving standards in international commercial arbitration, which are very useful to legal practitioners and law students.
