[Joe T. Patterson and the White South's Dilemma](#) Jan 18 2022 As Mississippi's attorney general from 1956 to 1969, Joe T. Patterson led the legal defense for Jim Crow in the state. He was inaugurated for his first term two months before the launch of the Sovereignty Commission--charged "to protect the sovereignty of Mississippi from encroachment thereon by the federal government"--which made manifest a century-old states' rights ideology couched in the rhetoric of massive resistance. Despite the dubious legal foundations of that agenda, Patterson supported the organization's mission from the start and served as an ex-officio leader on its board for the rest of his life. Patterson was also a card-carrying member of the segregationist Citizens' Council and, in his own words, had "spent many hours and driven many miles advocating the basic principles for which the Citizens' Councils were originally organized." Few ever doubted his Jim Crow credentials. That is until September 1962 and the integration of the University of Mississippi by James Meredith. That fall Patterson stepped out of his entrenchment by defying a circle of white power brokers, but only to a point. His seeming acquiescence came at the height of the biggest crisis for Mississippi's racist order. Yet even after the Supreme Court decreed that Meredith must enter the university, Patterson opposed any further desegregation and despised the federal intervention at Ole Miss. Still he faced a dilemma that confronted all white southerners: how to maintain an artificially elevated position for whites in southern society without resorting to violence or intimidation. Once the Supreme Court handed down its decision in Meredith v. Fair, the state attorney general walked a strategic tightrope, looking to temper the ruling's impact without inciting the mob and without retreating any further. Patterson and others sought pragmatic answers to the dilemma of white southerners, not in the name of civil rights but to offer a more durable version of white power. His finesse paved the way for future tactics employing duplicity and barely yielding social change while deferring many dreams.

[The Thomas Lacy III Family of Hanover and Buckingham Counties, Virginia](#) Nov 23 2019 James Lasie/Lacy/Lacey immigrated to Virginia from England in 1587 and settled on Roanoke Island (now in N.C.). John Lasey arrived in 1624 and William Lasey with his wife, Susan, immigrated to South-hampton, Va. in 1624. Many others followed. They settled chiefly in the South, but later scattered throughout the country.

[A Hard Trip](#) Aug 01 2020 Not strictly a military history, Ben Wynne examines in this book the social components of Confederate service in the context of the experiences of a single regiment. Wynne begins with a general overview of the political climate of the 1850s, localized to the region that produced the 15th Mississippi, then covers the regiment's movements through the western theater, and ends with a localized treatment of the post-war social climate and the rise of Lost Cause mythology. The emphasis in this insightful and new approach to the Civil War focuses on the experiences of the men who served in the regiment, including their intrinsic connection to their communities, reasons that they enlisted, reactions to their first combat, views on conscription, accounts of major battles in the western theater, the ebb and flow of morale, desertion, and the post-war status of the men as heroes in a culture struggling to rationalize defeat. Using first person accounts from letters, diaries, memoirs, and other primary materials, the book sets the 15th Mississippi in a personal context. The narrative is chronologically arranged by the events of the western theater of the Civil War. Emphasizing the real war and not a romanticized version, the story of this unique regiment follows a group of men who entered the war with visions of glory and honor but within one year came to recognize the true nature of the conflict.
