Dreams That Speak Oct 15 2021 Birth from her mother womb as the mouth piece for God, evolved the anointed infallible, woman of God, Prophetess Antoinette M. White. As God molded her in His hands, He purposed her for His works and for His people. From the cradle to the pulpit this Prophetess was destined to bring forth the word of God with the anointing and power. Hearing the call in her tender years, Antoinette began her ministry with a Yes Lord, her am I, and sojourns her call in the path of ministerial greatness. With an ear to hear His voice, and her affections toward heavenly matters, this Prophetess is unmovable and unstoppable on her mission. In her childhood years it was evident Antoinette was a gifted child; peculiar, anointed and called to ministry. As the gift of prophecy manifested through her voice, and prophetic dreams became perceptible through full materialization, the mantle as Gods Prophetess was apparent. Prophetess White is the wife of the powerful Apostle Michael S. White Jr. and mother of six children. These two anointed vessels established Remnant Apostolic Prophetic Outreach (www.wrapoutreach.org).

Louise Brigham and the Early History of Sustainable Furniture Design Jul 12 2021 During the Progressive Era, a time when the field of design was dominated almost entirely by men, a largely forgotten activist and teacher named Louise Brigham became a pioneer of sustainable furniture design. With her ingenious system for building inexpensive but sturdy "box furniture" out of recycled materials, she aimed to bring good design to the urban working class. As Antoinette LaFarge shows, Brigham forged a singular career for herself that embraced working in the American and European settlement movements, publishing a book of box furniture designs, running carpentry workshops in New York, and founding a company that offered some of the earliest ready-to-assemble furniture in

the United States. Her work was a resounding critique of capitalism's waste and an assertion of new values in design—values that stand at the heart of today's open and green design movements.

Dream Seeking Feb 19 2022 Lin and Richard, like so many people, dreamed of a life in the sun, away from the pace and problems of their stressed lives as teachers. Summer holidays in Europe were always over too quickly, and they began to feel the attraction of life in Greece. After an 'accidental' holiday on the small Greek island of Nisyros, albeit having been badly organised by a tour company which promptly went out of business, the spell was well and truly cast. After several more visits to the island during the holidays, ill-health caused a change in their circumstances in England. Whilst enjoying the freedom to walk, read and generally slowdown, they felt that now was the opportunity to seek their dream. Packing an elderly Landrover, Richard and Garry, the son of a friend, drove to Nisyros, whilst Lin and their daughter Sue, took the more obvious route and flew. Speaking only limited Greek on an island where so few of the inhabitants spoke little or no English, created both frustration and hilarity! Sue and her friend Amy stayed for a part of the summer, their presence causing a significant stir amongst the people of the small mountain village of Nikia where Lin, Richard and Garry had made their home. From killing the pig to burying the donkey; from cleaning rooms to repairing doors; from washing in well-water inhabited by several species of aquatic life, to dancing at the festivals, their life was filled with a variety and richness of experiences which have to be read to be believed. This year was the beginning of the realisation of their dream. Reviews "The new Interface is stunning in its simplicity and ease of use." - PC Magazine

The Empty Cradle of Democracy Oct 27 2022 During the 1990s, Greece had a very high rate of abortion at the same time that its low birth rate was considered a national crisis. The Empty Cradle of Democracy explores this paradox. Alexandra Halkias shows that despite Greek Orthodox beliefs that abortion is murder, many Greek women view it as “natural” and consider birth control methods invasive. The formal public-sphere view is that women destroy the body of the nation by aborting future citizens. Scrutiny of these conflicting cultural beliefs enables Halkias’s incisive critique of the cornerstones of modern liberal democracy, including the autonomous “individual” subject and a polity external to the private sphere. The Empty Cradle of Democracy examines the complex relationship between nationalism and gender and re-theorizes late modernity and violence by exploring Greek representations of human agency, the fetus, national identity, eroticism, and the divine. Halkias’s analysis combines telling fragments of contemporary Athenian culture, Greek history, media coverage of abortion and the declining birth rate, and fieldwork in Athens at an obstetrics/gynecology clinic and a family-planning center. Halkias conducted in-depth interviews with one hundred and twenty women who had had two or more abortions and observed more than four hundred gynecological exams at a state family-planning center. She reveals how intimate decisions and the public preoccupation with the low birth rate connect to nationalist ideas of race, religion, freedom, resistance, and the fraught encounter between modernity and tradition. The Empty Cradle of Democracy is a startling examination of how assumptions underlying liberal democracy are betrayed while the nation permeates the body and understandings of gender and sexuality complicate the nation-building projects of late modernity.
