Energy Research Abstracts

Jun 02 2020 Semiannual, with semiannual and annual indexes. References to all scientific and technical literature coming from DOE, its laboratories, energy centers, and contractors. Includes all works deriving from DOE, other related government-sponsored information, and foreign nonnuclear information. Arranged under 39 categories, e.g., Biomedical sciences, basic studies; Biomedical sciences, applied studies; Health and safety; and Fusion energy. Entry gives

bibliographical information and abstract. Corporate, author, subject, report number indexes.

Moment Tensor Solutions Jan 28 2020 This book first focuses on the explanation of the theory about focal mechanisms and moment tensor solutions and their role in the modern seismology. The second part of the book compiles several state-of-the-art case studies in different seismotectonic settings of the planet. The assessment of seismic hazard and the reduction of losses due to future earthquakes is probably the most important contribution of seismology to

society. In this regard, the understanding of reliable determination seismic source and of its uncertainty can play a key role in contributing to geodynamic investigation, seismic hazard assessment and earthquake studies. In the last two decades, the use of waveforms recorded at local-to-regional distances has increased considerably.

Waveform modeling has been used also to estimate faulting parameters of small-to-moderate sized earthquakes.

Performance Analysis in Sport Sep 25 2019 This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series: they are collections of at least ten articles, all centered on a particular subject. With their unique mix of varied contributions from Original

Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area! Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact. *Technical Abstract Bulletin* Feb 08 2021

Data Science and Simulation in Transportation Research Nov 07 2020 Given its effective techniques and theories from various sources and fields, data science is playing a vital role in transportation research and the consequences of the inevitable switch to electronic vehicles. This fundamental insight provides a step towards the solution of this important challenge. Data Science and Simulation in Transportation Research highlights entirely new and detailed spatial-temporal micro-simulation methodologies for human mobility and the emerging dynamics of our society.

Bringing together novel ideas grounded in big data from various data mining and transportation science sources, this book is an essential tool for professionals, students, and researchers in the fields of transportation research and data mining.

The Mechanism of Induced Seismicity Dec 29 2019
Das Summa Summarum des

Management Mar 24 2022
Kann man gutes Management lernen? Gibt es im Management so etwas wie „ewige Wahrheiten“? Wie navigieren Unternehmer und Führungsverantwortliche ihre Firmen durch Krisenzeiten?

Wie können Führungskräfte notwendige Veränderungen herbeiführen oder Mitarbeiter motivieren, auf neue Ziele einzuschwören, Lust auf Leistung vermitteln? Das „Summa Summarum des Management“ bringt 25 der wichtigsten Werke der

Managementliteratur auf den Punkt. Das Buch skizziert die Inhalte, fixiert die Kerngedanken und bietet dem Leser damit eine Abkürzung zu den essentiellen Prinzipien des Management in der heutigen Zeit.
