[Mozart and Enlightenment Semiotics](#) Jul 31 2020 "In Mozart and Enlightenment Semiotics, Stephen Rumph shifts the ground of interpretation for late eighteenth century European music by reinstating the semiotics and language theory of the period. In so doing, Rumph challenges and reappraises current orthodoxies. These challenges are extremely valuable, bravely offered, and intuitively right as well as convincingly argued." –Matthew Head, author of *Orientalism, Masquerade and Mozart's Turkish Music* "Stephen Rumph's book is, to my knowledge, the first successful attempt to ground classical music in its contemporaneous intellectual context. In this respect, Rumph's book is a great achievement. It is an imaginative tour-de-force bursting with dazzling insights, and with an apparently encyclopedic range of intellectual reference in several languages." –Michael Spitzer, author of *Metaphor and Musical Thought* "By keeping so many things in focus at the same time, Stephen Rumph has really written several books in one: an introduction to Enlightenment theories of the sign for scholars of music; a much-needed historical context for modern musical semiotics; a sensitive new exploration of the circulation of meanings in and through Mozart's music; and an important contribution to the ongoing integration of musicology into cultural studies. I suspect that in the course of several readings, one would come away each time with a different set of equally valuable revelations." –Elisabeth LeGuin, author of *Boccherini's Body: An Essay in Carnal Musicology* [Dundurn Performing Arts Library Bundle – Theatre](#) Jul 19 2019 This special bundle contains seven books that detail Canada's long and storied history in the performing arts. [Piano concertos nos. 20, 21, and 22](#) May 21 2022 The three piano concertos contained in this volume were all composed in 1785, when Mozart was 29. High points of one of the most amazingly productive and creatively brilliant periods in the composer's life, yet they are masterworks of very different character: No. 20 (K466 in D Minor), a work of intensity, passion, and spiritual conflict; No. 21 (K467 in C Major), with its luminous, world-famous "Andante," a work of calm and majesty; and No. 22 (K482 in E-flat Major), music of grace and maturity, said to have "realized the century's ideal whilst yet casting aside the shackles of fashion." These three works are presented here in authoritative two-piano playing editions edited by Franz Kullak and Hans Bischoff, two of the nineteenth century's leading piano editors and teachers of pianists. Their classic format for two keyboards is the universal standard, for students and professionals alike, for learning and rehearsing all piano concertos. It gives

the pianist the most accessible form and practical means to prepare a work for performance. To this practicality Dover adds the convenience and economy of compiling three major concertos within a single volume.

Piano Concerto No. 20, K466, and Piano Concerto No. 21, K467 Jun 22 2022 Considered two of Mozart's most important, far-reaching, and richly inventive piano concertos, the D minor, K466, and the C major, K467, represent the composer at his creative peak. Never before had Mozart so intensely explored the concerto form with its inherent struggle of one individual voice against many. And yet the two works are very different the D minor, tragic and intense; the C major, majestic and grand. Both are published here in full score with bar-numbered movements. Ideal for study in the classroom, at home, or in the concert hall, this affordable, high-quality, conveniently sized volume will be the edition of choice for music students and music lovers alike."

Brahms Beyond Mastery Oct 22 2019 In 1853 Robert Schumann identified fully-formed compositional mastery in the young Brahms, who nevertheless in the years following embarked on a period of intensive further study, producing, among other works, the neo-baroque Sarabande and Gavotte. These dances have not been properly recognized as constituting a distinct Brahms work before now, but manuscript evidence and their performance history indicate that Brahms and his friends thought of them as such in the mid-1850s, when they became the first music of his performed publicly in Gdansk, Vienna, Budapest and London. He later suppressed the dances, using them instead as a thematic quarry for three chamber music masterpieces, from different stages in his life and in distinctly different ways: the Second String Sextet, the First String Quintet and the Clarinet Quintet. This book gives an account of the compositional and performance history, stylistic features and re-uses of the dances, setting these in the wider context of Brahms ' s developing creative concerns and trajectory. It constitutes therefore a study of alost work, of how a fully-formed master opens himself to the in-flowing from afar (in Martin Heidegger ' s terms), and of the transformative reach and concomitant expressive richness of Brahms ' s creative thought.

Mozart: Piano Concertos Nos. 20 and 21 Sep 25 2022 This guide to Mozart's two most popular piano concertos--the D minor, K. 466, and the C major, K. 467 (the so-called "Elvira Madigan")--presents the historical background of the works, placing them within the context of Mozart's compositional and performance activities at a time when his reputation as both composer and pianist was at its peak. The special nature of the concerto, as both a form and genre, is explored through a selective survey of some of the approaches that various critics have taken in discussing Mozart's concertos. The concluding chapter discusses a wide range of issues of interest to modern performers.

Analytical Approaches to 20th-Century Russian Music Jun 10 2021 This volume brings together analyses of works by thirteen Russian composers from across the twentieth century, showing how their approaches to tonality, modernism, and serialism forge forward-looking paths independent from their Western counterparts. Russian music of this era is widely performed, and much research has situated this repertoire in its historical and social context, yet few analytical studies have explored the technical aspects of these composers' styles. With a set of representative analyses by leading scholars in music theory and analysis, this book for the first time identifies large-scale compositional trends in Russian music since 1900. The chapters progress by compositional style through the century, and each addresses a single work by a different composer, covering pieces by Rachmaninoff, Myaskovsky, Prokofiev, Shostakovich, Mansurian, Roslavets, Mosolov, Lourié, Tcherepnin, Ustvolskaya, Denisov, Gubaidulina, and Schnittke. Musicians, scholars, and students will find here a starting point for research and analysis of these composers' works and gain a richer understanding of how to listen to and interpret their music.

Piano Concerto No. 20 in D Minor K466 (Edition for 2 Pianos) Jan 17 2022 Mozart wrote his Piano Concerto in D minor, K466, for his subscription concerts held during the Lenten season of 1785. According to the entry in his own autograph catalogue of works, it was completed on 10 February 1785 and given its premiere one day later. Leopold Mozart, then visiting in Vienna, mentioned the piece in a letter of 14 February to his daughter: An excellent new piano concerto by Wolfgang was being written out by the copyist when we arrived, and your brother had not even had time to play through the Rondo as he had to supervise the work of copying. This Urtext edition of the concerto (with orchestral accompaniment arranged for second piano - 2 copies required for performance) has been edited by world-renowned musicologist Christoph Wolff together with pianist Christian Zacharias. Contains the cadenzas (WoO58) by Beethoven, who gave the first public performance of the concerto in Vienna, in appendix.

Mozart's Grace Apr 08 2021 Aspects of beauty in the music of Mozart It is a common article of faith that Mozart composed the most beautiful music we can know. But few of us ask why. Why does the beautiful in Mozart stand apart, as though untouched by human hands? At the same time, why does it inspire intimacy rather than distant admiration, love rather than awe? And how does Mozart's music create and sustain its buoyant and ever-renewable effects? In *Mozart's Grace*, Scott Burnham probes a treasury of passages from many different genres of Mozart's music, listening always for the qualities of Mozartean beauty: beauty held in suspension; beauty placed in motion; beauty as the uncanny threshold of another dimension, whether inwardly profound or outwardly transcendent; and beauty as a time-stopping, weightless suffusion that comes on like an act of grace. Throughout the book, Burnham engages musical issues such as sonority, texture, line, harmony, dissonance, and timing, and aspects of large-scale form such as thematic returns, retransitions, and endings. Vividly describing a range of musical effects, Burnham connects the ways and means of Mozart's music to other domains of human significance, including expression, intimation, interiority, innocence, melancholy, irony, and renewal. We follow Mozart from grace to grace, and discover what his music can teach us about beauty and its relation to the human spirit. The result is a newly inflected view of our perennial attraction to Mozart's music, presented in a way that will speak to musicians and music lovers alike.

Structural Novelty and Tradition in the Early Romantic Piano Concerto Oct 14 2021 Lindeman, a musicologist, traces and defines the historical development of the concerto form as it passed from Mozart to succeeding generations. He then assesses Beethoven's contributions, and examines the classical model of the form in the early 19th century by overviewing several early romantic composers' works. Subsequent chapters analyze and assess the responses of five precursors of Schumann, whose work offers a synthesis of radical experiments and traditional tenets. He concludes by suggesting that concertos of Liszt offer a road into further developments of the genre in the second half of the century. Beethoven's Dedications Dec 24 2019 The dedication of a piece of music is a feature generally overlooked, but it can reveal a great deal about the work, the composer, the society and the music world in which the composer lived. This book explores the musical, biographical and sociological aspects of the practice of dedicating new compositions in the late 18th and early 19th centuries, and makes a significant contribution towards a better understanding of the impact these tributes had on Beethoven's life and work, and their function within the context of the musical, cultural and economic environments in which they appeared. As the first of its kind, this study demonstrates that, as a result of their different functions, published dedications and handwritten inscriptions are distinct from one another, and for that reason they have been classified in different categories. This book, therefore, challenges the idea of what exactly can be termed as a 'dedication', a concept which extends far beyond the dedication of musical works.
