Roosevelt: The Lion and the Fox (1882-1940) Apr 07 2021 "A brilliant full-length portrait of Franklin Roosevelt the politician"—the first in an award-winning two-volume biography (*The Christian Science Monitor*). Franklin Delano Roosevelt was the longest serving president in United States history, reshaping the country during the crises of the Great Depression and World War II. But before his ascension to the presidency, FDR laid the groundwork for his unprecedented run with decades of canny political maneuvering and steady consolidation of power. In this remarkable New York Times–bestselling biography, Pulitzer Prize–winning historian James MacGregor Burns traces FDR's rise and the peculiar blend of strength and cunning that made him such a uniquely transformative figure. Weaving together lively narrative and impressive scholarship, Burns reconstructs his youth and education at Groton and Harvard, his relationships with his cousins Theodore and Eleanor, his immersion in New York State politics, and his rise to national prominence, all the way through his first two terms as president, which saw the historic New Deal take hold and the drumbeats of World War II begin. Originally published in 1956, *The Lion and the Fox* was among the first studies of Roosevelt—and it remains a landmark record of his ambitions, talents, and flaws. Hailed by the New York Times as "a sensitive, shrewd, and challenging book" and by Newsweek as "a case study unmatched in American political writings," Burns's stunning achievement is the life story of a fascinating political figure.

Leadership for the Twenty-first Century Sep 19 2019 This illuminating study critiques the concept of leadership as understood in the last 75 years and looks to the twenty-first century for a reconstructed understanding of leadership in the postindustrial era. More similarities in past decades were found than had been thought; the thread throughout Rost's book is that leadership was conceived of as good management. He develops a new definition and paradigm for leadership in this volume that distinguishes leadership from management in fundamental ways. The ethics of leadership from a postindustrial perspective completes the paradigm. The book concludes with suggestions that can be immediately utilized in helping to transform our understanding of leadership.

Reflections on Leadership Mar 06 2021 In *Reflections on Leadership* fifteen prominent leadership scholars pay tribute to James MacGregor Burns's book, *Leadership*, a classic in the field of leadership studies. The contributors address the puzzles and anomalies in his work, such as: the place of values in leadership; leadership as a casual factor in change; levels of analysis; interdisciplinary approaches to the study of leadership; the distance

of his theory from everyday experience; the absence of gender and race, and more.

The Crosswinds of Freedom, 1932–1988 Oct 13 2021 A Pulitzer Prize winner's "immensely readable" history of the United States from FDR's election to the final days of the Cold War (Publishers Weekly). The Crosswinds of Freedom is an articulate and incisive examination of the United States during its rise to become the world's sole superpower. Here is a young democracy transformed by the Great Depression, the Second World War, the Cold War, the rapid pace of technological change, and the distinct visions of nine presidents. Spanning fifty-six years and touching on many corners of the nation's complex cultural tapestry, Burns's work is a remarkable look at the forces that gave rise to the "American Century."

The American Experiment Feb 23 2020 The Pulitzer Prize-winning author's stunning trilogy of American history, spanning the birth of the Constitution to the final days of the Cold War. In these three volumes, Pulitzer Prize- and National Book Award-winner James MacGregor Burns chronicles with depth and narrative panache the most significant cultural, economic, and political events of American history. In *The Vineyard of Liberty*, he combines the color and texture of early American life with meticulous scholarship. Focusing on the tensions leading up to the Civil War, Burns brilliantly shows how Americans became divided over the meaning of Liberty. In *The Workshop of Democracy*, Burns explores more than a half-century of dramatic growth and transformation of the American landscape, through the addition of dozens of new states, the shattering tragedy of the First World War, the explosion of industry, and, in the end, the emergence of the United States as a new global power. And in *The Crosswinds of Freedom*, Burns offers an articulate and incisive examination of the US during its rise to become the world's sole superpower—through the Great Depression, the Second World War, the Cold War, and the rapid pace of technological change that gave rise to the "American Century."

Power to Lead Jan 16 2022 From Simon & Schuster, *The Power to Lead* is James MacGregor Burns' exploration into the crisis of the American presidency. Including a prologue on the desertion of the system, Burns describes an American political system that "faces a pervasive crisis of self-confidence that only the rarest kind of leadership can overcome."

The Power of Invisible Leadership Dec 23 2019 A powerful force draws people to leadership in countless businesses, nonprofits, government agencies, and social movements—we call it invisible leadership. Invisible leadership embodies situations in which dedication to a compelling and deeply held common purpose is the motivating force for leadership. *The Power of Invisible Leadership: How a Compelling Common Purpose Inspires Exceptional Leadership*, by Gill Robinson Hickman and Georgia L. Sorenson, is a readable, research-based book that shows readers how invisible leadership exists in the space between leaders and followers, artists and subjects, and purposes and people. Rather than reinforcing the idea that leadership is embodied in celebrity leaders or in gifted and charismatic individuals, this insightful new book identifies "charisma of purpose" as the motivating force for invisible leadership.

Packing the Court May 28 2020 For decades, James MacGregor Burns has been one of the great masters of the study of power and leadership in America. Now he turns his eye to an institution of government that he believes has become more powerful, and more partisan, than the founding fathers ever intended. Much as we would like to believe that the Court remains aloof from ideological politics, *Packing the Court* reveals how often justices behave like politicians in robes.

Dead Center May 08 2021 "The urgent question of our time is whether we can make change our friend and not our enemy....To renew America, we must be bold...must revitalize our democracy....Together with our friends and allies, we will work to shape change, lest it engulf us." With those inaugural words, William Jefferson Clinton began his first term as President of the United States. Now, a Pulitzer Prize-winning historian and a former White House aide provide the first penetrating, thoughtful evaluation of President Clinton's leadership. Before he was voted into office, Bill Clinton told the authors in an interview that he wanted to be a transforming leader, a president who would fashion real and lasting change in peoples' lives, in the tradition of Franklin Delano Roosevelt. But how has this president, who has sought to lead from the center with his vice president, Al Gore, and the First Lady, Hillary Rodham Clinton, measured up against his own stated goals and the aspirations and performances of other presidents since World War II? From the health care debacle and the 1994 midterm elections that swept the Republicans to a majority in both houses of Congress to the effect of scandal and impeachment on his ability to govern, *Dead Center* examines the leadership style of Bill Clinton and offers a forceful challenge to the strategy of centrism. There is no more respected presidential historian than James MacGregor Burns, author of several acclaimed books on leadership and the Pulitzer Prize-winning study of Franklin D. Roosevelt. Georgia J. Sorenson adds her own insights as a political scientist and presidential scholar. Their combined efforts have resulted in an incisive, informative, authoritative work and an absorbing read.

Law and Leadership Jun 16 2019 Leadership includes the ability to persuade others to embrace one's ideas and to act upon them. Teaching law students the art of persuasion through advocacy is at the heart of legal education. But historically law schools have not included leadership studies in the curriculum. This book is one of the first to examine whether and how to integrate the theory and practice of leadership studies into legal education and the legal profession. Interdisciplinary in its scope, with contributions from legal educators and practitioners, the book defines leadership in the context of the legal profession and explores its challenges in legal academia, private practice, and government. It also investigates whether law students need to study leadership and, if they should, why it should be offered as part of the curriculum. Finally, it considers how leadership should be taught and how it should be integrated into classes. It evaluates new leadership courses and the adaptation of existing courses to reflect on how to effectively blend law and leadership in doctrinal, clinical, and experiential classrooms. The book includes a foreword by Pulitzer Prize-winning historian and noted leadership scholar, James MacGregor Burns and a foundational essay by prominent leadership scholar and one of the founders of the International Leadership Association, Georgia Sorenson. It will be a valuable resource to anyone interested in leadership, education policy and legal ethics.

John Kennedy Mar 18 2022 The authorized biography of John F. Kennedy offers a fresh and candid look at what shaped the man America came to love and admire, just as he was on the cusp of the presidency. Historian, political scientist, and Pulitzer Prize-winning author James MacGregor Burns wrote *Roosevelt: The Lion and the Fox*, the first volume of his highly acclaimed biography of FDR, in 1956. Two years later, Burns ran for a seat in Congress and became close friends with John F. Kennedy, who was also campaigning throughout the state for reelection to the Senate. After Burns lost his election, he decided to write a biography of JFK. Without any restrictions, Kennedy granted his friend complete access to files, family records, and personal correspondence. The two men spoke at great length in Washington, DC, and at the Kennedy family compound on Cape Cod, and afterwards, Kennedy asked his relatives, friends, and political colleagues to talk openly with Burns as well. The result is a frank, incisive, and compelling portrait of Kennedy from his youth to his service in World War II and his time in Congress. While many political biographies—especially

those of presidential candidates—intend to depict a certain persona, Burns would not allow anything other than his own perception to influence him. And so, John Kennedy concludes questioning whether JFK would make “a commitment not only of mind, but of heart” to the great challenges that lay ahead. (Burns would later admit that his subject did bring both bravery and wisdom to his presidency.) First published just as Kennedy was coming into the national spotlight, this biography gives a straightforward and exciting portrayal of one of the twentieth century’s most important figures.

Jaruzelski, oder, die Politik des kleineren Übels Feb 17 2022 In dieser Untersuchung wird Jaruzelski - beispielhaft - als der Mensch analysiert, der Geschichte gemacht hat. Die Rahmenbedingung seiner leadership war das Fehlen von Demokratie. In einer stabilen Demokratie wird eine Rolle, wie sie Jaruzelski in Polen 1981 und wiederum 1989 gespielt hat, zunehmend unmöglich gemacht. Demokratie läßt leadership durch Routinisierung verschwinden. Was bleibt, das ist eine unwirkliche Sehnsucht nach Führung.

Running Alone Nov 14 2021 A disastrous war in Iraq, prisoner abuse, secret wiretaps -- the presidency of George W. Bush represents a crisis in American democracy. How did this happen? In *Running Alone* the revered political scientist and commentator James MacGregor Burns sets the imperial presidency of George W. Bush in the context of half a century of presidential politics. In his 1960 campaign, John F. Kennedy turned his back on the Democratic Party. He relied instead on his personal charisma and his family's vast wealth to win office. Once elected, he governed much as he had run: alone. He ignored the Democratic platform and instead sought counsel from a small group of hand-picked advisors, including his own brother. Kennedy fundamentally reshaped the role of President, and each of his successors has built on this model. American presidents have become increasingly isolated from the parties that brought them to power. Democratic presidents -- Johnson, Carter, and Clinton -- did tremendous damage to the Democratic Party by abandoning its core principles. Republican presidents have managed to lead more effectively in isolation, but have imperiled the nation in the process. Drawing on his own personal letters, interviews, and recollections of America's presidents, Burns charts the decline of genuine leadership in the Oval Office and offers a stirring vision of what the presidency can and should be. America deserves better leaders, and with unsurpassed knowledge of American history and politics, Burns shows us the way forward.

Cobblestone Leadership Dec 03 2020 In this study of the potential for strong and democratic government Pulitzer Prize winner James MacGregor Burns examines our failures to achieve such a system and offers some possible remedies.

Fire and Light Jul 22 2022 "With this profound and magnificent book, drawing on his deep reservoir of thought and expertise in the humanities, James MacGregor Burns takes us into the fire's center. As a 21st-century philosopher, he brings to vivid life the incandescent personalities and ideas that embody the best in Western civilization and shows us how understanding them is essential for anyone who would seek to decipher the complex problems and potentialities of the world we will live in tomorrow." --Michael Beschloss, New York Times bestselling author of *Presidential Courage: Brave Leaders and How They Changed America, 1789-1989* "James MacGregor Burns is a national treasure, and *Fire and Light* is the elegiac capstone to a career devoted to understanding the seminal ideas that made America - for better and for worse - what it is." --Joseph J. Ellis, Pulitzer Prize and National Book Award winning author *Revolutionary Summer* Pulitzer Prize-winning and bestselling historian James MacGregor Burns explores the most daring and transformational intellectual movement in history, the European and American Enlightenment In this engaging, provocative history, James MacGregor Burns brilliantly illuminates the two-hundred-year conflagration of the Enlightenment, when audacious questions and astonishing ideas tore across Europe and the New World, transforming thought, overturning governments, and inspiring visionary political experiments. *Fire and Light* brings to vivid life the galaxy of revolutionary leaders of thought and action who, armed with a new sense of human possibility, driven by a hunger for change, created the modern world. Burns discovers the origins of a distinctive American Enlightenment in men like the Founding Fathers Benjamin Franklin, John Adams, Thomas Jefferson, and James Madison, and their early encounters with incendiary European ideas about liberty and equality. It was these thinker-activists who framed the United States as a grand and continuing experiment in Enlightenment principles. Today the same questions Enlightenment thinkers grappled with have taken on new urgency around the world: in the turmoil of the Arab Spring, in the former Soviet Union, and China, as well as in the United States itself. What should a nation be? What should citizens expect from their government? Who should lead and how can leadership be made both effective and accountable? What is happiness, and what can the state contribute to it? Burns's exploration of the ideals and arguments that formed the bedrock of our modern world shines a new light on these ever-important questions.

The Three Roosevelts Jan 04 2021 *The Three Roosevelts* is the extraordinary political biography of the intertwining lives of Theodore, Franklin, and Eleanor Roosevelt, who emerged from the closed society of New York's Knickerbocker elite to become the most prominent American political family of the twentieth century. As Pulitzer Prize- and National Book Award-winning author James MacGregor Burns and acclaimed historian Susan Dunn follow the evolution of the Roosevelt political philosophy, they illuminate how Theodore's example of dynamic leadership would later inspire the careers of his distant cousin Franklin and his niece Eleanor, who together forged a progressive political legacy that reverberated throughout the world. Theodore, Franklin, and Eleanor Roosevelt led America through some of the most turbulent times in its history. *The Three Roosevelts* takes readers on an exhilarating voyage through these tumultuous decades of our nation's past, and these momentous events are seen through the Roosevelts' eyes, their actions, and their passions. Insightful and authoritative, this is a fascinating portrait of three of America's greatest leaders, whose legacy is as controversial today as their vigorous brand of forward-looking politics was in their own lifetimes. "A remarkable example of narrative and biographical history at its best." — Bruce Clayton, *Pittsburgh Post-Gazette* "No one has written more trenchantly about Franklin Roosevelt and American politics ... than James MacGregor Burns...." — H. W. Brands, *The Raleigh News & Observer* "A detailed study.... Written with impeccable scholarship." — Malinda Nash, *Houston Chronicle*

Leadership Oct 25 2022 A Pulitzer Prize-winning historian examines transformational leaders from Moses to Machiavelli to Martin Luther King Jr. in this “impressive book” (*The Washington Post*). In this groundbreaking study, Burns examines the qualities that make certain leaders—in America and elsewhere—succeed as transformative figures. Through insightful anecdotes and historical analysis, Burns scrutinizes the charisma, vision, and persuasive power of individuals able to imbue followers with a common sense of purpose, from the founding fathers to FDR, Gandhi to Napoleon. Since its original publication in 1970, *Leadership* has set the standard for scholarship in the field.

Regierungsorganisation und politische Führung in Deutschland Oct 01 2020 Der Band bietet eine politikwissenschaftliche Gesamtdarstellung der Bedingungen und Charakteristika der Regierungsorganisation und politischen Führung durch Kanzler und Bundesregierung in der Bundesrepublik Deutschland. Im Zentrum der Studie steht eine vergleichende Analyse der politischen Ressourcen und Führungsstile deutscher Kanzler seit Konrad Adenauer. Diese werden auf zwei Ebenen - innerhalb des engeren Bereichs der Regierung und auf der Ebene des politischen Systems - betrachtet. Die Analyse ist eingebettet in eine ausgreifende Darstellung und Diskussion der unterschiedlichen theoretisch-konzeptionellen Ansätze der internationalen "leadership"-Forschung. Historische Rückblicke und ein internationaler Vergleich runden die Studie ab.

George Washington Dec 15 2021 A premier leadership scholar and an eighteenth-century expert define the special contributions and qualifications of our first president Revolutionary hero, founding president, and first citizen of the young republic, George Washington was the most illustrious public man of his time, a man whose image today is the result of the careful grooming of his public persona to include the themes of character, self-sacrifice, and destiny. As Washington sought to interpret the Constitution's assignment of powers to the executive branch and to establish precedent for future leaders, he relied on his key advisers and looked to form consensus as the guiding principle of government. His is a legacy of a successful experiment in collective leadership, great initiatives in establishing a strong executive branch, and the formulation of innovative and lasting economic and foreign policies. James MacGregor Burns and Susan Dunn also trace the arc of Washington's increasing dissatisfaction with public life and the seeds of dissent and political parties that, ironically, grew from his insistence on consensus. In this compelling and balanced biography, Burns and Dunn give us a rich portrait of the man behind the carefully crafted mythology.

Leadership at the Crossroads [3 volumes] Jun 28 2020 What is leadership? Not only has that question been debated since the beginning of human culture and society, but it's a moving target based on the definer, and the epoch. The definition can be thought-provoking and profound: A leader is best when people barely know he exists, not so good when people obey and acclaim him, worse when they despise him, (Lao Tzu, 6th century BC). Or the profundity may lie shrouded in the prosaic: A leader is one who has followers, (Peter Drucker, 20th century). However you define the concept, today's challenges for leaders of all stripes are monumental, and the need for effective leadership is huge. More than anything, this set travels farther and digs deeper than most leadership books. It takes us from mere explanations of leadership to an understanding of it as part of the human condition. Reading it should be at the top of the to-do list for any leader in any era. In *Leadership at the Crossroads*, contributors from a wide variety of fields, including management, economics, political science, philosophy, sociology, history, literature, and psychology, explore the many facets of leadership. The set comprises: Volume 1: Leadership and Psychology; Volume 2: Leadership and Politics; Volume 3: Leadership and the Humanities. Collectively, this set showcases traditional and emerging approaches to leadership in both theory and practice and raises new questions brought on by society's new challenges. It also suggests solutions for developing and promoting leadership in the corporate world, politics and diplomacy, religion, education, non-profits, and the arts. Whether identifying qualities that will serve a U.S. president well, or the characteristics of the essential can-do supervisor in today's corporation, *Leadership at the Crossroads* supplies insights and intelligence that will help leaders make the most of the challenges and opportunities lying before them.

Die Gründung der Türkei und die Rolle Mustafa Kemal Atatürks - Eine Leadership-Analyse nach George MacGregor Burns Jun 21 2022 Studienarbeit aus dem Jahr 2005 im Fachbereich Politik - Politische Theorie und Ideengeschichte, Note: 1,3, Universität Rostock (Institut für Politik- und Verwaltungswissenschaften), 21 Quellen im Literaturverzeichnis, Sprache: Deutsch, Abstract: Mustafa Kemal Atatürk, ein Name auf den ein ganzes Volk stolz ist, ein Name der für die (Neu-) Begründung und Modernisierung einer ganzen Nation steht. Sein Kampf für einen Staat der Türken in einer Zeit voller politischer Verwirrungen, von Weltwirtschaftskrise und beginnender Emanzipation kleiner Länder und neuer Staaten von ihren Kolonialmächten ist eine der größten Leistungen des frühen 20. Jahrhunderts. Diese Arbeit untersucht anhand der Leadership-Theorie von James MacGregor Burns die Umstände von Atatürks frühem Leben, seine militärische Karriere und sein politisches Wirken. Mit Hilfe der Erfahrungen und Vorkommnisse im Leben des Revolutionsführers soll die Entstehung, beziehungsweise die Ausprägung seiner Fähigkeiten untersucht werden. Burns Theorie wird herangezogen, da sie eine Mischung aus theoretischer und praktischer Abhandlung, aus rein empirischen Betrachtungen vieler bedeutender Führer der gesamten Weltgeschichte besteht. Anders als andere Theoretiker vereint Burns die Geschicke eines Historikers und eines Politologen in sich. Sein Buch gilt heute als grundlegendes Werk der Leadership-Forschung, deshalb stellt sich für diese Arbeit die Frage, ob eine, in Burns Werk nicht näher behandelte, Person der nahen Zeitgeschichte anhand der Kriterien der Burns'schen Theorie analysiert werden kann und ob sie in eines der von James MacGregor Burns entworfenen Leadership-Profile eingeordnet werden kann.

The Leader's Companion: Insights on Leadership Through the Ages Mar 26 2020 This book serves as a guided introduction to the richly diverse perspectives on leadership throughout the ages and throughout the world. Writings by Plato, Aristotle, Lao-tzu and others demonstrate that the challenges of leadership are as old as civilization. Machiavelli, Tolstoy, Ghandi, and W.E.B. Du Bois provide a wide range of insights into the eternal practice and problems of leadership. Modern masters of leadership such as James MacGregor Burns, John Kotter, and Warren Bennis join such leading practitioners as Max De Pree and Roger B. Smith in discussing contemporary issues in leadership theory and practice.
