logistics and supply chain management msc university of Sep 02 2020
integrate your business skills with mathematical analysis for a modern
operational career with this msc logistics and supply chain management
degree course you ll explore the flow of information between suppliers
manufacturers retailers and consumers and find ways to streamline your
company s activity for improved effectiveness and efficiency

digital economy and carbon emission performance evidence at Nov 04 2020
01 06 2022 specifically this paper uses the policy text analysis database to
control the possible impact of the implementation of green finance policies
on carbon emissions during the sample period 10 columns 5 and 6 of panel b
show that the influence coefficient of digital economy on carbon emission
performance is positive at the 5 significance level after considering green
