A Brilliant Death Feb 25 2020 A 2017 EDGAR® AWARD FINALIST! Amanda Baron died in a boating accident on the Ohio River in 1953. Or, did she? While it was generally accepted that she had died when a coal barge rammed the pleasure boat she was sharing with her lover, her body was never found. Travis Baron was an infant when his mother disappeared. After the accident and the subsequent publicity, Travis's father scoured the house of all evidence that Amanda Baron had ever lived, and her name was never to be uttered around him. Now in high school, Travis yearns to know more about his mother. With the help of his best friend, Mitch Malone, Travis begins a search for the truth about the mother he never knew. The two boys find an unlikely ally: an alcoholic former detective who served time for falsifying evidence. Although his reputation is in tatters, the information the detective provides about the death of Amanda Baron is indisputable—and dangerous. Nearly two decades after her death, Travis and Mitch piece together a puzzle lost to the dark waters of the Ohio River. They know how Amanda Baron died, and why. Now what do they do with the information?

Public Administration's Final Exam Aug 13 2021 Examines why public administration's literature has failed to justify the profession's legitimacy as an instrument of governance Michael Harmon employs the literary conceit of a Final Exam, first "written" in the early 1930s, in a critique of the field's answers to the legitimacy question. Because the assumptions that underwrite the question preclude the possibility of a coherent answer, the exam should be canceled and its question rewritten. Envisaging a public administration no longer hostage to the legitimacy question, Harmon explains how the study and practice of public administration might proceed from adolescence to maturity. Drawing chiefly from pragmatist philosophy, he argues that despite the universal rejection of the "politics/administration" dichotomy on factual grounds, the pseudo-problem of legitimacy nonetheless persists in the guise of four related conceptual dualisms: 1) values and facts, 2) thinking and doing, 3) ends and means, and 4) theory and practice. Collectively, these dualisms demand an impossible answer to the practical question of how we might live, and govern, together in a world of radical uncertainty and interdependence. Only by dissolving them can the legitimacy question (Woodrow Wilson's ghost) finally be banished, clearing away the theoretical debris that obscures a more vital and useful conception of governance.

Final Exam Oct 27 2022 One of Julio Cortázar's great early novels. "Anyone who doesn't read Cortázar is doomed."—Pablo Neruda In its characters, themes, and preoccupations, *Final Exam* prefigures Cortázar's later fictions, including *Blow-Up* and his masterpiece, *Hopscotch*. Written in 1950 (just before the fall of Perón's government), it is Cortázar's allegorical, bitter, and melancholy farewell to an Argentina from which he was about to be permanently self-exiled. (Cortázar moved to Paris the following year.) The setting of *Final Exam* is a surreal Buenos Aires, dark and eerie, where a strange

fog has enveloped the city to everyone's bewilderment. Juan and Clara, two students, meet up with their friends Andrés and Stella, as well as a journalist friend they call "the chronicler." Juan and Clara are getting ready to take their final exams, but instead of preparing, they wander the city with their friends, encounter strange happenings in the squares and ponder life in cafés. All the while, they are trailed by the mysterious Abel. With its daring typography, its shifts in rhythm as well as in the wildly veering directions of its characters' thoughts and speech, *Final Exam* breaks new ground in the territory of stream-of-consciousness narrative techniques. It is considered one of Cortázar's best works.

The Sudoku Effect: Universities in the Vicious Circle of

Bureaucracy Sep 21 2019 This book shows that the introduction of the European Credit Transfer System (ECTS) of credit points as a new accounting unit at universities has led to increased bureaucracy and the schoolmaster-style regimentation of Bachelor's and Master's courses. It explains how, due to the pressure of having to plan every single working hour of studying in advance, a 'Sudoku Effect' is created by the necessity to combine courses, exams and modules in such a way that the points 'add up'. An unintentional side effect of the introduction of the ECTS, the Sudoku Effect has led to more classroom style teaching, an inflation of exams and fewer choices available to students. It has resulted in such complex and contradictory guidelines for the planning of the curriculum that the values attributed to the higher education reform can often only be realised if the rules for Bachelor's and Master's programmes are ignored, or at least stretched, in practice. The book describes how the reaction to this situation is the continuous further refinement of the complicated rules rather than their abolishment.

CARON Feb 19 2022 In this book, CARON: Awakening, a mother shares her experiences and emotions during her daughter's struggles to emerge from a coma following a closed head injury. The early chapters reflect the author's heavy heart, as Caron wrestles to return to consciousness--and confusion. Eventually, Caron realizes the ramifications of an insult to her brain and joins her family's nightmare. From this point, focus switches to Caron's frustrations as she battles to piece her life back together again. Caron's family quickly learns that, especially under such tragic circumstances, laughter is essential. It stabilizes the family, contributes to awakening a comatose patient, and lightens the journey of the patient who emerges into a surreal world of disconnect from the little she remembers about the person she was and wants to think she still is. This family laughed! Come laugh—and cry—with them as Caron's Mom reflects upon this difficult time in her family's life, while also offering insights that might help other families and friends who shoulder a similar burden. ----- REVIEWS FROM AMAZON.COM: INSPIRATIONAL READ FOR ALL, September 30, 2010, by E. Standish Caron: Awakening is an incredible true story of a family's love, struggle, and triumph during a time of great hardship. Teahan weaves together the emotional realities of family members when dealing with a loved one who has a traumatic brain injury. She introduces the reader to the struggles and successes of working with the hospital personnel from the time her daughter was flown to the emergency room all the way through her rehabilitation and beyond. This book would be great for people experiencing a similar situation, or for people like me who are intrigued by a heartfelt story of the intense love of a mother for her daughter. This book kept me up night after night because I couldn't stop rooting for Caron and her recovery! You will laugh, cry, and celebrate right along with Caron and her family through every step of the journey. UPLIFTING & FUNNY/A HEARTWARMING STORY OF LOVE & FAMILY, November 11, 2010, by Dani Vaughn This book is both an intimate look into a situation nobody would ever hope to find themselves in and a "trust yourself" redemption story that gave me warm fuzzies at the end. I

read for escape so I like my books to be brain candy - I want them to take me someplace I would/could not go on my own. This one did that. I cried and I laughed and I felt like I was living this story through the best and the worst.

Curriculum & Learning in Theory and Implementation Feb 07 2021 The curriculum is an important educational tool, because education and curriculum are interrelated. In comparison, the curriculum is like the human heart. If the heart can still function normally, the body will still live and function normally. The same applies to curriculum and education. If the subject runs well and is supported by components that function well, the learning process will run well and good students will be produced. The curriculum will continue to change, because the curriculum is dynamic and not static, so after continuously changing the curriculum, you must also be

prepared to make changes to all parties related to education.

Hopefully this book can make academic life everywhere still shine like the sun that never sets.
