Meaningful Teacher Learning Through Teacher Teams Every Teacher a Leader Advances in Mergers and Acquisitions Active Assessment in English Iterative Design of Teaching-Learning Sequences Professional Learning Communities by Design Equity, From the Boardroom to the Classroom Global Leadership Asia-Pacific STEM Teaching Practices Sustainable Entrepreneurship

Global Perspectives on Developing Professional Learning Communities Oct 19 2021 This book discusses distinctive features of the professional learning community concept, practices and processes across six different education systems in the Asia-Pacific region, namely Mainland China, Hong Kong, Taiwan, South Korea, Singapore, and the United States. It provides a platform for an exchange of different perspectives and offers alternative possibilities of theorizing professional learning communities across different socio-cultural contexts. Contributors provide valuable insights for policy makers, education researchers and educators in the Asia-Pacific region and elsewhere to deal with critical questions about the improvement of teaching and learning and school improvement in a globalizing world. This book was originally published as a special issue of the Asia Pacific Journal of Education.

Active Assessment in English Dec 29 2019 Using a highly creative approach it explains in detail how assessment, thinking and learning can be integrated in English lessons. 90 engaging activities cover more than 30 different assessment techniques and a wide variety of concepts. Each technique is illustrated for at least two different age ranges. Interactive electronic versions of the activities are provided on the accompanying CD. This book will be invaluable for primary and secondary teachers,

student teachers. English co-ordinators and advisers/inspectors.

JSL Vol 27-N2 Mar 12 2021 JSL invites the submission of manuscripts that contribute to the exchange of ideas and scholarship about schools and leadership. All theoretical and methodological approaches are welcome. We do not advocate or practice a bias toward any mode of inquiry (e.g., qualitative vs. quantitative; empirical vs. conceptual; discipline-based vs. interdisciplinary) and instead operate from the assumption that all careful and methodologically sound research has the potential to contribute to our understanding of school leadership. We strongly encourage authors to consider both the local and global implications of their work. The journal's goal is to clearly communicate with a diverse audience including both school-based and university-based educators. The journal embraces a broad conception of school leadership and welcomes manuscripts that reflect the diversity of ways in which this term is understood. The journal is interested not only in manuscripts that focus on administrative leadership in schools and school districts, but also in manuscripts that inquire about teacher, student, parent, and community leadership.

Exploring the Community Impact of Research-Practice Partnerships in Education Jun 14

2021 This volume explores the impact of research-practice partnerships in education (broadly conceived) on communities in which such partnerships operate. By invitation, some of the partnerships celebrated in this volume are firmly established, while others are more embryonic; some directly engage community members, while others are nurtured in and by supportive communities. Collectively, however, the eleven chapters constitute a range of compelling instances of knowledge utilization (knowledge mobilization), and offer a counter-narrative to the stereotypical divide between researchers and practitioners. Educational researchers and educational practitioners reside in and are both politically supported and socially sustained by their local communities. The

nesting of researchers' and practitioners' collaborative decision-making and action in the financial, social, organizational, and political contexts of the community—together with the intended and unintended outcomes of those decisions and actions—speaks to the essence of community impact in the context of this volume.

Learning Together, Leading Together Nov 07 2020 Increasingly the education world is recognizing that the development of learning communities is an effective means for improving schools without increasing the budget or adding new programs. This indispensable volume offers practical advice gathered from 22 schools (elementary, middle, and high schools) that have successfully modeled or are creating professional learning communities.

Vault Guide to the Top Energy Industry Employers Jul 16 2021 This guide provides business profiles, hiring and workplace culture information on more than 30 top employers.

Job Interview Questions and Answers for Hiring on Onshore Drilling Rigs Oct 31 2022 The book contains 256 questions and answers for job interview for hiring on onshore drilling rigs.

Managing Best Practice Sep 17 2021

JSL Vol 26-N6 Aug 17 2021 JSL invites the submission of manuscripts that contribute to the exchange of ideas and scholarship about schools and leadership. All theoretical and methodological approaches are welcome. We do not advocate or practice a bias toward any mode of inquiry (e.g., qualitative vs. quantitative; empirical vs. conceptual; discipline-based vs. interdisciplinary) and instead operate from the assumption that all careful and methodologically sound research has the potential to contribute to our understanding of school leadership. We strongly encourage authors to consider both the local and global implications of their work. The journal's goal is to clearly communicate with a diverse audience including both school-based and university-based educators.

The journal embraces a broad conception of school leadership and welcomes manuscripts that reflect the diversity of ways in which this term is understood. The journal is interested not only in manuscripts that focus on administrative leadership in schools and school districts, but also in manuscripts that inquire about teacher, student, parent, and community leadership.

Common Core Mathematics in a PLC at Work, c, High School Jan 22 2022 This teacher guide illustrates how to sustain successful implementation of the Common Core State Standards for mathematics for high school. Discover what students should learn and how they should learn it. Comprehensive research-affirmed analysis tools and strategies will help you and your collaborative team develop and assess student demonstrations of deep conceptual understanding and procedural fluency.

Sustainable Entrepreneurship Jun 22 2019 The way organizations manage entrepreneurship has changed dramatically over the past decade. Today, organizations take account of economic issues, but they also adopt a broader perspective of their purpose including social and environmental issues (i.e. sustainability). Yet, despite its global spread, sustainable entrepreneurship remains an uncertain and poorly defined ambition with few absolutes. This book reaffirms the important need to improve comprehension and explore the subtleties of how individuals, groups, and organizations can discover, create, and seize opportunities for blended value generation, by designing and operating sustainable ventures. It examines, in an interdisciplinary fashion and across sectoral and geographical boundaries, how entrepreneurial activities can be developed to be generally consistent with sustainable development goals, as well as by whom, for what reasons, and with what implications. The Editors comprehensively review key dimensions of the sustainable entrepreneurship phenomenon to establish an essential definition and up-to-date picture of the field.

The 19 chapters cover 4 main topics: Understanding the intentions and motivations for sustainable entrepreneurship Fostering and enacting sustainability through entrepreneurial action Leading and inspiring sustainable entrepreneurial action Finding the contextually grounded implications of and challenges to sustainable entrepreneurship and blended value generation This book is an important resource for entrepreneurs and policy makers as well as students in the fields of entrepreneurship, innovation, and sustainability.

Teacher Learning Through Teacher Teams Mar 31 2020 Teacher collaboration helps to facilitate meaningful and effective learning and enables sustainable development of schools. Teacher teams who collaboratively investigate a shared problem, or design curriculum materials together, significantly contribute to the professional development of teachers in areas of subject matter, curriculum design and data skills. Contributions to this book discuss various perspectives of teachers collaborating in design teams, by investigating the sense of collaboration and its effects, and the conditions that influence and drive it. The studies provided suggest that collaborative design and research supports participants (teachers and teacher educators) to improve their knowledge, specifically in regards to technological pedagogical content and subject matter. Participating teachers further developed curriculum design expertise, such as, understanding the relevance and effectiveness of involving stakeholders in designing and implementing newly designed curricula. This volume was originally published as a special issue of Educational Research and Evaluation.

Real World Professional Learning Communities Oct 07 2020 In a professional learning community, teachers are organized into teams, committed to meeting on a regular basis to study their teaching strategies and the effects of those strategies on the students in their classrooms. Whatever the organizational structure, the teams have one goal, that is to improve teaching so that student

learning is improved.

Job interview questions and answers for employment on Offshore Oil & Gas Platforms Aug 29 2022 The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 290 questions and answers for job interview and as a BONUS web addresses to 295 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

Asia-Pacific STEM Teaching Practices Jul 24 2019 This book offers various perspectives on the complex and crosscutting concepts of the science, technology, engineering, and mathematics (STEM) disciplines in the classroom context. Presenting empirical studies, it reveals how researchers in the Asia-Pacific Region planned and implemented STEM education in the classroom. Further, it discusses the assessment of STEM learning to clarify what important elements should be included and how researchers and educators frame and design assessment tools. The book consists of four parts: potential and trends in STEM education; teachers' practical knowledge for STEM teaching; STEM teaching practices; and assessment of STEM learning. Providing evidence on developing curriculums, implementing instructional practices and educating classroom teachers, it is intended for readers wanting to explore STEM education from multiple perspectives.

Common Core Mathematics in a PLC at Work, ϕ , *Leader's Guide* Dec 21 2021 This leader

companion to the grade-level teacher guides illustrates how to sustain successful implementation of the Common Core State Standards for mathematics. Discover what students should learn and how they should learn it. Comprehensive research-affirmed analysis tools and strategies will help collaborative teams develop and assess student demonstrations of deep conceptual understanding and procedural fluency.

Global Leadership Aug 24 2019 The follow-up to Marshall Goldsmith's 500,000-copy bestseller *The Leader of the Future*, *Global Leadership: The Next Generation* systematically identifies what tomorrow's leaders will need to know, do and believe in order to successfully lead the global enterprise of the future. Drawing on the results of an extraordinary 2-year Accenture study of emerging business leaders, this book shows why the skills of today's global leaders won't be enough--and why tomorrow's leaders won't resemble today's. Goldsmith and his co-authors first identify five new "factors of leadership" and their implications: global thinking, appreciation of diversity, technological savvy, a willingness to partner and an openness to sharing leadership. They explain what it will mean to lead in an era where intellectual capital is the dominant source of value; how to lead people whose backgrounds and values may be radically dissimilar from yours; and why achieving personal self-mastery is now a fundamental prerequisite for leading others. From the evolution of "federated," semi-autonomous organizational structures to the personal leadership challenges now arising from globalism, this book offers unprecedented insights into the new challenges of leadership--and what it will take to meet them.

The Manager's Pocket Guide to Interviewing and Hiring Top Performers Jan 10 2021 This practical guide provides the concepts and tools any manager needs to recruit and hire the best person for the job. Covers legal requirements in hiring, the importance of structure in recruiting, the

costs of a bad hire, and the value of a good hire.

[Job interview questions and answers for employment on Offshore Oil & Gas Rigs](#) Jul 28 2022 The job interview is probably the most important step you will take in your job search journey. Because it's always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry. Since these questions are so common, hiring managers will expect you to be able to answer them smoothly and without hesitation. This eBook contains 289 questions and answers for job interview and as a BONUS web addresses to 289 video movies for a better understanding of the technological process. This course covers aspects like HSE, Process, Mechanical, Electrical and Instrumentation & Control that will enable you to apply for any position in the Oil and Gas Industry.

Research Anthology on Facilitating New Educational Practices Through Communities of Learning May 14 2021 With the future of education being disrupted and the onset of day-to-day uncertainties and challenges that have to be solved quickly, teachers are now turning to professional development communities/support communities where they can share and learn about effective practices to use in the classroom. While transitioning to blended or online learning and keeping up with the technological advances in education, these communities provide an essential backbone for teachers to rely on for support and updated knowledge on what educational practices are being utilized, how they are working, and what solutions have been found for the ever-changing climate of education. Research on the benefits and use of these communities, as well as on the latest educational practices, is essential in teacher development and student learning in the current culture of a rapidly changing educational environment. The Research Anthology on Facilitating New

Educational Practices Through Communities of Learning contains hand-selected, previously published research that provides information on the communities of learning that teachers are currently involved in to seek the latest educational practices. The chapters cover the context of these communities, the benefits, and an overview of how this support is a necessary tool in today's practices of teaching and learning. While highlighting topics such as learning communities, teacher development, mentoring, and virtual communities, this book is essential for inservice and preservice teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students who are interested in how communities of practice tie into professional development, teacher learning, and the online shift in teaching.

Industrial Automation Sep 05 2020 Explores the components of automationKey features The book provides basic concepts of industrial automation It is beneficial for engineering students having interest in the field of automation The unique feature of this book is the inclusion of multiple-choice questions to help prepare students for competitive exams and interviews It covers the roles of SCADA and PLC in automation Description Automation is a process to perform controlled activities with minimal human assistance. A lot of research is being carried out in this field. Students are also opting for research and studies in automation. The objective of this book is to explain the role of industrial automation. This book will help engineering students to understand the basic concepts of industrial automation. The unique feature of this book is the inclusion of multiple-choice questions to help prepare students for competitive exams and interviews. Automation has grown into a vast field and this book will be helpful to understand it comprehensively. What will you learn SCADA and its application in Industrial Automation Supervisory and Control Functions SCADA Communication Network Human Machine Interface SCADA in EMS Programmable Logic Controller Automation

Software Field Instrumentation Device Utility Information System Who this book is for Engineering students having research interests in the field of automation. Table of contents

1. SCADA in Industrial Automation
2. Supervisory and Control Functions
3. SCADA Communication Network
4. Human Machine Interface
5. SCADA in EMS
6. Programmable Logic Controller
7. Applications of SCADA
8. Automation Software
9. Field Instrumentation Device
10. Utility Information System

About the author Mr. Vikalp Joshi holds a B.Tech (Instrumentation) degree from University Science Instrumentation Center, H.N.B.G.U, Srinagar (Garhwal), and M.Tech (Instrumentation and Control) from Graphic Era University, Dehradun. Currently, he is working as an automation engineer and has published many research papers on national and international journals. His area of interest covers Industrial Automation, Industrial instrumentation, and Process Control Instrumentation. Dr. Manoj Singh Adhikari received his B.Tech. degree in Electronics and Communication Engineering from Dev Bhoomi Institute of Technology, Dehradun, India, in 2010 and M.Tech. degree in Digital Signal Processing Engineering from the G. B. Pant Institute of Engineering and Technology (formerly known as G. B. Pant Engineering College), Pauri Garhwal, India, in 2013. He received his Ph. D. in Jan. 2019 from the same institution. Currently, he is working as an Assistant Professor in Lovely Professional University, Phagwara, Punjab. His research interests are simulation and modeling of power semiconductor devices. Dr. Raju Patel is working as an Assistant Professor in Department of Electronics & Communications Engineering, MBM Engineering College, Jodhpur, Rajasthan, India. He received his Ph.D. and M.Tech. (Specialization - VLSI Design) degrees from Malaviya National Institute of Technology, Jaipur, India, in 2014 and 2018 respectively. Bachelor of Engineering degree in Electronics & Communication Engineering from S.B.C.E.T., Jaipur, University of Rajasthan, 2007. He has a teaching and research experience for over eleven years. His research interests include

design, simulation, fabrication, and characterization of Film Bulk Acoustic Resonator as a RF filter and gas sensing applications. Dr. Rajesh Singh is currently associated with Lovely Professional University as a Professor with more than fifteen years of experience in academics. He has been awarded as gold medalist in M.Tech and honors in his B.E. His area of expertise includes embedded systems, robotics, wireless sensor networks, and Internet of Things. He has organized and conducted a number of workshops, summer internships, and expert lectures for students as well as faculty. He has twenty three patents in his account. He has published around hundred research papers in referred journals/conferences. Dr. Anita Gehlot is currently associated with Lovely Professional University as an Associate Professor with more than ten years of experience in academics. She has twenty patents in her account. She has published more than fifty research papers in referred journals and conference. She has organized a number of workshops, summer internships, and expert lectures for students. She has been awarded with "e;certificate of appreciation"e; from University of Petroleum and Energy Studies for exemplary work. She has published fifteen books in the area of Embedded Systems and Internet of Things with reputed publishers.

Advances in Mergers and Acquisitions Jan 28 2020 The chapters published in this volume provide cutting edge ideas by leading scholars, and help to inform mergers and acquisitions research around the world.

Professional Learning Communities by Design Oct 26 2019 "This practical guide to the successful implementation of Professional Learning Communities is focused on the intentional learning and actions of teachers who wish to help struggling students succeed and narrow achievement gaps. The author includes a range of professional learning designs, protocols, and tools

that can be applied to various PLC contexts. Each chapter includes an installment of a realistic and meaningful case narrative that describes what happens as faculty members work toward improving learning for all students."-- Provided by publisher.

[The Negotiated Self](#) Jun 02 2020 This collection includes critical, qualitative, creative, and arts-integrated chapters attentive to the ways in which reflexive inquiry supports explorations of teacher identity. The explicit aim of this manuscript is to advance teacher self-study and, through it, the teaching and learning experience.

[Iterative Design of Teaching-Learning Sequences](#) Nov 27 2019 This book addresses a very important aspect of science education and science education research respectively: The research-based development of Teaching Learning Sequences. The authors elaborate on important theoretical issues as well as aspects of the design and iterative evolution of a several Teaching Learning Sequences in a modern scientific and technological field which is socially relevant and educationally significant. The book is divided into two parts. The first part includes a collection of papers discussing the theoretical foundations and characteristics of selected theoretical frameworks related to designing Teaching Learning Sequences, elaborate on common issues and draw on the wider perspective of design research in education. The second part contains a collection of papers presenting case studies concerning the design, implementation, iterative evolution and evaluation of Teaching and Learning Sequences in a variety of educational context. The case studies deal with a more or less new subject matter, a part of modern interdisciplinary science, material science, which enhances the connections between science and technology. From a wider perspective the case studies draw on existing theoretical ideas on inquiry in various contexts and provide powerful suggestions for contextualized innovation in a variety of school systems and existing practices.

Common Core Mathematics in a PLC at Work, ϕ , Grades K-2 Apr 24 2022 This teacher guide illustrates how to sustain successful implementation of the Common Core State Standards for mathematics, grades K-2. Discover what students should learn and how they should learn it at each grade level. Comprehensive research-affirmed analysis tools and strategies will help you and your collaborative team develop and assess student demonstrations of deep conceptual understanding and procedural fluency

Using Video to Develop Teaching Feb 20 2022 The introduction of digital technology to video use has opened up new opportunities for raising the quality of teaching and learning. This book provides the first integrated account of how digital video can be used to develop teaching competence. It shows not only how using video can help teachers move towards more dialogic forms of teaching and learning, but also how such change benefits pupils' learning and behaviour. Based on extensive literature reviews this book provides an overview of "visual teacher learning" and summarises what is known about instructional improvements that teachers can achieve by engaging in it. These reviews and the author's empirical studies explain the activities, processes and organisational conditions needed for implementing visual teacher learning in teacher education and professional development. The book concludes with practical resources for practitioners incorporating the lessons drawn from theory and research.

Theoretical Frameworks in Qualitative Research Aug 05 2020 The Second Edition of *Theoretical Frameworks in Qualitative Research*, by Vincent A. Anfara, Jr. and Norma T. Mertz, brings together some of today's leading qualitative researchers to discuss the frameworks behind their published qualitative studies. They share how they found and chose a theoretical framework, from what discipline the framework was drawn, what the framework posits, and how it influenced their study.

Both novice and experienced qualitative researchers are able to learn first-hand from various contributors as they reflect on the process and decisions involved in completing their study. The book also provides background for beginning researchers about the nature of theoretical frameworks and their importance in qualitative research; about differences in perspective about the role of theoretical frameworks; and about how to find and use a theoretical framework.

Lean Manufacturing Feb 08 2021 Lean manufacturing is a process used in production to maximize efficiency and minimize waste by considering sustainability and the environment. This book presents a comprehensive overview of lean manufacturing in various enterprises, including manufacturing, construction, and the fabric and textile industry, among others. Chapters cover such topics as barriers to lean manufacturing, enterprise modeling, lean practices and circular economies, and more.

Every Teacher a Leader Feb 29 2020 Discover the secrets of successful teacher leadership! Whether you're a teacher who's ready to take on new roles or an administrator looking to develop strong leaders, this content-driven handbook is here to help you make distributed school leadership a reality. Inside you'll find specific how-tos for the essential skills teacher leaders need most: running meetings, teaching colleagues, providing feedback, conducting needs assessments, delivering effective professional development, resolving conflicts, employing technology, and more. The book features: Well-tested content and activities Reflective writing prompts Scenarios for discussion Self-evaluations Two companion guides: one for teachers, and one for administrators

Job interview questions and answers for hiring on Offshore Oil and Gas Rigs Sep 29 2022 Petrogav International provides courses for participants that intend to work on offshore drilling and production platforms. Training courses are taught by professionals from the oil and gas industry

with current knowledge and years of field experience. The participants will get all the necessary competencies to work on the offshore drilling platforms and on the offshore production platforms. It is intended also for non-drilling and non-production personnel who work in drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. This course provides a non-technical overview of the phases, operations and terminology used on offshore oil and gas platforms. It is intended also for non-production personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of production operations, with a particular focus on the unique aspects of offshore operations.

Making Teamwork Meaningful May 02 2020 Focus on developing people—not just improving test scores. The authors examine how staffing decisions can strengthen professional learning communities and explore actions that can help school leaders safeguard their schools against complacency. Collect tips and strategies that every teacher can adopt, and apply the professional development techniques that prove most useful.

Vital Directions for Mathematics Education Research Nov 19 2021 This book provides a collection of chapters from prominent mathematics educators in which they each discuss vital issues in mathematics education and what they see as viable directions research in mathematics education could take to address these issues. All of these issues are related to learning and teaching mathematics. The book consists of nine chapters, seven from each of seven scholars who

participated in an invited lecture series (Scholars in Mathematics Education) at Brigham Young University, and two chapters from two other scholars who are writing reaction papers that look across the first seven chapters. The recommendations take the form of broad, overarching principles and ideas that cut across the field. In this sense, this book differs from classical “research agenda projects,” which seek to outline specific research questions that the field should address around a central topic.

Governing African Gold Mining Jul 04 2020 This book takes a fresh approach to the puzzle of sub-Saharan Africa’s resource curse. Moving beyond current scholarship’s state-centric approach, it presents cutting-edge evidence gathered through interviews with mining company executives and industry representatives to demonstrate that firms are actively controlling the regulation of the gold mining sector. It shows how large mining firms with significant private authority in South Africa, Ghana and Tanzania are able to engender rules and regulations that are acknowledged by other actors, and in some cases even adopted by the state. In doing so, it establishes that firms are co-governing Africa’s gold mining sector. By exploring the implications for resource-cursed states, this significant work argues that firm-led regulation can improve governance, but that many of these initiatives fail to address country/mine specific issues where there remains a role for the state in ensuring the benefits of mining flow to local communities. It will appeal to economists, political scientists, and policy-makers and practitioners working in the field of mining and extractives.

Recent Developments in Technology-Enhanced and Computer-Assisted Language Learning

Apr 12 2021 The pace at which technology changes has created unique challenges in the integration of such technologies into language teaching and learning. Innovative pedagogies and strategies must be developed that adapt to these changes and accommodate future technological changes.

Recent Developments in Technology-Enhanced and Computer-Assisted Language Learning is an essential research publication that focuses on technological influences on language education and applications of technology in language learning courses including foreign and second language learning. Featuring an array of topics such as artificial intelligence, teacher preparation, and distance learning, this book is ideal for teachers, language instructors, IT specialists, instructional designers, curriculum developers, researchers, education professionals, academicians, administrators, practitioners, and students.

The Five Disciplines of PLC Leaders Jun 26 2022 Make the transition from traditional, whole-group reading instruction to the 21st century classroom by integrating three innovations that will dramatically improve elementary reading instruction: RTI, differentiated instruction, and technology. Detailed ex

Every School, Every Team, Every Classroom Mar 24 2022 In this sequel to *Total Instructional Alignment*, the author peels back complex layers of the change process to reveal the five big ideas at the core of successful schools. Focus on these foundational ideas to simplify decision making and eliminate distractions from your efforts to promote effective teaching and learning. Teachers and administrators alike will appreciate this straightforward approach to solid leadership for school improvement.

SPS2022 Dec 09 2020 The realization of a successful product requires collaboration between developers and producers, taking account of stakeholder value, reinforcing the contribution of industry to society and enhancing the wellbeing of workers while respecting planetary boundaries. Founded in 2006, the Swedish Production Academy (SPA) aims to drive and develop production research and education and to increase cooperation within the production area. This book presents

the proceedings of the 10th Swedish Production Symposium (SPS2022), held in Skövde, Sweden, from 26-29 April 2022. The overall theme of the symposium was 'Industry 5.0 Transformation - Towards a Sustainable, Human-Centric, and Resilient Production'. Since its inception in 2007, the purpose of SPS has been to facilitate an event at which members and interested participants from industry and academia can meet to exchange ideas. The 69 papers accepted for presentation here are grouped into ten sections: resource-efficient production; flexible production; humans in the production system; circular production systems and maintenance; integrated product and production development; industrial optimization and decision-making; cyber-physical production systems and digital twins; innovative production processes and additive manufacturing; smart and resilient supply chains; and linking research and education. Also included are three sections covering the Special Sessions at SPS2022: artificial intelligence and industrial analytics in industry 4.0; development of resilient and sustainable production systems; and boundary crossing and boundary objects in product and production development. The book will be of interest to all those involved in the development and production of future products.

JSL Vol 27-N3 May 26 2022 The journal is focused on articles on administrative leadership in schools and school districts and also in articles that inquire about teacher, student, parent, and community leadership.

[Equity, From the Boardroom to the Classroom](#) Sep 25 2019 No organization can outperform its leadership, so the school board must play the key role in transforming the district's culture. PLOs will assist school boards with transforming the district's culture within the boundaries of the board's governance role.
