As well as considering the accounting structure such as budgeting and financial control, David Leung looks at how people prepare for and facilitate the audit, and how a person's professional experience influences their view of the process and its results. His research into the theory and practice of accounting will be of interest to professionals and academics in the field, and to sociologists and academic researchers.

3 Baruch Apr 12 2021 This work provides the key to one of the most enigmatic Jewish Hellenistic texts preserved in Greek and Slavonic. 3 Baruch, properly read, significantly enriches our understanding of the history of the motifs found in early Jewish lore, at times providing missing links between different stages of their development, and preserves important evidence on the roots of Jewish mysticism, proto-Gnostic and proto-Christian traditions. New volume of much valued commentary series Provides the key to one of the most enigmatic Jewish Hellenistic texts (so far neglected by modern scholarship for its complexity).
