**From Freedom Fighters to Jihadists** Oct 15 2021 At the start of the Syrian conflict in 2011, thousands of pro-democracy rebel groups spontaneously formed to fight the Assad regime. Years later, the revolution was unrecognizable as rebel opposition forces had merged into three major groups: Jabhat al-Nusra, Ahrar al Sham, and the Islamic State in Iraq and Syria (ISIS). Why did these three groups rapidly increase in size and military strength while others simply disappeared? What is it about their organizational structure and their Islamist ideology that helped group manage their fighters so successfully? With these questions at the forefront, this book examines the internal organization of armed groups and, in particular, their human resources. Analyzing the growth of these groups through the prism of a labor market theory, this book shows that extreme Islamist groups were able to attract fighters away from more moderate groups because they had better internal organization, took better care of fighters both physically and monetarily, experienced less internal corruption, and effectively used their Islamist ideology to control recruits. With unparalleled access and extensive ethnographic research drawn from her interviews and her year embedded with Iraqi Special Operation forces, Mironova delves deep into the ideological and practical nexus of some of the most radical groups in the Middle East. This book brings together more than 600 survey-interviews with local civilians and fighters on the frontline in Syria and a dataset of human resource policies from 40 armed groups; it is an invaluable resource for anyone who wants insight into the on the ground functioning of rebel organizations.

[Pretty Liar](#) May 30 2020 How did a new, irresistible brand of television emerge from the Lebanese Civil War (1975–91) to conquer the Arab region in the satellite era? What role did seductive news anchors, cool language teachers, superheroes, and gossip magazines play in negotiating a modern relationship between television and audiences? How did the government lose its television monopoly to sectarian militias? *Pretty Liar* tells the untold story of the coevolution of Lebanese television and its audience, and the ways in which the Civil War of 1975–91 influenced that transformation. Based on empirical data, Khazaal explores the rise of language and gender politics in Lebanese television and the storm of controversy during which these issues became a referendum on television's relevance. This groundbreaking book challenges the narrow focus on present-day satellite television and social media, offering the first account of how broadcast television transformed media legitimacy in the Arab world. With its analysis of news, entertainment, and educational shows from Télé Liban and LBC, novels, periodicals, and popular culture, *Pretty Liar* demonstrates how television became a site for politics and political resistance, feminism, and the cradle of the postwar Lebanese culture. The history of television in Lebanon is not merely a record of corporate technology but the saga of a people and their continuing demand for responsive media during times of civil unrest.

Narratives of the War on Terror Jan 06 2021 Challenging the predominantly Euro-American approaches to the field, this volume brings together essays on a wide array of literary, filmic and journalistic responses to the decade-long wars in Afghanistan and Iraq. Shifting the focus from so-called 9/11 literature to narratives of the war on terror, and from the transatlantic world to Iraq, Syria, Afghanistan, the Afghan-Pak border region, South Waziristan, Al-Andalus and Kenya, the book captures the multiple transnational reverberations of the discourses on terrorism, counter-terrorism and insurgency. These include, but are not restricted to, the realignment of geopolitical power relations; the formation of new terrorist networks (ISIS) and regional alliances (Iraq/Syria); the growing number of terrorist incidents in the West; the changing discourses on security and technologies of warfare; and the leveraging of fundamental constitutional principles. The essays featured in this volume draw upon, and critically engage with, the conceptual trajectories within American literary debates, postcolonial discourse and transatlantic literary criticism. Collectively, they move away from the trauma-centrism and residual US-centrism of early literary responses to 9/11 and the criticism thereon, while responding to postcolonial theory's call for a historical foregrounding of terrorism, insurgency and armed violence in the colonial-imperial power nexus. This book was originally published as a special issue of the European Journal of English Studies.
