Spidering Hacks Apr 10 2021 Provides techniques on creating spiders and scrapers to retrieve information from Web sites and data sources.

New Lipid Lowering Therapies for Cardiovascular and Metabolic Diseases: Lessons from the Past and Future Challenges Jul 21 2019 This book illustrates some of the most recent research efforts that have been made in lowering plasma cholesterol levels in patients with CVD. Selected articles aimed to illuminate advances and urgent challenges in the management of CVD, including disease management using statin-combined therapeutic strategies.

100 Questions & Answers about High Blood Pressure (Hypertension) Jun 24 2022 100 Questions & Answers About High Blood Pressure (Hypertension) gives you authoritative, practical answers to your questions. Written by an expert on the subject, with insider commentary from actual patients, this book is an invaluable resource for anyone struggling with the medical, psychological, or emotional turmoil of this condition.

Speaking Freely Jan 27 2020 What do Dr. Seuss, William Faulkner, Toni Morrison, Andrei Sakharov, and James Michener have in common? They were all published by Bob Bernstein during his twenty-five-year run as president of Random House, before he brought the dissidents Liu Binyan, Jacobo Timerman, Natan Sharansky, and Václav Havel to worldwide attention in his role as the father of modern human rights. Starting as an office boy at Simon & Schuster in 1946, Bernstein moved to Random House in 1956 and succeeded Bennett Cerf as president ten years later. The rest is publishing and human rights history. In a charming and self-effacing work, Bernstein reflects for the first time on his fairy tale publishing career, hobnobbing with Truman Capote and E.L. Doctorow; conspiring with Kay Thompson on the Eloise series; attending a rally for Random House author George McGovern with film star Claudette Colbert; and working with publishing luminaries including Dick Simon, Alfred Knopf, Robert Gottlieb, André Schiffrin, Peter Osnos, Susan Peterson, and Jason Epstein as Bernstein grew Random House from a \$40 million to an \$800 million-plus "money making juggernaut," as Thomas Maier called it in his biography of Random House owner Si Newhouse. In a book sure to be savored by anyone who has worked in the publishing industry, fought for human rights, or wondered how Theodor Geisel became Dr. Seuss, Speaking Freely beautifully captures a bygone era in the book industry and the first crucial years of a worldwide movement to protect free speech and challenge tyranny around the globe.

Blood Pressure Solution Oct 28 2022 Having high blood pressure can lead to many other conditions and can have a seriously negative impact on the way you live your life. With **Blood Pressure Solution** you can start to tackle your hypertension and begin to lead a normal, healthy lifestyle by employing just a few crucial lifestyle changes. --Amazon.

Nutrients Intake and Hypertension May 11 2021 Hypertension is a major health problem worldwide, increasing cardiovascular (CV) risk and mortality. Together with pharmacological treatments, non-pharmacological approaches, such as nutrient intake modifications, play an important role in optimizing treatment. A link has been demonstrated between hypertension and body weight as well as dietary habits. The aim of this Special Issue is to improve the understanding of the relationships between some nutrients and hypertension, and of the effects of different dietary approaches on hypertension regulation from different points of view.

Second Spring Dec 18 2021 THE CHINESE REFER TO A WOMAN'S MIDLIFE transition as her Second Spring. Thanks to the simple, natural techniques of traditional Chinese medicine, the second half of a woman's life is a flowering of feminine potential rather than a physical and mental decline. Now, Dr. Mao's revolutionary Second Spring™ program gives you time-tested, completely natural treatments to enhance energy, sexuality, and health -- and initiate your own new season of vitality starting at age thirty-five, through premenopause, menopause, and beyond. Dr. Mao -- Yahoo!'s favorite natural health expert and author of the bestselling *Secrets of Longevity* -- offers proven natural solutions such as a surgery-free face-lift, Chinese herbs that fight memory loss, traditional remedies that improve libido and sex, and foods that keep your specific body type in peak form (they're not the same for everyone!). His safe, natural practices, outlined in more than 200 tips, can eliminate the need for expensive medicines and artificial hormones. This amazing compendium of traditional wisdom is also enjoyable to read. With chapters on topics like weight, energy, brain power, beauty, and sexual health, **Second Spring** allows you to target your concerns right away. At the end you'll find handy, at-a-glance lists addressing women's most common ailments. **Second Spring**, inspired by Dr. Mao's own mother's remarkable transformation in the second half of

her life, offers an integrated lifestyle program that will help you live long, live strong, and live happy in ways that you never thought possible.

Self-Management of Hypertension Sep 27 2022 Research shows that African-Caribbean populations with hypertension have poorer health outcomes. This exploratory and descriptive study described and analyzed self-management behavior among male and female hypertensive residents of a village in St. Vincent and the Grenadines (SVG). This qualitative study took place in Lowman's Windward village in SVG. In-depth semi structured interviews were conducted with a purposive, snowball sample of 15 females and 15 males. Most participants were poor but all had access to governmentally funded health care. Non-adherence to medical recommendations on physical activity and dietary intake was evidenced among all participants. Over 80% of participants did not own a blood pressure monitoring equipment. Females rendered more support to their spouses than they themselves received from husbands. More than 60% of participants used herbs and home remedies to control their blood pressure. More males reported social support than females. Results generally show that self-management of hypertension behaviors among both female and male residents of SVG are not extensive and that preventive behaviors can be enhanced with adequate dietary intake, daily physical activity and frequent self-blood pressure Monitoring.

Promoting Independence for Older Persons with Disabilities Sep 03 2020 The papers in this book provide important content related to aging, disability and independence. The focus of these papers is on maintaining independence and active participation in family and community activities. As we age, we face chronic health conditions that have the potential to negatively impact our independence. By using technology (smart homes, robotics, telehealth, other assistive devices), maintaining our mobility, and preventing injuries we can offset much or all of the disabling effects of chronic health conditions. This publication brings together a mix of individuals focused on aging, disability and independence, including those involved in research and development, professional practice and services, businesses providing products and services, government and policy planners, and end users and beneficiaries of our research, products, services, and policies. The main topics in this publication are Smart Homes; Robotics; Telehealth; Home Modifications and Universal Design; and Assistive Devices and Workplace Adaptations.

Blood Pressure Mar 09 2021 Since the discovery of blood pressure by Stephen Hales in 1733, scientific interest in blood pressure regulation, particularly in hypertensive population, has not lost its popularity. The importance of the interactive effects of blood pressure shifts in different clinical conditions is well understood. We know many contributing factors regulate the pressure of the blood within the arteries. However, crucial blood pressure control and the exact mechanisms involved are still under debate. The present book aims to cover blood pressure from its measurement to various factors of its control with valuable contributions from different authors, in the light of contemporary data, from bench to bed.

Advanced Therapy in Hypertension and Vascular Disease Sep 15 2021 Provides a resource for health care professionals who evaluate and manage patients with hypertension. Topics include hypertension in adolescents, treatment of hypertension in athletes, hypertension and weight loss, salt and dietary change to control blood pressure, and more.

Proceedings of 17th International Conference on Nephrology & Urology 2018 Jan 07 2021 March 12-13, 2018 London , UK Key Topics : New Updates in Hypertension, Nephrology and Kidney, Dialysis, Urinary Tract Infection, Kidney Transplantation, Pediatric Nephrology, Nephrology Nursing, Chronic Kidney Disease, Cardio Renal Failure, Diagnostic, imaging and radiation techniques, Kidney and Bladder stones, Clinical Nephrology, Surgery for Renal diseases, Hypertension Associated With Kidney Diseases, Renal Pathology-Immunology, Pediatric Nephrology, Nephrology Medicine,

Blood Pressure and Arterial Wall Mechanics in Cardiovascular Diseases Mar 21 2022 In cardiovascular prevention, there is classically a small number of cardiovascular risk factors to treat, such as hypertension, diabetes, hyperlipidemia and smoking excess, which are widely detected and treated. Recently, it has been widely recognized that new mechanical factors should be detected and treated and involves specifically pulsatile arterial hemodynamic (PAH) parameters such as: arterial stiffness, pulse pressure, and, to a lesser extent, augmentation index and pulse pressure amplification. The pedagogic aspect of this new CV specialty involves 3 principal parts: a. –Basic concepts and pathophysiological mechanisms of PAHb. –Clinical aspects and end-organ damage in PAHc. – Clinical pharmacology and therapeutics of PAH This book represents the first that spans basic science and clinical management of this new CV subspecialty. Much has been learned regarding the management of these patients in recent years and this book presents extensive data on the techniques needed to maximize outcomes.?

Proceedings of the 2009 International Conference on Signals, Systems and Automation (ICSSA 2009) Aug 26 2022 This book is a collection of papers from the 2009 International Conference on Signals, Systems and Automation (ICSSA 2009). The conference at a glance: - Pre-conference Workshops/Tutorials on 27th Dec, 2009 - Five Plenary talks - Paper/Poster Presentation: 28-29 Dec, 2009 - Demonstrations by SKYVIEWInc, SLS Inc., BSNL, Baroda Electric Meters, SIS - On line paper submission facility on website - 200+ papers are received from India and abroad - Delegates from different countries including Poland, Iran, USA - Delegates from 16 states of India - Conference website is seen by more than 3000 persons across the world (27 countries and 120 cities)

Tabloid Medicine Sep 22 2019 Argues that false and misleading medical information on the Internet has lead to a culture of fear where people avoid much-needed medicines and vaccines and development of these treatments is at an all-time low.

Ubiquitination in Health and Diseases Nov 24 2019 Ubiquitination is a biological process mediated by ubiquitin itself, the E1 ubiquitin-activating enzyme, E2 ubiquitin-conjugating enzyme, E3 ubiquitin ligase, and deubiquitinating enzyme, respectively. Currently, these multiple biological steps are revealed to participate in various life phenomena, such as cell proliferation, regulation of cell surface proteins expression, and mitochondrial function, which are profoundly related to human health and diseases. Although clinical applications targeting ubiquitination are still limited compared to those directed toward kinase systems such as tyrosine kinases, multiple enzymatic consequences should be future therapeutic implications. This Special Issue of IJMS entitled “Ubiquitination in Health and Disease” successfully published 15 distinguished manuscripts, with a total of 66 international authors and. This book provides the latest and most useful information for researchers and scientists in this field.

Yoga Journal Mar 29 2020 For more than 30 years, Yoga Journal has been helping readers achieve the balance and well-being they seek in their everyday lives. With every issue, Yoga Journal strives to inform and empower readers to make lifestyle choices that are healthy for their bodies and minds. We are dedicated to providing in-depth, thoughtful editorial on topics such as yoga, food, nutrition, fitness, wellness, travel, and fashion and beauty.

Proceedings of 6th Edition of International Conference on Pharmacognosy and Medicinal Plants 2018 May 31 2020 April 16-17, 2018 Amsterdam, Netherlands Key Topics : Natural Products Of Medicinal Interest, Traditional Medicine, Pharmacognosy, Analytical Methods For Natural Products, Toxicological Studies Of Plant Products, Phytomedicine, Phytochemistry, Plant Biotechnology And Tissue Culture, Innovative Plant Extraction Methods, Applied Plant Sciences, Complementary And Alternative Medicine, Applications Of Natural Products, Natural Products In Medicines, Analytical Techniques In Phytochemistry, Standardization Of Herbal Drugs, Formulation And Manufacture Of Plant Medicines, Clinical Pharmacognosy And Aromatic Medicinal Plants, Natural Products In Cancer Prevention And Therapy, Marine Drugs, EthnoPharmacology, Medicinal Plant Chemistry,

Speaking from the Body Nov 17 2021 In compelling first-person accounts, Latinas speak freely about dealing with serious health episodes as patients, family caregivers, or friends. They show how the complex interweaving of gender, class, and race impacts the health status of Latinas—and how family, spirituality, and culture affect the experience of illness. Here are stories of Latinas living with conditions common to many: hypertension, breast cancer, obesity, diabetes, depression, osteoarthritis, rheumatoid arthritis, dementia, Parkinson's, lupus, and hyper/hypothyroidism. By bringing these narratives out from the shadows of private lives, they demonstrate how such ailments form part of the larger whole of Latina lives that encompasses family, community, the medical profession, and society. They show how personal identity and community intersect to affect the interpretation of illness, compliance with treatment, and the utilization of allopathic medicine, alternative therapies, and traditional healing practices. The book also includes a retrospective analysis of the narratives and a discussion of Latina health issues and policy recommendations. These Latina cultural narratives illustrate important aspects of the social contexts and real-world family relationships crucial to understanding illness. *Speaking from the Body* is a trailblazing collection of personal testimonies that integrates professional and personal perspectives and shows that our understanding of health remains incomplete if Latina cultural narratives are not included.

nCOV 2020 Oct 16 2021 The Seminar Nasional of The Emerging of Novel Corona Virus (2019-nCoV) or SNCOV in collaboration with PPI Taiwan is a conference of tourism health and Social Science provide a forum for publishing research articles or review articles that improving and alert to the threat of new viruses, especially Wuhan nCoV and impact to all Aspect. This conference has been held by Faculty of Medical and Science Universitas Warmadewa and support by PPI Taiwan. The conference is held on February 11th to 12th 2020. This conference encompasses original research articles, review articles, and short communications, including The current situation of 2019-nCoV: counting the risk of transmission; Travel warning: impact to the tourist destinations; The Outbreak of 2019- nCoV: Prevention in the Indonesian Borders; The immune response against nCoV infections: into the eye of cytokine storm; The zoonosis of Novel Corona Virus and Beyond; Management, prevention and control of the Novel Corona Virus; Emerging virus: the Novel Corona Virus Travel health development in Indonesia; and Travel medicine: past, present and future. The Seminar Nasional of The Emerging of Novel Corona Virus (2019-nCoV) involves a number of competent keynote speaker and invited speaker. The paper collected are participated from various authors who are interested in the specified topic.

Transactions on Engineering Technologies Apr 22 2022 This book contains revised and extended research articles written by prominent researchers, selected from presentations at the International MultiConference of Engineers and Computer Scientists (IMECS 2018) held in Hong Kong, 14-16 March, 2018. Topics covered include engineering physics, communications systems, control theory, automation, engineering mathematics, scientific computing, electrical engineering, and industrial applications. The book gives a snapshot of selected advances in engineering technologies and their applications, and will serve as a useful reference for researchers and graduate students in these fields.

The Black Panther Party and Transformative Pedagogy Feb 26 2020 *The Black Panther Party and Transformative Pedagogy: Place-Based Education in Philadelphia*, by Omari L. Dyson, draws attention to the social dynamics that spawned a Philadelphia Branch of the Black Panther Party.

The International Conference on Advanced Machine Learning Technologies and Applications (AMLTA2019) Jul 13 2021 This book presents the peer-reviewed proceedings of the 4th International Conference on Advanced Machine Learning Technologies and Applications (AMLTA 2019), held in Cairo, Egypt, on March 28–30, 2019, and organized by the Scientific Research Group in Egypt (SRGE). The papers cover the latest research on machine learning, deep learning, biomedical engineering, control and chaotic systems, text mining, summarization and language identification, machine learning in image processing, renewable energy, cyber security, and intelligence swarms and optimization.

The Design of Sites Oct 04 2020 Creating a Web site is easy. Creating a well-crafted Web site that provides a winning experience for your audience and enhances your profitability is another matter. It takes research, skill, experience, and careful thought to build a site

that maximizes retention and repeat visits.

Online Resources for Senior Citizens Dec 26 2019 THIS BOOK FACILITATES AND EXPANDS INTERNET ACCESS BY SENIORS, ASSISTS THEM IN FINDING THE INFORMATION THEY NEED, AND CONTRIBUTES TO THEIR KNOWLEDGE OF THE AGING PROCESS BY PROVIDING A LIST OF ONLINE RESOURCES OF PARTICULAR INTEREST TO THEM.

Get the Scoop on Animal Blood Jul 25 2022 Have you ever wondered why bugs have green blood? Or how vampire bats drink blood for meals? Get The Scoop on Animal Blood gives you all the gory, scientific details on what flows in animals veins. This book is hot blooded! And cold blooded! And green blooded! In fact, when you dive into the world of animals and their blood, things can get pretty gross and weird. But we know you like gross and weird! In this installment of the award-winning Get the Scoop series, you will find out why deep-diving mammals have larger blood cells than other animals and more of them. Have you ever wondered how vampire bats prefer to eat their bloody breakfast? We'll tell you! How about why stink bugs have green blood, or while horned lizards squirt blood from their eyes? We know that stuff, too! Get the Scoop on Animal Blood comes with more than 250 wild and awesome facts about animal blood, and also has over 200 color photos of animals and, you guessed it, their blood. With this book, you will be neck deep in bloody science fun.

ACHITS 2019 Oct 24 2019 e would like to welcome you to the ASIAN CONFERENCE ON HUMANITIES, INDUSTRY, AND TECHNOLOGY FOR SOCIETY hosted by, Dr Soetomo University on 30 - 31 July 2019 at Dr Soetomo University, Surabaya, East Java, Indonesia. The conference aims to provide all researchers with the opportunity to share their research in the areas of Social Science, Industry, & Technology to the International community. This Conference accepts all paper related to Humanities, Industrial Revolution, Applied Technology and Engineering for Sustainable Society and our Objectives is to promote an exchange of research ideas and knowledge among local and international researchers and alsI to provide a platform for research collaborations among local and international researchers and institutions of higher learning.

The Internet Made Easy for Seniors May 23 2022

Novel Strategies and Approaches in Hypertension Therapy Aug 22 2019 INTRODUCTION: Hypertension has become a major public health problem in the last few decades. High blood pressure is a serious risk factor for premature cardiovascular disease and end-organ damage including left-ventricular hypertrophy and congestive heart failure, which in turn increases the risk of cardiovascular morbidity and mortality. While studies of hypertension have been performed worldwide in a variety of epidemiological settings such as diabetes, renal function, obesity and thyroid disorders, there is a need to identify appropriate treatment strategies Novel Strategies and Approaches in Hypertension introduces the reader to different aspects of hypertension treatment (environmental and occupational factors and different clinical settings that can trigger the disease). The book also covers special topics related to the use of new diagnostic biomarkers for hypertension patients, as well as endocrine and nutrition-focused approaches to treat the condition. This reference book will be useful for medical professionals involved in the management and care of patients affected with hypertension. [Series Introduction] Frontiers in Hypertension presents reference works, textbooks and monographs on both fundamental and advanced topics related to the pathophysiology, diagnosis and treatment of hypertension. The series is essential reading for medical students and professionals involved in hypertension and allied subspecialty treatment programs.

Self-Help Support Group Directory Apr 29 2020 Descriptions and contacts for: over 4,500 no-fee support groups in New Jersey; over 1,100 national, model and online self-help groups; and over 400 county, state, and national toll-free specialty helplines. The support groups, that are described, cover a broad range of disability, parenting, bereavement, illness, addiction, abuse, emotional, and other stressful situations and issues.

Erectile Dysfunction in Hypertension and Cardiovascular Disease Aug 14 2021 This concise guide to the often overlooked association between erectile dysfunction and hypertension/cardiovascular disease covers a wide range of aspects of importance to the clinician. It examines the impact of antihypertensive drug therapy on erectile function and explains how the management of erectile dysfunction in hypertensive patients depends on a variety of factors. Different treatment approaches are described, including lifestyle modification, PDE-5 inhibitors and other novel agents and behavioral therapy and helpful therapeutic algorithms are presented. A further focus of the book is the potential role of erectile dysfunction as an early diagnostic indicator of asymptomatic coronary artery disease and a prognostic marker for cardiovascular events. In addition, key background information is supplied on epidemiology and pathophysiology, and the significance of erectile dysfunction in different patient groups, such as the elderly and those with chronic kidney disease, is examined. Erectile dysfunction is a major public health problem affecting more than ten percent of the general male population and is now considered to be predominantly of vascular origin. This book will be informative and of practical value for all practitioners responsible for caring for the very many patients who experience erectile dysfunction in the setting of hypertension and cardiovascular disease.

Resistant Hypertension in Chronic Kidney Disease Jul 01 2020 This comprehensive volume provides a detailed review on the general work up of chronic kidney disease-associated resistant hypertension. This title is separated into four parts; the first of which provides definitions, epidemiology, characteristics, risk stratification and outcomes of resistant and apparent treatment resistant hypertension. The next two sections explore pathophysiology and diagnosis, treatment in the light of new guidelines, as well as procedures and devices for neural modulation. Part four discusses public health approaches to resistant hypertension, educational programs, and resistant hypertension for general practitioners. Resistant Hypertension in CKD brings up-to-date information to nephrologists, internists, cardiologists and a wide array of other clinicians and health professionals taking care of chronic kidney disease patients.

Rosen's Emergency Medicine - Concepts and Clinical Practice E-Book Feb 20 2022 Since its revolutionary first edition in 1983, Rosen's Emergency Medicine set the standard for reliable, accessible, and comprehensive information to guide the clinical practice of emergency medicine. Generations of emergency medicine residents and practitioners have relied on Rosen's as the source for current information across the spectrum of emergency medicine practice. The 9th Edition continues this tradition of excellence, offering the unparalleled clarity and authority you've come to expect from the award-winning leader in the field. Throughout the text, content is now more concise, clinically relevant, and accessible than ever before – meeting the needs of today's increasingly busy emergency medicine practitioner. Delivers clear, precise information, focused writing and references; relevant, concise information; and generous use of illustrations provide definitive guidance for every emergency situation. Offers the most immediately relevant content of any

emergency medicine reference, providing diagnostic and treatment recommendations with clear indications and preferred actions. Presents the expertise and knowledge of a new generation of editors, who bring fresh insights and new perspectives to the table. Includes more than 550 new figures, including new anatomy drawings, new graphs and algorithms, and new photos. Provides diligently updated content throughout, based on only the most recent and relevant medical literature. Provides improved organization in sections to enhance navigation and six new chapters: Airway Management for the Pediatric Patient; Procedural Sedation and Analgesia for the Pediatric Patient; Drug Therapy for the Pediatric Patient; Co-Morbid Medical Emergencies During Pregnancy; Drug Therapy in the Geriatric Patient; and Global and Humanitarian Emergency Medicine.

Disorders of Blood Pressure Regulation Dec 06 2020 This book aims to present a comprehensive classification of hypertensive phenotypes based on underlying target organ involvement. Particular emphasis is placed on review and assessment of clinical presentation, pathophysiologic mechanisms, and possible specific therapeutic options for each hypertension phenotype. Several of these phenotypes are well known and well described in the literature, such as prehypertension, white coat and masked hypertension, isolated systolic hypertension, renovascular hypertension, endocrine hypertension, pediatric hypertension, and gestational hypertension. Other hypertension phenotypes, however, are not widely recognized, being reported only in special reviews; examples include hypertension associated with renal calculus disease and other rarer causes such as Turner syndrome, herbal and medicinal compounds, and pharmacologic agents. A detailed account of the various causes of monogenic hypertension is also included. Finally, a section is devoted to general aspects of hypertension, including the significance of blood pressure indices, the natural course of untreated and treated hypertension, hypertension mechanisms, genetics, and guidelines for blood pressure control.
