Red Winter May 10 2021 It is the winter of 1920. While the peaceful remote city of Nikolaevsk-on-Amur in far Eastern Siberia is frozen from the world, a band of Bolshevik revolutionaries infiltrates the town and arrests the majority of the population: businessmen, bourgeoisie, foreigners and Jews. Luba's husband, Ilya, a prominent newspaper editor and lawyer, is among those jailed and tortured. Overnight, her comfortable, upper class life is upended and Luba finds herself on the run with four small children and a mother-in-law. Pigsties...abandoned warehouses...opium dens--these are just a few of the places Luba is forced to seek refuge as she tries to elude capture and stay alive. Will her former servants, a Chinese cook and a Russian coachman, help or turn on her?The little-known history of this exotic time and place is seen through the eyes of a reluctant heroine grappling with adversity and loss during the dangerous political chaos following the overthrow of Tsar Nicholas II. Kyra Kaptzan Robinov has woven her family's history into a fictional narrative. Having grown up hearing her father and grandmother tell of that winter, she felt compelled to capture it in writing. Though their accounts contained villains and executions, peril and pain, they always seemed more like escapades than reality. When Kyra started to research the actual historical events, the gruesome details she uncovered were in such contrast to the quaint tales she'd heard in her childhood that she didn't know how to reconcile the discrepancy. Had her father misremembered? Had her grandmother blotted out the horrors of her past? How could she ever weave together the conflicting information? Red Winter is a story that resonates today where, again, one percent of the population controls all the wealth while dissatisfied masses are poised to revolt and over 60 million people are displaced worldwide, the highest

number in history. Like Luba, any of our lives could be disrupted tomorrow; but would we have the grit to survive such a tumultuous turn of events?

Russia's Heroes Jun 11 2021 This new volume by historian Axell captures the valor of the sons and daughters, soldiers and villagers, Cossacks and snipers who battled in Moscow and Stalingrad--and dramatically illustrates how deeply patriotism and bravery lie in the Russian soul.

Europe's Influence on Ukrainian State Building - A Struggle for Identity Between Europe and Russia Aug 01 2020 Master's Thesis from the year 2006 in the subject Politics - International Politics - Region: Eastern Europe, grade: 1,3, University of Hamburg (Departement für Wirtschaft und Politik), language: English, abstract: Up to today the realities in Post-Soviet space are defined by the search for state and national identity in contrast to the former peripheral existence during the Soviet past. From the very beginning of their independence the newly independent states were afflicted with different problems resulting from the ambiguous situation of quasi sovereignty but still strictly Moscow centralised rule. A regime change always demands great flexibility in ideas of these who have to deal with the remains of the past and the results of the breakdown in order to find an adequate approach to the new realities. It is therefore not astonishing that in account to the various economic and social constraints in the different Newly Independent States, each was in search of its own way to deal with the problems of state-building, acceptance of the international community and Russia's attempts to dominate the former sphere of influence. The analysis will deal with the special case of Ukraine's emancipation from the USSR heritage and the historic dominance of an imperial Russia. The focus of analysis will be put on the processes of state-identity building in the framework of Central and Eastern European Countries (CEEC), Western Europe and the EU, as well as the context of Russian foreign policy towards the 'Near Abroad'. The subject is especially relevant today, since a wave of 'colourful' revolutions has taken place on the territories of some former Soviet republics in the past to years, showing that the political processes of forming a nation are still hard to predict in that region. The important change that goes on in the former Soviet republics, including Ukraine, is the transition from the main foreign policy objective of the 1990s - either to escape from Russia or to stay

Russia Oct 27 2022 Written in 1918, this volume attempts to give an unbiased account of the Russian Revolution and what it stood for, by asking to what extent the Revolution was the result of the War and how far the struggle for peace which followed the Revolution was inherent in it. It discusses whether or not the peace policy of the revolutionary democracy expressed the true purpose of Russia at the time or were the soviets really alien to the people and to the Revolution. It also questions whether the disintegration of Russia and the dissolution of the Russian Army inevitable.

Lost in the Taiga Sep 02 2020 Describes the Lykovs, a family of fundamentalists, who have survived in Siberia for more than fifty years

Ideas and International Political Change Oct 23 2019 The end of the Cold War dramatically - and unexpectedly - transformed international politics toward the end of the 20th century. At the heart of this change was the struggle over new and old ideas.

Women's Struggle for Higher Education in Russia, 1855-1900 Sep 21 2019

Women in nineteenth-century Russia had greater access to medical and higher education than any of their contemporaries in Europe. *Women's Struggle for Higher Education in Russia* explores the remarkable expansion and upgrading of women's education during the turbulent decades following the Crimean War.

Vladimir Burtsev and the Struggle for a Free Russia Jan 26 2020 Vladimir Burtsev and the Struggle for a Free Russia examines the life of the journalist, historian and revolutionary, Vladimir Burtsev. The book analyses his struggle to help liberate the Russian people from tsarist oppression in the latter half of the 19th century before going on to discuss his opposition to Bolshevism following the Russian Revolution of 1917. Robert Henderson traces Burtsev's political development during this time and explores his movements in Paris and London at different stages in an absorbing account of an extraordinary life. At all times Vladimir Burtsev and the Struggle for Free Russia sets Burtsev's life in the wider context of Russian and European history of the period. It uses Burtsev as a means to discuss topics such as European police collaboration, European prison systems, international diplomatic relations of the time and Russia's relationship with Europe specifically. Extensive original archival research and previously untranslated Russian source material is also incorporated throughout the text. This is an important study for all historians of modern Russia and the Russian Revolution.

Invasion Apr 21 2022 New York Times bestselling author of *Collusion* and *The Snowden Files* Luke Harding's personal, frontline reporting on Russia's harrowing invasion of Ukraine, the biggest news event of the year and an inflection point in international politics "The definitive story of Russia's invasion of Ukraine." -Bill Browder, New York Times bestselling author of *Red Notice* and *Freezing Order* In a damning, inspiring, and breathtaking narrative of what is likely to be a turning point for Europe—and the world—Guardian correspondent and New York Times bestselling author Luke Harding reports firsthand on the Russian invasion of Ukraine. When, just before dawn on February 24, 2022, Vladimir Putin launched a series of brutal attacks, Harding was there, on the ground in Kyiv. But this senseless violence was met with astounding resilience—from, among others, the country's embattled president, Volodymyr Zelenskyy—and the courage of a people prepared to risk everything to preserve their nation's freedom. Here are piercing portraits of the leaders on both sides of this monumental struggle, a haunting depiction of the atrocities in Bucha and elsewhere, and an intimate glimpse into the ordinary lives being impacted by the biggest conflict in Europe since the Second World War. Harding captures this crucial moment in history with candor, insight, and an unwavering focus on the human stories that lie at its heart.

Russia, 1762-1825 Oct 15 2021 Details the state of Russian military power from 1762-1825 in light of the military at large, the government, and the peoples of Russia. Several chapters discuss impacts of the military and their funding on agriculture and industry, other peoples, and countries as well as cost against the Russians themselves.

The Road to Balaklava Jun 30 2020

The Russian Army and the Japanese War Aug 13 2021

Russia and the Russians Oct 03 2020 Chronicles the history of the Russian Empire from the Mongol Invasion, through the Bolshevik Revolution, to the

aftereffects of the Cold War.

Shaping Actors, Shaping Factors in Russia's Future Mar 08 2021 As the new, post-Soviet Russia struggles to participate in the global economy against the historical burden inherited from the old regime, this fascinating study describes the recent Russian policies of 'muddling through', recognizing the country as something of a wounded giant, but still a major power in the world. The book's consideration of likely scenarios for the Russia of the year 2000 and beyond - and discussion of Ukraine's East-West balancing act - is therefore of the utmost importance.

The Red Web Dec 17 2021 A Library Journal Best Book of 2015 A NPR Great Read of 2015 The Internet in Russia is either the most efficient totalitarian tool or the device by which totalitarianism will be overthrown. Perhaps both. On the eighth floor of an ordinary-looking building in an otherwise residential district of southwest Moscow, in a room occupied by the Federal Security Service (FSB), is a box the size of a VHS player marked SORM. The Russian government's front line in the battle for the future of the Internet, SORM is the world's most intrusive listening device, monitoring e-mails, Internet usage, Skype, and all social networks. But for every hacker subcontracted by the FSB to interfere with Russia's antagonists abroad -- such as those who, in a massive denial-of-service attack, overwhelmed the entire Internet in neighboring Estonia -- there is a radical or an opportunist who is using the web to chip away at the power of the state at home. Drawing from scores of interviews personally conducted with numerous prominent officials in the Ministry of Communications and web-savvy activists challenging the state, Andrei Soldatov and Irina Borogan peel back the history of advanced surveillance systems in Russia. From research laboratories in Soviet-era labor camps, to the legalization of government monitoring of all telephone and Internet communications in the 1990s, to the present day, their incisive and alarming investigation into the Kremlin's massive online-surveillance state exposes just how easily a free global exchange can be coerced into becoming a tool of repression and geopolitical warfare. Dissidents, oligarchs, and some of the world's most dangerous hackers collide in the uniquely Russian virtual world of The Red Web.

The Ferryman Nov 04 2020 THE FERRYMAN is a classically written story of a German Mennonite family in Siberia during the last years of the rule of Czar Nicholas and the People's Revolution. As the Bolsheviks (later called Communists) gained power these wealthy Mennonite wheat farmers had all their property confiscated and their families uprooted and scattered. The protagonist, Heinrich Gerhard, had just graduated from the University of St. Petersburg when he renounced his religion for Bolshevism. His journey through the changing politics, the war, and finally his search for personal freedom provides the narrative for this compelling novel.

The Russian Army in the First World War Mar 20 2022 For 100 years little attention has been paid to the Russian army that fought the Germans and the Austro-Hungarians in the First World War on the Eastern Front. Yet the Tsar's army played a critical part in the global conflict and was engaged in a sequence of shattering campaigns that were waged on a massive scale on several fronts across eastern Europe. ??Nik Cornish, in this heavily illustrated account, seeks to set the record straight. In a selection of almost 200 archive photographs he gives a graphic impression of the Russian

army of the time, of the soldiers and commanders, and of the conditions in which they fought. He describes the key stages in the struggle - the battles of Tannenberg and the Masurian Lakes, the Przemysl siege, the Gorlice-Tarnow and Brusilov offensives and the Romanian and Turkish campaigns.??His book is a fascinating photographic record of the army under the Tsar Nicholas II, then under the Provisional Government and the Bolshevik rule that succeeded him. The impact of the Russian revolution is also revealed in the photographs which take the story through from the initial outbreaks of discontent and the abdication of the Tsar to Lenin's take-over and the end of Russia's war - and of the imperial army _ in 1917.

Kapitalizm Sep 26 2022 An account of Russia's transition period from a socialist state to a market economy. Brady interviewed major political and economic figures, and takes readers into the factories, stores, banks, homes and schools of Russia, to explain how the country's own brand of capitalism has evolved.

Russia's Struggle With Modernity 1815-1929 Apr 28 2020 In 1917 Czarist Russia collapsed during the catastrophe of the First World War, but the tensions that had accumulated inside the empire for a century due to the challenges that modernisation presented were the real seeds of her undoing. The 19th Century was a battle for the soul of Russia, and it decided whether she would embrace liberal democracy and industrialisation like her contemporaries in Europe, or whether she would retreat into the past. In fact, she did both, and the human legacy of the disasters that followed is still being barely comprehended.

Odyssey through Russia Jan 06 2021 It is the year 1944 as the 19-year old German high school graduate, Dieter, is drafted by the Nazi army and sent into World War II, which by this time has already been long lost to the Allied Forces. Within months of being sent straight into the confusion and turmoil at the Eastern Front in Belarus he is taken prisoner by Russian forces. And so begins his long and harrowing odyssey through various Russian prisoner of war (POW) camps and an imprisonment that would extend far beyond the declared end of WWII. This true-story is a concise narrative of a good-hearted young man and his struggle to survive through a time of distorted ideologies, horrid violence, starvation, disease and the devastatingly long, freezing Russian winters.

Lenin's Last Struggle Aug 21 2019 One of the great political strategists of his era, V. I. Lenin continues to attract historical interest, yet his complex personality eludes full understanding. This new edition of Moshe Lewin's classic political biography, including an afterword by the author, suggests new approaches for studying the Marxist visionary and founder of the Soviet state. *Lenin's Last Struggle* offers invaluable insights into the rise of the Bolshevik party and the Soviet Union, a saga complicated by complex strategic battles among the leaders of Lenin's generation: leaders whose names are universally known, but whose personalities and motivations are even now not sufficiently understood. Moshe Lewin was a collective farm worker in the USSR and a soldier in the Soviet army. He later became director of studies at the Ecole Pratique des Hautes Etudes in Paris, a fellow of the Kennan Institute, a senior fellow of Columbia University's Russian Institute, and is now emeritus professor of history at The University of Pennsylvania.

Serfdom, Society, and the Arts in Imperial Russia Feb 25 2020 Richard Stites explores the dramatic shift in the history of visual and performing arts that took place in the last decades of serfdom in Russia in the 1860s and revisualises the culture of that flamboyant era.

Under Siege Nov 23 2019 *Under Siege* is the first book in any language to document and analyze the ethno-political dynamics of Abkhazia - a region located in the north eastern corner of the Black Sea - which broke away from the post-Soviet Republic of Georgia following a bloody civil war. For fifteen years the region was a de facto independent, though internationally unrecognized, state, until August of 2008, when the short war over South Ossetia (another breakaway territory) ended in Russia's official declaration that Abkhazia and South Ossetia were sovereign. Though few are familiar with the political and economic mechanics of this small, post-Soviet country, Abkhazia has become a crucial component of Russia's struggle to redefine its global influence and a major player in its geopolitical battle with the West. "Under Siege" clarifies Abkhazia's ethno-political dynamics, which have played a major role in the country's state building efforts and have shaped the conditions under which many ethnic communities live. Abkhazians, Armenians, Georgians, and Russians all call Abkhazia home, and this volume explores the effect of the government's de facto status on these groups' idea of nationhood and how continuing tensions between Georgia, Abkhazia, and Russia fail to improve the socio political situation of the region.

Hidden and Triumphant Sep 14 2021 A true story-told for the first time This dramatic history recounts the story of an aspect of Russian culture that fought to survive throughout the 20th century: the icon. Russian iconography kept faith alive in Soviet Russia after the Bolshevik Revolution. As monasteries and churches were ruined, icons destroyed, thousands of believers killed or sent to Soviet prisons and labor camps, a few courageous iconographers continued to paint holy images secretly, despite the ever-present threat of arrest. Others were forced to leave Russia altogether, and while living abroad, struggled to preserve their Orthodox traditions. Today we are witness to a renaissance of the Russian icon, made possible by the sacrifices of this previous generation of heroes.

What About the Workers? May 30 2020 Most writing on the dramatic events in the former Soviet Union has been based on the assumption that Russia is engaged in a transition from "state socialism" to capitalism, and focuses on political and ideological debates formulated in these terms. This book questions whether Russia is in transition to capitalism and looks behind the political and ideological debates to focus on the development of the social relations of production, and on the class struggles to which these give rise. Simon Clarke introduces the book with an examination of the crisis of state socialism, in order to identify the dynamic of change in contemporary Russia. Michael Burawoy and Pavel Krotov develop a detailed case study of one Russian enterprise, which is followed by an analysis of the role of the trade unions in the Soviet system by Simon Clarke and Peter Fairbrother, on the basis of which they develop an analytical account of the development of the workers' movement in Russia since 1987. Simon Clarke concludes the book with a detailed examination of struggles around privatization. The common conclusion is that beneath the political turmoil the dominant class has renewed and restructured itself, but has not managed to overcome the

challenge presented by the working class. The fragmentation and atomization of the working class remains a problem, but the struggle over the transformation of class relations is only just beginning.

Vladimir Burtsev and the Struggle for a Free Russia Jul 20 2019 Vladimir Burtsev and the Struggle for a Free Russia examines the life of the journalist, historian and revolutionary, Vladimir Burtsev. The book analyses his struggle to help liberate the Russian people from tsarist oppression in the latter half of the 19th century before going on to discuss his opposition to Bolshevism following the Russian Revolution of 1917. Robert Henderson traces Burtsev's political development during this time and explores his movements in Paris and London at different stages in an absorbing account of an extraordinary life. At all times Vladimir Burtsev and the Struggle for Free Russia sets Burtsev's life in the wider context of Russian and European history of the period. It uses Burtsev as a means to discuss topics such as European police collaboration, European prison systems, international diplomatic relations of the time and Russia's relationship with Europe specifically. Extensive original archival research and previously untranslated Russian source material is also incorporated throughout the text. This is an important study for all historians of modern Russia and the Russian Revolution.

Imperial Russia and the Struggle for Latin American Independence, 1808-1828 Jun 18 2019 This study, the first of its kind in English, examines Russian responses to the independence movement in Latin America during the early nineteenth century. From a strictly presentist perspective, the investigation of this subject contributes to the historiography of colonialism and of Latin America's relations with the major world powers. In addition, it rounds out the story of foreign interests in the emancipation of Spanish and Portuguese America, while at the same time shedding new light on the history of Russian overseas expansion. The study probes the major determinants of Russian responses to the struggle for independence of colonial Latin America and evaluates, from a European perspective, the actual impact of tsarist policy on the course of those historic events. Drawing on a wide range of printed materials and on hitherto unused manuscript sources from the archives and libraries of Spain, Portugal, Brazil, and the USSR, it isolates Russian New World objectives during the first decades of the nineteenth century and relates those objectives to the formulation of tsarist policy toward the insurgent Iberian colonies.

The Russian Civil War, 1918-1921 Nov 16 2021 "A wealth of knowledge . . . For every incident, chasing Kornilov or dealing with Admiral Kolchak, the reader has a 360-degree view." —Roads to the Great War The Russian Civil War was one of the most fateful of the 20th century's military conflicts, a bloody three-year struggle whose outcome saw the establishment of a totalitarian communist regime within the former Russian Empire. As such, it commands the attention of the military specialist and layman alike as we mark the one hundredth anniversary of the war's end. This work is the third volume of the three-volume Soviet official history of the Russian Civil War, which appeared during 1928-1930, just before the imposition of Stalinist orthodoxy. While the preceding volumes focused on the minutiae of the Red Army's organizational development and military art, this volume provides an in-depth description and analysis of the civil war's major operations along

the numerous fronts, from the North Caucasus, the Don and Volga rivers, the White Sea area, the Baltic States and Ukraine, as well as Siberia and Poland. It also offers a well-argued case for the political reasons behind the Bolsheviks' military strategy and eventual success against their White opponents. And while it is a certainly a partisan document with a definite political bias, it is at the same time a straightforward military history that manages to avoid many of the hoary myths that later came to dominate the subject. As such, it is easily the most objective account of the struggle to emerge from the Soviet Union before the collapse of the communist system in 1991.

A Century of Violence in Soviet Russia Mar 28 2020 He unhesitatingly names those individuals who bear responsibility for these catastrophic deaths, bringing into sharper focus than ever before the facts, the perpetrators, and the events of the Soviet Union's years of terror."--BOOK JACKET.

Class Struggle in the Pale Jun 23 2022 Dr Mendelsohn analyses the nature and condition of the Russian Jewish proletariat and the Jewish labour movement.

The Russian Civil War Apr 09 2021 Russia's experiences during the Civil War determined the framework within which the Russian people were governed throughout the Soviet period. These newly-released documents reveal how the events of 1918-22 reflected struggles and tensions in Russian society that were more complex than the simple Red-White propaganda war. In this collection, the authors have sought out documents which highlight the complexities of the struggle, exploring episodes which shed light on what was a multi-faceted struggle which left wounds on Russian society that never healed.

Russia Against India Feb 19 2022

The Strongman May 22 2022 "Russia under Vladimir Putin has proved a prickly partner for the West, a far cry from the democratic ally many hoped for when the Soviet Union collapsed. Abroad, Putin has used Russia's energy strength as a foreign policy weapon, while at home he has cracked down on opponents, adamant that only he has the right vision for his country's future."--Bloomsbury Publishing.

The Fragile Empire Dec 25 2019 Examines Russian history from the reign of Peter the Great to the collapse of tsarism in 1917

The Last Man in Russia Feb 07 2021 From Oliver Bullough, the acclaimed author of the Orwell Prize-shortlisted, *Let Our Fame Be Great*, a study - part travelogue, part political analysis - of a nation in crisis. In the 1960s, when the Soviet Union said it was building heaven on earth and the brave, non-conformist dissidents lived like free men in the midst of this enormous prison, the Russian nation began to drink itself to death. For a while, government income from vodka surpassed their income from oil. Now, fifty years later, with the Soviet state dismantled, this is still a country where Muscovites might drink a bottle of vodka before breakfast, where demographers look with astonishment as the population of the world's largest country continues to fall, far beyond the rate of decline in the West. In *The Last Man in Russia*, award-winning writer Oliver Bullough uses the life of an extraordinary Orthodox priest, with equal passions for writing and for saving his fellow citizens from the KGB, to find out why. Following in the footsteps of Father Dmitry, Bullough reconstructs the world he experienced:

the famine, the occupation, the war, the frozen wastes of the Gulag, the collapse of communism and the giddy excesses that followed it. While the story of Russia's self-destruction is shrouded in secrecy and denial, with no contemporary documents to acknowledge or explain why so many Russians were seeking oblivion, Dmitry's diaries and sermons are that rare thing: an insight into life in a totalitarian state, unmediated and raw, exposing the deep spiritual sickness born out of the country's long communist experiment. Offering a portrait of Russia like no other, one that traces the current contours of the Russian soul, Oliver Bullough shows that in a country so willing to crush its citizens, there is also courage, resilience and - at last - small, flickering glimmers of hope.'Brisk, lucid style ... skilful interweaving of historical context with his own rich experience of Russia. [Bullough] has a talent for sketching the people he meets, often administering a welcome dose of humour ... and he appreciates the absurd, in the best Russian tradition ... an ambitious and wide-ranging journey' Arthur House, Sunday Telegraph'An extraordinary portrait of a nation struggling to shed its past and find peace with itself' Anthony Sattin, Sunday Times'[A] superb hybrid of travel and social analysis ... raw, poetic prose ... The Last Man in Russia is distinguished by the excellence of its writing and its lucid, unsparing gaze' Ian Thomson, Daily Telegraph'[Bullough] is particularly good at conjuring key moments, vivid characters and credible dialogue, and at flipping between the small incident and the big picture ... Imagining [the whole country of Russia] is a whole lot easier with such a lively, well-written and commanding narrative to guide us' Anthony Sattin, Observer[Praise for Let Our Fame Be Great]: 'Raw, romantic' Guardian'A haunting portrait of a people blown to the winds by a forgotten storm' Economist'Brilliant ... Bullough draws you irresistibly into his narrative, fusing reportage, history and travelogue in colourful, absorbing prose ... The book is a pleasure' Spectator'Wonderful ... compelling' Financial TimesOliver Bullough studied modern history at Oxford University and moved to Russia after graduating in 1999. He lived in St Petersburg, Bishkek and Moscow over the next seven years, travelling widely as a reporter for Reuters news agency. He is now the Caucasus Editor for the Institute of War and Peace Reporting. His first book, Let Our Fame Be Great: Journeys Among the Defiant People of the Caucasus, received the Cornelius Ryan award in the United States and was shortlisted for the Orwell Prize in Britain. Oliver Bullough received the Oxfam Emerging Writer award in 2011.

Russia's War in Syria Dec 05 2020 Edited volume

Putin's Oil Jul 12 2021

Struggling Russia Aug 25 2022

Germany's Russia Problem Jul 24 2022 The relationship between Germany and Russia is Europe's most important link with the largest country on the continent. This book analyses how successive German governments from 1991 to 2014 have misread Russian intentions, until Angela Merkel sharply recalibrated German and EU policy towards Moscow.

The Soviet-Afghan War Jan 18 2022 Offers a candid view of a war that played a significant role in the ultimate demise of the Soviet Union. Presents analysis absolutely vital to Western policymakers, as well as to political, diplomatic, and military historians and anyone interested in Russian and Soviet history. Provides insights regarding current and future Russian

struggles in ethnic conflicts both at and within their borders, struggles that could potentially destroy the Russian Federation.
